Consuming Cultural Hegemony Harisur Rahman,2019-11-22 This book examines the circulation and viewership of Bollywood films and filmi modernity in Bangladesh. The writer poses a number of fundamental questions: what it means to be a Bangladeshi in South Asia, what it means to be a Bangladeshi fan of Hindi film, and how popular film reflects power relations in South Asia. The writer argues that partition has resulted in India holding hegemonic power over all of South Asia's nation-states at the political, economic, and military levels—a situation that has made possible its cultural hegemony. The book draws on relevant literature from anthropology, sociology, film, media, communication, and cultural studies to explore the concepts of hegemony, circulation, viewership, cultural taste, and South Asian cultural history and politics.

Contemporary Cinema and 'Old Age' Josephine Dolan,2018-02-06 This book is the first to explore 'old age' in cinema at the intersection of gender, ageing, celebrity and genre studies. It takes its cue from the dual meanings of 'silvering' – economics and ageing – and explores shifting formulations of 'old age' and gender in

contemporary cinema. Broad in its scope, the book establishes the importance of silver audiences to the survival of cinema exhibition while also forging connections between the pleasures of 'old age' films, consumer culture, the 'economy of celebrity' and the gendered silvering of stardom. The chapters examine gendered genres such as romantic comedies, action and heist movies, the prosthetics of costume, and CGI enabled age transformations. Through this analysis, Josephine Dolan teases out the different meanings of ageing masculinity and femininity offered in contemporary cinema. She identifies ageing femininity as the pathologised target of rejuvenation while masculine ageing is seen to enhance an enduring youthfulness. This book has interdisciplinary appeal and will engage scholars interested in 'old age' and gender representations in contemporary cinema.

Copyright and Course Reserves Carla S.

Myers,2022-10-05 With the guidance of this book, academic librarians wishing to provide print, electronic, and streaming media (music and film) course reserve services for their campus communities can do so in compliance with U.S. copyright law. Many academic libraries offer print and electronic course reserve services that encourage learning by connecting students and faculty with less expensive and supplementary educational materials. Unfortunately, there are many misconceptions regarding how U.S. copyright law affects course reserve services; as a result, many academic libraries restrict the scope of the services they provide or refrain from pursuing new options, such as media reserves, out of fear of violating the law or being sued for copyright infringement. Copyright and Course Reserves addresses this problem, providing authoritative advice for making print, electronic, and media course reserves available in compliance with U.S. copyright law. It explains options for implementing and sustaining media reserve services through which students and faculty can access online music, sound recordings, and film. Additionally, short examples from a wide range of libraries explore real-world scenarios and current issues related to course reserve services to help readers better understand and apply the information found in the book.
