*Translation and Literature in East Asia* Jieun Kiaer, Jennifer Guest, Xiaofan Amy Li, 2019-05-07 *Translation and Literature in East Asia: Between Visibility and Invisibility* explores the issues involved in translation between Chinese, Japanese and Korean, as well as from these languages into European languages, with an eye to comparing the cultures of translation within East Asia and tracking some of their complex interrelationships. This book reasserts the need for a paradigm shift in translation theory that looks beyond European languages and furthers existing work in this field by encompassing a wider range of literature and scholarship in East Asia. *Translation and Literature in East Asia* brings together material dedicated to the theory and practice of translation between and from East Asian languages for the first time.

**Divided Languages?** Judit Árokay, Jadranka Gvozdanović, Darja Miyajima, 2014-01-21 The present volume is a collection of papers presented at the international conference “Linguistic Awareness and Dissolution of Diglossia” held in July 2011 at Heidelberg University. The aim is to reevaluate and compare the processes of dissolution of diglossia in East Asian and in European languages, especially in Japanese, Chinese and in Slavic languages in the framework of the asymmetries in the emergence of modern written languages. Specialists from China, Japan, Great Britain, Germany and the U.S. contributed to the volume by introducing their research focusing on aspects of the dissolution of diglossic situations and the role of translation in the process. The first group of texts focuses on the linguistic concept of diglossia and the different processes of its dissolution, while the second investigates the perception of linguistic varieties in historical and

transcultural perspectives. The third and final group analyses the changing cultural role and function of translations and their effect on newly developing literary languages.

Japanese for Sinologists Joshua A. Fogel, Fumiko Joo, 2017-07-18 This textbook, the first of its kind, is aimed at helping students of Chinese history and culture acquire a great ability at reading Japanese. After an introduction, several charts, and guide to dictionaries, it presents eight chapters--each with a brief introduction, the Japanese text, and an extensive, layered vocabulary list. All chapters are taken from ordinary Japanese resources, but all of the authors are known to be extraordinary scholars. The final appendix provides full translations of all the essays. The principal audience is students who have completed two or three years of classroom Japanese language instruction and want to jump into China-related materials. Although best used in a classroom with a teacher, especially assiduous students may be able to use it on their own.--Provided by publisher.

*Translating the Occupation* Jonathan Henshaw, Craig A. Smith, Norman Smith, 2021-02-15 From 1931 to 1945, Chinese citizens were subjugated to Japanese imperialism. Despite the enduring historical importance of the occupation, *Translating the Occupation* is the first English-language volume to provide such a diverse selection of important primary sources from this period. Contributors have translated Chinese, Japanese, and Korean texts on a wide range of subjects, focusing on writers who have long been considered problematic or outright traitorous. This volume offers a practical, accessible sourcebook from which to challenge standard narratives. It deepens our understanding of the myriad tensions and transformations at work in Chinese wartime

society.

*Translation and Translation Studies in the Japanese Context* Nana Sato-Rossberg, 2012-08-09 Japan is often regarded as a 'culture of translation'. Oral and written translation has played a vital role in Japan over the centuries and led to a formidable body of thinking and research. This is rooted in a context about which little information has been available outside of Japan in the past. The chapters examine the current state of translation studies as an academic discipline in Japan and a range of historical aspects (for example, translation of Chinese vernacular novels in early modern times, the role of translation in Japan's modernization, changes in stylistic norms in Meiji-period translations, 'thick translation' of indigenous Ainu place names), as well as creative aspects of translation in modern and postwar Japan. Other chapters explore contemporary phenomena such as the intralingual translation of Japanese expressions embedded in English texts emanating from diasporic contexts, the practice of pre-translation or writing for an international audience from the outset, the innovative practice of reverse localization of Japanese video games back into Japanese, and community interpreting practices and research.

**Translating the West** Douglas R. Howland, 2001-09-30 In this rich and absorbing analysis of the transformation of political thought in nineteenth-century Japan, Douglas Howland examines the transmission to Japan of key concepts--liberty, rights, sovereignty, and society--from Western Europe and the United States. Because Western political concepts did not translate well into their language, Japanese had to invent terminology to engage Western political thought. This work of westernization served to structure

historical agency as Japanese leaders undertook the creation of a modern state. Where scholars have previously treated the introduction of Western political thought to Japan as a simple migration of ideas from one culture to another, Howland undertakes an unprecedented integration of the history of political concepts and the semiotics of translation techniques. He demonstrates that Japanese efforts to translate the West must be understood as problems both of language and action--as the creation and circulation of new concepts and the usage of these new concepts in debates about the programs and policies to be implemented in a westernizing Japan. Translating the West will interest scholars of East Asian studies and translation studies and historians of political thought, liberalism, and modernity.

**A Cultural History of Translation in Early Modern Japan** Rebekah

Clements, 2015-03-05 The translation of texts has played a formative role in Japan's history of cultural exchange as well as the development of literature, and indigenous legal and religious systems. This is the first book of its kind, however, to offer a comprehensive survey of the role of translation in Japan during the Tokugawa period, 1600–1868. By examining a wide range of translations into Japanese from Chinese, Dutch and other European texts, as well as the translation of classical Japanese into the vernacular, Rebekah Clements reveals the circles of intellectual and political exchange that existed in early modern Japan, arguing that, contrary to popular belief, Japan's 'translation' culture did not begin in the Meiji period. Examining the 'crisis translation' of military texts in response to international threats to security in the nineteenth century, Clements also offers fresh insights into the overthrow of the Tokugawa shogunate in 1868.

**Transnationalism and Translation in Modern Chinese, English, French and Japanese Literatures** Ryan Johnson, 2020-12-15 The theory of “literary worlds” has become increasingly important in comparative and world literatures. But how are the often-contradictory elements of Eastern and Western literatures to cohere in the new worlds such contact creates? Drawing on the latest work in philosophical logic and analytic Asian philosophy, this monograph proposes a new model of literary worlds that is best suited to comparative literature dealing with Western and East Asian traditions. Unlike much discussion of world literature anchored in North American traditions, featured here is the transnational work of artists, philosophers, and poets writing in English, French, Japanese and Mandarin in the twentieth century. Rather than imposing sharp borders, this book suggests that vague boundaries link Eastern and Western literary works and traditions, and that degrees of distance can better help us to see the multiple dimensions that both distinguish and join together literary worlds East and West. As such, it enables us to grasp not only how East Asian and Western writers translate one another’s works into their own languages and traditions, but also how modern writers East and West modify their own traditions in order to make them fit in the new constellation of literary worlds brought about by the complex flow of literary information across twentieth-century Eurasia.

*The Rainbow World* Burton Watson, 1990 Nonfiction. In *THE RAINBOW WORLD*, Burton Watson, internationally respected translator and writer, charms us with his experiences as a student of East Asian culture and longtime resident of Japan. These essays, written over many years, reflect the changes that have taken place in postwar

Japan and suggest both the pleasures and trials experienced by foreigners living there. Taken as a whole, this collection is a candid and warm picture of the Japanese people, presented with humor and lightness of touch.

COMPARATIVE STUDY OF 2 JAPANESE 日語, Lok-Hin Kevin Shen, 2017-01-27 This dissertation, *A Comparative Study of Two Japanese-English and Two Japanese-Chinese Translations of the Tale of Genji* by 日語, Lok-hin, Kevin, Shen, was obtained from The University of Hong Kong (Pokfulam, Hong Kong) and is being sold pursuant to Creative Commons: Attribution 3.0 Hong Kong License. The content of this dissertation has not been altered in any way. We have altered the formatting in order to facilitate the ease of printing and reading of the dissertation. All rights not granted by the above license are retained by the author. Abstract: Abstract of thesis entitled *A Comparative Study of Two Japanese-English and Two Japanese-Chinese Translations of The Tale of Genji*. Submitted by Shen Lok Hin Kevin for the degree of Master of Philosophy at the Department of Japanese Studies of the University of Hong Kong in April 2003 This thesis compares two English translations, by Arthur Waley and Edward Seidensticker, and two Chinese translations, by Feng Tzukai and Lin Wen Yue, of the classical Japanese masterpiece written a millennium ago, *The Tale of Genji*. Comparison of the two English versions and the two Chinese versions have been done in various aspects and from various views, however, cross-comparison of works in English and Chinese can hardly be found. This thesis aims to fill this gap, with the advantage of the bilingual (Eng-Chin) environment of

Hong Kong. The first part of this thesis introduces the historical background of the period when the Japanese masterpiece was written, and also its author, Murasaki Shikibu. These background information may not seem to have direct relation to my findings, but they are essential for readers who are not familiar with Japanese history and literature. The second part talks about traditional views on translations, and discussions on meaning in the West, in China and in Japan. In the discussion on meaning, there is an underlying-link to my conclusion. If meaning of word is built on the accumulation of personal experience, then it means that everyone would interpret a word in a different manner, and thus create different translations for the same source text. And this is explained as one of the cultural differences. The third part describes the background of the four translators and their works, which forms another base for my comparisons. The fourth part of the study is the main comparisons of the four translations. I gradually start from a macro-view (short paragraph) to a micro-view (word). Finally the thesis answers the question, What influenced the four translators' choices? in terms of cultural differences roughly summarized as political, linguistic and gender-related. **Translation and Cultural Change** Eva Hung, 2005-01-01 History tells us that translation plays a part in the development of all cultures. Historical cases also show us repeatedly that translated works which had real social and cultural impact often bear little resemblance to the idealized concept of a 'good translation'. Since the perception and reception of translated works □ as well as the translation norms which are established through contest and/or consensus □ reflect the concerns, preferences and aspirations of

their host cultures, they are never static or homogenous even within a given culture. This book is dedicated to exploring some of the factors in the interplay of culture and translation, with an emphasis on translation activities outside the Anglo-European tradition, particularly in China and Japan.

**Translation and Creation** David E. Pollard, 1998-03-15 In the late Qing period, from the Opium War to the 1911 revolution, China absorbed the initial impact of Western arms, manufactures, science and culture, in that order. This volume of essays deals with the reception of Western literature, on the evidence of translations made. Having to overcome Chinese assumptions of cultural superiority, the perception that the West had a literature worth notice grew only gradually. It was not until the very end of the 19th century that a translation of a Western novel (*La dame aux camélias*) achieved popular acclaim. But this opened the floodgates: in the first decade of the 20th century, more translated fiction was published than original fiction. The core essays in this collection deal with aspects of this influx according to division of territory. Some take key works (e.g. Stowe's *Uncle Tom's Cabin*, Byron's "*The Isles of Greece*"), some sample genres (science fiction, detective fiction, fables, political novels), the common attention being to the adjustments made by translators to suit the prevailing aesthetic, cultural and social norms, and/or the current needs and preoccupations of the receiving public. A broad overview of translation activities is given in the introduction. To present the subject in its true guise, that of a major cultural shift, supporting papers are included to fill in the background and to describe some of the effects of this foreign invasion on native literature. A rounded picture emerges that will be intelligible to readers who have no specialized knowledge of China.

**A Catalogue of the Chinese Translation of the Buddhist Tripitaka** Bunyiu Nanjio, 2017-11 Excerpt from A Catalogue of the Chinese Translation of the Buddhist Tripitaka: The Sacred Canon of the Buddhists in China and Japan This is a complete Catalogue of the Chinese Translation of the Buddhist Tripitaka, the Sacred Canon of the Buddhists in China and Japan. It contains not only the titles of 1662 different works (of which 342, however, are miscellaneous works), but also the names of the authors and translators, together with their dates. The arrangement and classification of these works are the same as in the original Chinese Catalogue, i. E. N o. 1662. Notes taken from various sources are added under each title with their full references. A list of the principal authorities consulted by me will be found on p. Xxxii. Though I gladly and gratefully acknowledge the assistance received from my predecessors, there still remain such difficulties as were pointed out by the Rev. J. Summers in his Descriptive Catalogue of the Chinese, Japanese, and Manchu books in the Library of the India Office, 1872 (p. Iv), when he says 'the title of a [chinese] book is often untranslatable; the author's name is frequently out of sight, and has to be sought for in some obscure corner or work; the date of the publication is alike often doubtful, and in the case of Buddhist Literature the identification of the Chinese title with the Sanskrit original is sufficiently troublesome This quotation will to a certain extent explain the imperfection of my own work, for which I have to crave the indulgence of those who may use it. My principal object in making this compilation has been to show the original, though it may be not quite scientific, arrangement Of this great Collection of our Sacred Canon, made in China under the Min dynasty, A. D. 1368 - 1644. A copy of the Japanese edition of this Chinese Collection,

published in Japan in A. D. 1678 - 1681, is now in the Library of the India Office in London. 'it is this copy of the Sacred Books, ' says the Rev. S. Beal, that (in 1874) I requested His Excellency Iwakura Tomomi to procure for the India Office Library. In 1875 the entire Tripitaka was received at the India Office, in fulfilment of the promise made by the Japanese Immediately after this, Mr. Beal prepared a Catalogue of the books for practical purposes which was completed in June 1876, within the time of six months 3. **Translating China** Xuanmin Luo, Yuanjian He, 2009 The book is a collection of essays on translating various types of text (literary, religious, political, etc.) into and from Chinese. The focus is on how such translations have been produced and propagated from ancient to modern times, and their sociocultural impact on the evolution of Chinese history and Chinese translatology.

**Translation and Modernization in East Asia in the Nineteenth and Early Twentieth Centuries** Wong Lawrence Wangchi, 2018-03-15 This book discusses how Western ideas, knowledge, concepts and practices were imported, adapted and even transformed into varied contexts in East Asia. In particular, authors in this rich volume focus on the role translation played in the processes of modernization in China, Japan, and Korea in the 19th and early 20th centuries.

*Sino-Japanese Transculturation* Richard King, Cody Poulton, Katsuhiko Endo, 2012-01-01 Sino-Japanese Transculturalism examines the cultural dimensions of relations between East Asia's two great powers, China and Japan, in a period of change and turmoil, from the late nineteenth century to the end of the Second World War. This period saw Japanese invasion of China, the occupation of China's North-east (Manchuria) and Taiwan, and war between the two nations from 1937-1945; the scars of that war are still evident in relations between the two countries today.

**Shaping the Field of Translation In Japanese ↔ Turkish Contexts II** Ryō Miyashita, Esin ESEN, 2019-05-31 The academic discipline of translation studies is only half a century old and even younger in the field of bilateral translation between Japanese and Turkish. This book is the second volume of the world's first academic book on Turkish↔Japanese translation. While this volume gathered discussions on translation studies with theoretic and applied aspects, literature, linguistics, and philosophy, the second volume deals with the history of translation, philosophy, culture education, language education, and law. It also covers the translation of historical materials and divan poetry. These books will be the first steps to discuss and develop various aspects of the field. Such

compilation brings together experienced and young Turkology and Japanology scholars as well as academics linked to translation studies and translation, and also translators. Both volumes contain 24 essays written by twenty-two writers from Japan, Turkey, USA and China. Special notes by Özlem BERK ALBACHTEN, Special notes by Nobuo MISAWA, Ryō MIYASHITA, Esin ESEN, Shingo YAMASHITA, Gülzemin ÖZRENK AYDIN, Iku NAGASHIMA, İbrahim Soner ÖZDEMİR, Sinan LEVENT, Barış KAHRAMAN, Derya AKKUŞ SAKAUE, Yukiko KONDO, Okan Haluk AKBAY, Ayatemis DEPÇİ
