The Last Lecture Randy Pausch,2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

CLASH! Sandra Vavra,Sharon L. Spencer,2011-09-01 This book offers ideas that secondary teachers, university content faculty, and teacher educators can use to challenge traditional literacy practices and demonstrate creative, innovative ways of incorporating new literacies into the classroom, all within a strong theoretical framework. Teachers are trying to catch up to the new challenges of the twenty-first century. It is a superheroic feat that must be achieved if education is to stay relevant and viable. There is a lot of zip, bam, whap, and wow in the fast-paced, social networking, technological world, but not so much in the often laboriously slow-paced educational world. Where is the balance? How do teachers and students learn together, since one group has seasoned wisdom with limited technological know-how and the other uses all the cool new tools, but not in the service of learning? These are some important issues to consider in finding the balance in an unstable, fast-moving, ever-changing world. This book is practical and useful to literacy teachers, teacher educators, and university faculty by bringing together the expertise of composition/rhetoric researchers and writers, literacy specialists, technology specialists, and teachers who are on the cutting edge of new literacies.

The Book on Public Speaking Topher Morrison,2017-03-21 “One of the most powerful professional speakers in America . . . reveals how he’s earned millions onstage, on camera and in business” (Steve Siebold, CSP, past chairman of The National Speakers Association’s Million Dollar Speakers Group). If you look at the trends of over thirty years ago in fashion, technology, architecture, and any other industry, what was cutting edge back then has become cliché and grossly out of date now. But in the speaking industry, most people get up and still walk, talk, and sound like the 1980s motivational speakers of yesteryear. The Book on Public Speaking takes a head-on approach and challenges the status quo for business leaders that speak in front of their staff, board of directors, and the public. After reading this book you will be privy to the most current methods for speaking to an audience for maximum impact in today’s more sophisticated and skeptical culture. If you are the type of business leader who has achieved a level of success in life and feel compelled to share your story with the world, don’t lessen that impact by imitating outdated speaking techniques. Instead, break the mold of the speaker cliché and tap into a speaking style that is authentic, packs a punch, and leaves the audience wanting more. “I learned some amazing presentation techniques from Topher. I’m using them right now. They’re awesome. You can’t tell because you’re reading this.” —John Heffron, winner of The Last Comic Standing “Morrison is crazy good at training you how to communicate on-camera so that your business gets more attention.” —James Lavers, professional speaker, founder, “Selling from the Screen”
