On the Clock Emily Guendelsberger, 2019-07-16 Nickel and Dime for the Amazon age, (Salon) the bitingly funny, eye-opening story of finding work in the automated and time-starved world of hourly low-wage labor After the local newspaper where she worked as a reporter closed, Emily Guendelsberger took a pre-Christmas job at an Amazon fulfillment center outside Louisville, Kentucky. There, the vending machines were stocked with painkillers, and the staff turnover was dizzying. In the new year, she travelled to North Carolina to work at a call center, a place where even bathroom breaks were timed to the second. And finally, Guendelsberger was hired at a San Francisco McDonald's, narrowly escaping revenge-seeking customers who pelted her with condiments. Across three jobs, and in three different parts of the country, Guendelsberger directly took part in the revolution changing the U.S. workplace. Offering an up-close portrait of America's actual essential workers, *On the Clock* examines the broken social safety net as well as an economy that has purposely had all the slack drained out and converted to profit. Until robots pack boxes, resolve billing issues, and make fast food, human beings supervised by AI will continue to get the job done. Guendelsberger shows us how workers went from being the most expensive element of production to the cheapest - and how low wage jobs have been remade to serve the ideals of efficiency, at the cost of humanity. *On the Clock* explores the lengths that half of Americans will go to in order to make a living, offering not only a better understanding of the modern workplace, but also surprising solutions to make work more humane for millions of Americans.

The Living Clock John D. Palmer, 2002-03-14 From one-celled paramecium to giant blue whales, we all have internal clocks that regulate the rhythms we live by. In *The Living Clock*, John Palmer, one of the world's leading authorities on these rhythms, takes us on a tour of this broad and multifaceted subject, examining everything from glowing fruit flies to the best cures for jet lag. Palmer has a wonderful sense of humor and an eye for the startling fact. We learn that fiddler crabs—in a lab where there are no time nor tide cues—remain active when low tide would occur and motionless during high tide, the same pattern they follow in their natural habitat. (In fact, you can remove a crab's leg and the leg will keep a tidal rhythm as long as it's kept alive.) Moreover, humans are subject to more than one hundred biological rhythms. Mental acuity peaks in the afternoon, for instance, and our blood pressure peaks at seven in the morning (when most heart attacks occur). The time of day you take medication can affect how well it works. And Palmer shows that when our clocks are thrown off kilter, trouble follows, especially for rotating shift workers—the Bhopal spill, the Chernobyl reactor explosion, and the Three Mile Island accident all happened when new crews began early-hour shifts. No one has discovered exactly how our internal clocks work—Palmer says a Nobel Prize awaits that lucky scientist—but they are no less fascinating for their inexplicable nature. Frequently amusing and always eye-opening, *The Living Clock* is a treat for everyone curious about the nature of life as well as anyone planning a long jet flight.

The Baghdad Clock Shahad Al Rawi, 2018-05-03 A HEART-RENDING TALE OF TWO GIRLS GROWING UP IN WAR-TORN BAGHDAD Baghdad, 1991. The Gulf War is raging. Two girls, hiding in an air raid shelter, tell stories to keep the fear and the darkness at bay, and a deep friendship is born. But as the bombs continue to fall and friends begin to flee the country, the girls must face the fact that their lives will never be the same again. This poignant debut novel reveals just what it's like to grow up in a city that is slowly disappearing in front of your eyes, and how in the toughest times, children can build up the greatest resilience.

Fix That Clock Kurt Cyrus, 2019-11-26 2019 Kirkus Best Picture Book of the Year A construction crew rebuilds a rickety old clock tower that has become home to wild animals in this picture book for fans of *Sheep in a Jeep* and *Goodnight, Goodnight, Construction Site*. An underlying message of cooperation and conservation drives this rollicking introduction to counting and shapes. The old clock tower used to stand tall and proud. Now, it's rusty, dusty, moldy, musty. A construction team decides to turn zigzags into squares and get the clock chiming again. But wait: What will happen to all the animals who have made this dilapidated clock their home? Nothing can't be fixed and everyone is welcome in *Fix That Clock*, a celebration of hard work, compassion, and collaboration.

The Clock Book Wallace Nutting, 2020-02-20 There's always time for a great clock in your life. Famed collector and clock enthusiast Wallace Nutting originally released *The Clock Book* in 1924, a celebration of the decorative

Includes: Notable Clock Dates More than 250 photographs and Illustrations An Introduction by Mr. Wallace List of Former Foreign Clockmakers List of American Clockmakers Description of Illustrations and more

The Clock Of The Long Now Stewart Brand, 2008-08-01 Using the designing and building of the Clock of the Long Now as a framework, this is a book about the practical use of long time perspective: how to get it, how to use it, how to keep it in and out of sight. Here are the central questions it inspires: How do we make long-term thinking automatic and common instead of difficult and rare? Discipline in thought allows freedom. One needs the space and reliability to predict continuity to have the confidence not to be afraid of revolutions Taking the time to think of the future is more essential now than ever, as culture accelerates beyond its ability to be measured Probable things are vastly outnumbered by countless near-impossible eventualities. Reality is statistically forced to be extraordinary; fiction is not allowed this freedom This is a potent book that combines the chronicling of fantastic technology with equally visionary philosophical inquiry.

Antique Clocks and Clock Collecting Eric Bruton, 1974

The House with a Clock in Its Walls John Bellairs, 2004-08-03 A haunting gothic tale by master misery writer John Bellairs--soon to be a major motion picture starring Cate Blanchett and Jack Black! The House With a Clock in Its Walls will cast its spell for a long time.--The New York Times Book Review When Lewis Barnavelt, an orphan. comes to stay with his uncle Jonathan, he expects to meet an ordinary person. But he is wrong. Uncle Jonathan and his next-door neighbor, Mrs. Zimmermann, are both magicians! Lewis is thrilled. At first, watching magic is enough. Then Lewis experiments with magic himself and unknowingly resurrects the former owner of the house: a woman named Selenna Iazard. It seems that Selenna and her husband built a timepiece into the walls--a clock that could obliterate humankind. And only the Barnavelts can stop it!

Mastered by the Clock Mark M. Smith, 2000-11-09 Mastered by the Clock is the first work to explore the evolution of clock-based time consciousness in the American South. Challenging traditional assumptions about the plantation economy's reliance on a premodern, nature-based conception of time, Mark M. Smith shows how and why southerners--particularly masters and their slaves--came to view the clock as a legitimate arbiter of time. Drawing on an extraordinary range of eighteenth- and nineteenth-century archival sources, Smith demonstrates that white southern slaveholders began to incorporate this new sense of time in the 1830s. Influenced by colonial merchants' fascination with time thrift, by a long-held familiarity with urban, public time, by the transport and market

revolution in the South, and by their own qualified embrace of modernity, slaveowners began to purchase timepieces in growing numbers, adopting a clock-based conception of time and attempting in turn to instill a similar consciousness in their slaves. But, forbidden to own watches themselves, slaves did not internalize this idea to the same degree as their masters, and slaveholders found themselves dependent as much on the whip as on the clock when enforcing slaves' obedience to time. Ironically, Smith shows, freedom largely consolidated the dependence of masters as well as freedpeople on the clock.

The Tower Clock Earl Bixby Ferson, 1903

The Dancing Clock Steve Metzger, 2011 Inspired by the Delacorte Clock in Central Park, this rollicking read-aloud pays tribute to one of New York City's most beloved monuments. At every hour, the dancing clock chimes and the fun begins! The clock's merry band of animals performs for the crowd below. From his home in the zoo, Milo the snow monkey watches the band too. His friends beg him to play, but all Milo wants to do is join the musicians and dance. Then one day, he gets his big chance. The zookeeper forgets to lock Milo's gate, and Milo sets off on an unforgettable adventure!

Zero 0'Clock C.J. Farley, 2021-09-07 For sixteen-year-old Geth Montego, zero o'clock begins on March 11, 2020. By June, she wonders if it will ever end. An insightful, eye-opening, and inventive story. C.J. Farley has penned a novel that sheds an important light on real issues facing young people today. --Angie Thomas, author of *The Hate U Give* For fiction with a sense of realism, this is a coming-of-age young adult book whose title is the same as that of a 2020 song by superstar boy band BTS, 00:00 (Zero 0'Clock), with vocals by Jungkook, Jimin, Jin and V. Author C.J. Farley's novel grapples with the stresses and trauma of 2020. --South China Morning Post Remember when New Rochelle was frantically sanitizing office buildings and rapidly shutting things down in the beginning of 2020? Well, Geth remembers, as her character dealt with being a senior in high school in the first New York town COVID raged through in *Zero 0'Clock* by Christopher John Farley. --The Root Geth is a likable, smart Gen Z protagonist in this modern epistolary work that combines diary entries, text messages, news reports, emails, and English lit essays to immersive effect...Farley offers readers undeniable value in this retelling of recent, unforgettable history. --Kirkus Reviews [Farley's] brilliance is in getting into the mind of a 16-year-old Black girl and giving her a vivid voice. --Booklist In early March 2020 in New Rochelle, New York, teenager Geth Montego is fumbling with the present and uncertain about her future. She only has three friends: her best friend Tovah, who's been acting weird ever since they started applying to college; Diego, who she wants to ask to prom; and the K-pop band BTS, because the group always seems to be there for her when she needs them (at least in her head). She could use some help now. Geth's small city becomes one of the first COVID-19 containment zones in the US. As her community is upended by the virus and stirred up by the growing Black Lives Matter protests, Geth faces a choice and a question: Is she willing to risk everything to fight for her beliefs? And if so, what exactly does she believe in? C.J. Farley captures a moment in spring 2020 no teenager will ever forget. It sucks watching the world fall apart. But sometimes you have to start from zero.

Off the Clock Laura Vanderkam, 2018-05-29 I well recall a conversation with an executive I hoped to interview about her astonishing productivity. I began our call with an assurance that I would not take much of her time. She laughed. 'Oh, I have all the time in the world,' she said. Most of us feel constantly behind, unsure how to escape feeling oppressed by busyness. Laura Vanderkam, unlike other time-management gurus, believes that in order to get more done, we must first feel like we have all the time in the world. Think about it: why haven't you trained for that 5K or read War and Peace? Probably because you feel beaten down by all the time you don't seem to have. In this book, Vanderkam reveals the seven counterintuitive principles the most time-free people have adopted. She teaches mindset shifts to help you feel calm on the busiest days and tools to help you get more done without feeling overwhelmed. You'll meet people such as... ♦ An elementary school principal who figured out how to spend more time mentoring teachers, and less time supervising the cafeteria ♦ An executive who builds lots of meeting-free space into his calendar, despite managing teams across multiple continents ♦ A CEO who does focused work in a Waffle House early in the morning, so he can keep an open door and a relaxed mindset all day ♦ An artist who overcame a creative block, and reached new heights of productivity, by being more gentle with herself, rather than more demanding The strategies in this book can help if your life feels out of control, but they can also help if you want to take your career, your relationships, and your personal happiness to the next level. Vanderkam has packed this book with insights from busy yet relaxed professionals, including time makeovers of people who are learning how to use these tools. Off the Clock can inspire the rest of us to create lives that are not only productive, but enjoyable in the moment.
