Farmer Brown does not like Halloween. So he draws the shades, puts on his footy pajamas, and climbs into bed. But do you think the barnyard animals have any respect for a man in footy pajamas? No, they do not. For them, the Halloween party has just begun. And we all know these critters far prefer tricks over treats. There are big surprises in store for Farmer Brown!

**Click** J. Courtney Sullivan,Courtney E. Martin,2011-03 When did you know you were a feminist? Whether it was a scene in a television show, an experience in school, or a specific day at work, many women can point to a particular moment in which they knew-or realized-they were feminists. Accomplished young authors Courtney E. Martin and J. Courtney Sullivan offer a look at feminism in

the lives of young women-and tackle the questions of what made them feminists, how they came to define themselves as feminists, and how that identity has shifted and grown over time. Click features a range of women, including Amy Richards, Shelby Knox, Winter Miller, Allisa Quart, Rebecca Traister, Jennifer Baumgardner, and Debbie Siegel, each sharing their self-defining and personal stories. Sometimes emotional, sometimes humorous, each of these stories offers something to which other women can relate. In a time of feminist reflection, Martin and Sullivan offer a look at feminism for the under-forty set.

**One Click** Richard L. Brandt, 2011-10-27 Amazon's business model is deceptively simple: Make online shopping so easy and convenient that customers won't think twice. It can almost be summed up by the button on every page: Buy now with one click. Why has Amazon been so successful? Much of it has to do with Jeff Bezos, the CEO and founder, whose unique combination of character traits and business strategy have driven Amazon to the top of the online retail world. Richard Brandt charts Bezos's rise from computer nerd to world- changing entrepreneur. His success can be credited to his

forward-looking insights and ruthless business sense. Brandt explains: Why Bezos decided to allow negative product reviews, correctly guessing that the earned trust would outweigh possible lost sales. Why Amazon zealously guards some patents yet freely shares others. Why Bezos called becoming profitable the dumbest thing they could do in 1997. How Amazon.com became one of the only dotcoms to survive the bust of the early 2000s. Where the company is headed next. Through interviews with Amazon employees, competitors, and observers, Brandt has deciphered how Bezos makes decisions. The story of Amazon's ongoing evolution is a case study in how to reinvent an entire industry, and one that anyone in business today ignores at their peril.

**Click, Click.** Joyce Kavanagh,June Kavanagh,Paula Kavanagh,2012-04-12 A true story of abuse.

Three sisters. A shattered Irish childhood. Joyce, June and Paula Kavanagh were three sisters born to a family of ten in Ballyfermot, Dublin in the 1960s. Their father abused all three of them in the family

home throughout their childhood. In 1989, the sisters made the brave decision to bring charges against their father and, in 1990, the state took a successful case against him. He was convicted and imprisoned. *Click, Click* is the story of their abuse; the exposure of a man prolific in his paedophilia; and an Irish childhood lost in a dysfunctional, abusive and torturous environment. Importantly, however, it is also the story of three women's healing; their coming to terms with their abuse, and their forgiveness of themselves and others. The Kavanagh sisters have refused to allow their abuse to define them. With fierce humour, insight and honesty, they now share their story and show that with love and determination, you can indeed conquer all.

*Click Here to Kill Everybody: Security and Survival in a Hyper-connected World* Bruce Schneier, 2018-09-04 A world of smart devices means the Internet can kill people. We need to act.

Now. Everything is a computer. Ovens are computers that make things hot; refrigerators are computers that keep things cold. These computers—from home thermostats to chemical plants—are all online. The Internet, once a virtual abstraction, can now sense and touch the physical world. As we open our lives to this future, often called the Internet of Things, we are beginning to see its enormous potential in ideas like driverless cars, smart cities, and personal agents equipped with their own behavioral algorithms. But every knife cuts two ways. All computers can be hacked. And Internet-connected computers are the most vulnerable. Forget data theft: cutting-edge digital attackers can now crash your car, your pacemaker, and the nation's power grid. In *Click Here to Kill Everybody*, renowned expert and best-selling author Bruce Schneier examines the hidden risks of this new reality. After exploring the full implications of a world populated by hyperconnected devices, Schneier reveals the hidden web of technical, political, and market forces that underpin the pervasive insecurities of today. He then offers common-sense choices for companies, governments, and individuals that can allow us to enjoy the benefits of this omnipotent age without falling prey to its vulnerabilities. From

principles for a more resilient Internet of Things, to a recipe for sane government regulation and oversight, to a better way to understand a truly new environment, Schneier's vision is required reading for anyone invested in human flourishing.

believes we do not need to swear off social media, delete all our online accounts, or give up our phones to live healthier, happier lives. In *You Are What You Click*, he offers a new approach to digital wellness, and a realist's perspective on how what we consume online affects our well-being. In response, he presents a social media pyramid that personalizes our tech diet so we can enjoy a fruitful, balanced relationship with social media. While many of us turn to social media looking for a sense of connection and comfort, the data show that it may paradoxically leave us feeling more alone and depressed. Drawing on over twenty years of original research, Dr. Primack explains the fascinating nuances of our relationship with social media, its impact on our mental health, and the dangers of social media using us instead of the other way around. He empowers us to take back control with a simple method: being more selective, positive, and creative with our lives online. Dr. Primack introduces surprising strategies you can use right away to fine-tune your online experience and discover your definition of digital balance. Through short, actionable chapters, you'll learn how to:

- Tailor your social media use to your personality.
- Select positive relationships over toxic ones.

**Tap, Click, Read** Lisa Guernsey,Michael H. Levine,2015-08-14 A guide to promoting literacy in the digital age With young children gaining access to a dizzying array of games, videos, and other digital media, will they ever learn to read? The answer is yes—if they are surrounded by adults who know how to help and if they are introduced to media designed to promote literacy, instead of undermining it. **Tap, Click, Read** gives educators and parents the tools and information they need to help children grow into strong, passionate readers who are skilled at using media and technology of all kinds—print, digital, and everything in between. In **Tap, Click, Read** authors Lisa Guernsey and Michael H. Levine envision a future that is human-centered first and tech-assisted second. They document how educators and parents can lead a new path to a place they call 'Readialand'—a literacy-rich world that marries reading and digital media to bring knowledge, skills, and critical thinking to all of our children. This approach is driven by the urgent need for low-income children and parents to have access to the same

21st-century literacy opportunities already at the fingertips of today's affluent families. With stories from homes, classrooms and cutting edge tech labs, plus accessible translation of new research and compelling videos, Guernsey and Levine help educators, parents, and America's leaders tackle the questions that arise as digital media plays a larger and larger role in children's lives, starting in their very first years of life. Tap, Click, Read includes an analysis of the exploding app marketplace and provides useful information on new review sites and valuable curation tools. It shows what to avoid and what to demand in today's apps and e-books—as well as what to seek in community preschools, elementary schools and libraries.
