Star Signs Includes Numerology & Chinese Astrology Bejan Daruwala,1991-01-01 NEW ENLARGED EDITION Finally a book, India and the world, has been looking forward to, from the pen of Bejan Daruwalla, one of the greatest astrologers and psychics of our times. Special features of this book are: sun-signs in depth, numerology for everyone of you, a terrific piece blending Chinese and Western astrology, something about the history, lore and use of gems, and an article on gifts for all the 12 signs. Here, in short, is God's plenty. Daruwalla is a strong devotee of Lord Ganesha (the elephant-headed God who is known to remove obstacles and sorrows.) Amongst his predictions, the noteworthy ones were the release of Nelson Mandela and the fall of Margaret Thatcher which appeared in the magazine "Eve's Weekly", January 20, 1990. Widely travelled, Bejan Daruwalla was invited by three Radio Stations and WBN's channel 10, Columbus, Ohio for his talks. He was also interviewed in the American Dailies during his stay there. Another distinction, he was invited by the prestigious Edgar Cayce Foundation, Virginia Beach for a series of lectures and needless to mention that the Indian newspapers and T.V. stations in Washington did him proud - and the Indians certainly know their astrologers! A unique honour for Bejan Daruwalla where America is his home away from home. The star astrologer is already on another book.

The Secret of Luo Shu Lars Berglund,1990

A Companion to Yi jing Numerology and Cosmology Bent Nielsen,2013-04-15 Translations of the Yi jing into western languages have been biased towards the yili ('meaning and pattern') tradition, whereas studies of the xiangshu ('image and number') tradition - which takes as its point of departure the imagery and numerology associated with divination and its hexagrams, trigrams, lines, and related charts and diagrams - has remained relatively unexplored. This major new reference work is organised as a Chinese-English encyclopedia, arranged alphabetically according to the pinyin romanisation, with Chinese characters appended. A character index as well as an English index is included. The entries are of two kinds: technical terms and various other concepts related to the 'image and number' tradition, and bio-bibliographical information on Chinese Yi jing scholars. Each entry in the former category has a brief explanation that includes references to the origins of the term, cross-references, and a reference to an entry giving a more comprehensive treatment of the subject.

The Numerology of the I Ching Taoist Master Alfred Huang, 2000-07-01 The first book to cover the complete Taoist teachings on form, structure, and symbol in the I Ching. • Provides many new patterns and diagrams for visualizing the layout of the 64 hexagrams. • Includes advanced teachings on the hosts of the hexagrams, the mutual hexagrams, and the core hexagrams. • Written by Taoist Master Alfred Huang, author of *The Complete I Ching*. *The Numerology of the I Ching* is the first book to bring the complete Taoist teachings on form, structure, and symbol in the I Ching to a Western audience, and it is a natural complement to Alfred Huang's heralded *Complete I Ching*. It examines not only the classic circular arrangement of the eight trigrams but also the hidden numerology in this arrangement and its relationship to tai chi and the Chinese elements. Huang explains the binary code underlying the I Ching, the symbolism behind the square diagram of all 64 hexagrams, and Fu Xi's unique circular layout of the 64 hexagrams, completely unknown in the West. Entire chapters are devoted to such vital material as the hosts of the hexagrams, the mutual hexagrams, and the core hexagrams--all barely hinted at in previous versions of the I Ching. With appendices listing additional symbolism for each hexagram, formulas for easily memorizing the Chinese names of the sixty-four hexagrams, and much more, *The Numerology of the I Ching* is a must for serious I Ching students.

Analyse Your Date of Birth R. K. Bagaya,2006 From the very dawn of humanity, humans have always been curious about their future. And so Numerology, Western Astrology and Chinese Astrology as three distinct studies evolved. Analyse your Date of Birth synthesises all three to help you predict accurately a person's character, behaviour and even his / her future. Numerology is the study of the occult meanings of numbers, that set of numbers associated with the date of your birth or letters of your name, and their influence on human life. This book analyses the date of birth according to Numerology. People have since early days looked to the heavens and the planets for guidance. This resulted in the study of planets, their movement, their position during the birth of a person and their effect on humans. This study was called Astrology. The author has used Western Astrology to analyse the month a person was born in. And finally the year a person is born is analysed according to Chinese Astrology. In Chinese Astrology twelve of the animal signs are allotted to each of the twelve years constituting the smaller cycle of the Chinese Zodiac. According to Chinese legend it was Lord Buddha who rewarded every animal who came to him just before he departed from Earth, by naming a year after it. This book is a detailed study of the occult sciences, and brings to you a novel method to predict your future.

Zeus Sensor And Numerology Buddy Huang, Bret Taylor, 2016-07-29 Unlike traditional forms of Numerology, which add or reduce larger sets of numbers, Zeus Sensor Numerology correlates the 10 singular numbers of 0-9 to the Five Elements of Earth, Metal, Water, Wood, and Fire. Adding a Yin and Yang polarity to each element creates a matching ten-components. Users of our books and mobile apps can identify the innate energy that comprises our Body and Soul, as well as recognizing the natural, cyclical energy in our environment. Using the traditional Eastern theory of Bazi or Body Source Code, Zeus Sensor reveals the distinctive energy in the universe at our birth time and birthplace that comprises our configuration. This innate psychological and physiological energy can be manipulated through the use of numbers and colors to create personal balance and harmony. Using the traditional Eastern theory of timekeeping based on the 10 Heavenly Stems and 12 Earthly Branches, Zeus Sensor applies a singular number and color to each of the 60 components of a clock or calendar. This external energy is not ongoing and irregular; instead it is cyclical and predictable. Zeus Sensor Numerology removes all arithmetic, matching a singular number to the natural components of our birth time and place using Body Source Code. With the use of numbers and colors based on the Five Elements, we can easily manipulate our innate energy, as well as the energy in our environment to match our unique structure.
