Take More Vacations Scott Keyes, 2021-05-11 ** USAToday Bestseller ** The founder of Scott's Cheap Flights explains why we're searching for airfare all wrong, shares the strategies that have saved his two million newsletter subscribers a collective \$500 million on airfare, and presents a bold new approach for how to see the world while never overpaying for flights again. When Scott Keyes booked flights to Italy for \$130 roundtrip and Japan for \$169 roundtrip, he didn't just uncover amazing fares; it was the beginning of a new approach that makes travel possible for anyone who has dreamed of seeing the world. What's stopping us all from traveling more? The confusion of buying airfare—not knowing when to book, where to buy, or what to pay. *Take More Vacations* is the guidebook for anyone hoping to turn one annual vacation into three. Readers will discover why the traditional way of planning vacations undercuts our ability to enjoy them, and how a new strategy can lead to cheaper fares and more trips. Why cheap flights never have to be inconvenient flights, and all the steps you can take to get a good fare even when you don't have flexibility. The surprising best week for international travel, and how small airports actually get the best deals. Keyes challenges the conventional wisdom that it costs thousands of dollars to fly overseas and shows readers how to make previously unthinkable trips possible.

How To Buy Cheap Airline Tickets To Anywhere In The World (Cheap Air Travel) Macie Melendez, 2012-02-24 ABOUT THE BOOK But this popularization of air travel has also brought about something pretty spectacular: cheaper flights. Because of the large amount of airlines out there, the competition is always fierce, waiting to lure customers with discounts and additional value (think free drinks, extra leg room, or no baggage charges). But getting these cheap fares isn't always easy. You'll need the following tips to get you flying high (at the lowest possible cost, of course). MEET THE AUTHOR Macie Melendez has been a professional writer since 2005 and has been published in various publications, including Home Energy and San Francisco magazine, among others. She graduated with a Bachelor of Arts in English from San Diego State University, and currently lives in San Francisco with her husband and their dog. EXCERPT FROM THE BOOK It's no longer a rarity to find a credit card provider that offers you airline miles with your purchases. According to CompareCards.com, airline credit cards "let the cardholder rack up miles, points, or similar value which can then be converted into a free ticket to fly to a favorite destination." So, if you are already using a credit card, why not also get miles toward a flight? Although most of these cards do have annual fees, they still have similar interest rates to other credit cards that don't provide air travel rewards, which means when all said and done, you are still getting a really cheap flight.
