William Wadd

On Corpulence Lewis Carroll, 2017-03-14 Fat seemed to be getting fatter under Queen Victoria: Tweedledum and Tweedledee; Joe the fat boy in *The Pickwick Papers*; even the first known report of childhood obesity in 1859. But for the short, corpulent (and extremely successful) undertaker William Banting, the overweight life was not a bundle of laughs. It was only at the age of sixty, when he was unable to even attend to the little offices which humanity requires, without considerable pain and difficulty, that he finally stumbled upon a cure: an early incarnation of the Atkins diet. Butter, potatoes, sugar, milk--all gone, in favour of fish, meat, dry toast (and seven glasses of claret a day). And with the diet for the body came a diet for the mind: for Lewis Carroll, an indiscriminate intake of fatty information was just as harmful as carbohydrates--and in today's society of ever-increasing consumption of food, news and even relationships, Banting and Carroll are remarkably ahead of their time. The books in *Found on the Shelves* have been chosen to give a fascinating insight into the treasures that can be found while browsing in The London Library. Now celebrating its 175th anniversary, with over seventeen miles of shelving and more than a million books, The London Library has become an unrivalled archive of the modes, manners and thoughts of each generation which has helped to form it. From essays on dieting in the 1860s to instructions for gentlewomen on trout-fishing, from advice on the ill health caused by the modern craze of bicycling to travelogues from Norway, they are as readable and relevant today as they were more than a century ago--even if contemporary dieticians might not recommend quite such a regular intake of brandy!

Letter on Corpulence William Banting, 1864 *Letter on Corpulence, Addressed to the Public* by William Banting, first published in 1864, is a rare manuscript, the original residing in one of the great libraries of the world. This book is a reproduction of that original, which has been scanned and cleaned by state-of-the-art publishing tools for better readability and enhanced appreciation. Restoration Editors' mission is to bring long out of print manuscripts back to life. Some smudges, annotations or unclear text may still exist, due to permanent damage to the original work. We believe the literary significance of the text justifies offering this reproduction, allowing a new generation to appreciate it.

On Corpulence - The History of Diet William Banting, 2020-12-17 *On Corpulence* is a booklet by William Banting, who is known for being the first to popularize a weight loss diet based on limiting the intake of carbohydrates, especially those of a starchy or sugary nature. The booklet contains the particular plan for the diet he followed. It was written as an open letter in the form of a personal testimonial. Banting accounted all of his unsuccessful fasts, diets, spa and exercise regimens in his past. His previously unsuccessful attempts had been on the advice of various medical experts. He then described the dietary change which finally had worked for him, following the advice of another medical expert.

Corpulence, its diminution and cure, etc. Third edition John HARVEY (M.D.), 1864

Letter on Corpulence William Banting, 2005-04-01 In what's billed as the world's first diet book, William Banting offered his strategy for losing weight. He ate four meals a day, didn't exercise much, drank alcohol, and swore off only a few foods. And, what's more, anyone familiar with current low-carb diets will find similar advice here -- advice given in 1864. William Banting was a carpenter in Victorian London whose weight spiraled out of control. His eyesight and hearing failed, he had weak knees, and he suffered an umbilical rupture, health problems he attributed to his weight. He consulted doctors but nothing helped. Then Banting discovered this diet and got results within just a few days. He ate lots of meat, a few vegetables, shunned some foods that he's previously overindulged in, and drank alcohol with lunch and dinner. He lost fifty pounds, and his health improved. He published this pamphlet detailing his diet and distributed the copies for free. By its third printing it had sold 63,000 copies, and the term Banting became synonymous with dieting in England.
