How to Clean Toilets - And other things your Mom should have taught you about cleaning Bathrooms Rachel Redden, John Davidson, 2015-02-17 Table of Contents Introduction Deep Cleaning Cabinet Dusting The Mirror Soap Dish Sink Tubs/Shower Shower Curtain Bidets Commode (toilet) Rugs Toilet Brush and Cup Floors Garbage's Time Monthly Routine Weekly Routine Daily Routine Types of Bathroom Ware Apparel Cleaning supplies Cleaning on a budget Tips Conclusion Author Bio Publisher Introduction The bathroom has to be the most used room in the entire house, but nobody wants to clean it. Why? Well for starters, it's a disgusting job, but I think you'll agree that cleaning a bathroom is a task that is not to be taken too lightly, it can cause sickness or worse if you just let it be. It's a big job most of the time and often we don't know where to start, a lot of

the time and we tend to leave it until it is so filthy that we can no longer stand it. But I think we can all agree that there is nothing more disgusting than going to someone's house and using a filthy bathroom. I once went to a friend's house and had to use their bathroom. The stench in that room nearly killed me off! So I decided I would rather go in my pants than use that bathroom (I didn't if you wanted to know. We left for home before I went to those drastic measures). So even if it's just for the neighbors we should clean it. Though it doesn't excuse the fact that it is a big job every single time you clean it. Well, I'm here to tell you that even deep cleaning it can be less of a big deal when you know how to go about it. All it takes is a plan, some rags, cleaners and some desire.

Careers in Janitorial and Cleaning Services Don Rauf, 2014-12-15 It may not be the most glamorous field, but janitorial and cleaning are essential services that are always needed by businesses and homeowners, even when the economy is in a downturn. The Bureau of Labor Statistics predicts steady growth for janitorial opportunities over the next 10 years. In this volume, readers will learn practical information that will help them pursue and secure a custodial job, such as obtaining certification and questions to ask in an interview. In addition, the book addresses the different tasks janitors are responsible for, and current advances in the industry, like environmentally friendly cleaning practices and sophisticated machinery.

Stinking Cleaning Julie Finch-Scally, 2022-10-31 Stinking Cleaning is a small book about housekeeping and how to keep clean the important areas of a home. It follows a young couple, Steven and Clarissa, as they start life together in a one bedroom rental flat and what they learn about cleaning and saving money. Their intention is to purchase their own property to move into as a married couple. The book is set out similarly to a diary-come-recipe book, where either Clarissa or Steven talk about what they have learned from friends and relatives and write it down. They also list the requirements and process of each procedure as they go about cleaning and keeping house. Subjects covered are the usual cleaning areas: the kitchen and bathroom. But the book also touches on other matters, such as providing recipes for natural cleansers as well as the best process for washing and ironing. It even explains how to keep Hi-Fi equipment clean. All through the book are helpful hints on ways to save time and money, and explanations of old systems and strategies for running a home. Stinking Cleaning is the perfect reference book for the younger generations who have not been taught to clean or keep house properly, as it explains the when, where and why of cleaning and house work.

**Green Cleaning 101** Sustainable Stevie,2012-04-10 There are main basic food items that we already have in our home that can be used as DIY natural cleaning solutions or what's termed as green cleaning. You just have to know which of them can be used to clean what. This includes vinegar, baking soda, salt, olive oil, and other items that are discussed in Green Cleaning 101 - DIY Natural Cleaning Solutions with Vinegar and Other Frugal Resources That You Already Have. White vinegar is the most dominant ingredient throughout. You might not even need to go out and buy anything extra. But if you're frugal like more of us are becoming these days, it'll cost less than commercial brands and will still get the job done for you in an eco-friendly way which is expanded upon. Are you sensitive or allergic to toxic chemical cleaning solutions? When you open or twist off the cap, does your head throb? Do your eyes start watering? Does it become hard to breathe while you're in a room trying to clean it? Well, a DIY book on green cleaning is the way to go and it's really not difficult to do. You just have to be willing to measure and mix easy solutions. Make a large enough amount that will last you for a few cleanings and then you won't need to do it again for a while. Simply double or triple what it says to do and that's all there is to it. Numerous recipes are shared for cleaning floors, toilets, bathtubs, walls, windows, countertops, sinks, mirrors, carpet, clothing, removing rust, etc. There's also a special natural deodorizing solution that not too many know about. NOTE: This particular book mentions some additional items that aren't necessarily food-based but definitely should be included in the mix, so to speak. It even gives suggestions on what cleaning tools you should use to clean specific things with. (You'll see what I mean.) Put Green Cleaning 101 - DIY Natural Cleaning Solutions with Vinegar and Other Frugal Resources That You Already Have into action for a healthier environment for you and your family.
