Convergent Wrestling CarrieLynn D. Reinhard, Christopher J. Olson, 2019-03-04 This book examines how the current era of convergence has affected, and is reflected in, the world of professional wrestling, which combines several different genres, including drama, action, comedy, horror, science fiction, and even romance. Professional wrestling's business practices exist at the intersection of bottom-up fan-centric strategies and strict top-down corporate control. Meanwhile, the wrestlers themselves combine aspects of carnival hucksters, actors/actresses, comedians, superheroes, martial artists, or stuntmen, and the narratives consist of everything from social critique to geopolitical allegories, and from soap opera melodramas to stereotyped exploitation. Bringing together the latest scholarship in the field, *Convergent Wrestling* analyzes various texts, business practices, and fan activities to explore the commonalities that define professional wrestling and consider how it exists in today's new media ecology. In addition, the book considers the professional wrestling industry from several different angles, from massive multinational conglomerate World Wrestling Entertainment (WWE) to local indie federations. As such, it will appeal to scholars with interests in popular culture, media and cultural studies, and fan practices.

Clockwork Liza Martin Wimmer, 2021-09-12 Actress, singer, musical theater star, gay icon: Liza Minnelli. Always citing the past but acting in present, her image is an oddity of the entertainment industry. Private background and acting roles flow together in the case of Minnelli who was born into the American show business in 1946. But she is more than Cabaret, Great American Songbook, Broadway and drag model. This book is neither another sentimental biography of her so-called tragic private life nor a pure scientific examination. It simply aims to analyze her single fields of work in theater, film, television, recording studio and on concert stage that all perform together like a clockwork.

The Technology, Business, and Economics of Streaming Video Eli Noam, 2021-01-29 Along with its interrelated companion volume, *The Content, Impact, and Regulation of Streaming Video*, this book covers the next generation of TV-streaming online video, with details about its present and a broad perspective on the future. It reviews the new technical elements that are emerging, both in hardware and software, their long-term trend, and the implications. It discusses the emerging 'media cloud' of video and infrastructure platforms, and the organizational form of such TV.

The Promise of Sociology Rob Beamish, 2016-01-01 The second edition of this award-winning introduction to sociology has been substantially revised throughout, including improved connections between the discussion of millennials and Mills's concept of the sociological imagination.

#WWE Dru Jeffries, 2019-12-01 The millions of fans who watch World Wrestling Entertainment (WWE) programs each year are well aware of their role in building the narrative of the sport. **#WWE: Professional Wrestling in the Digital Age** explores the intersections between media, technology, and fandom in WWE's contemporary programming and business practices. In the Reality Era of WWE (2011 to the present), wrestling narratives have increasingly drawn on real-life personalities and events that stretch beyond the story-world created and maintained by WWE. At the same time, the internet and fandom have a greater influence on the company than ever before. By examining various sites of struggle and negotiation between WWE executives and in-ring performers, between the product and its fans, and between the company and the rest of the wrestling industry, the contributors to this volume highlight the role of various media platforms in shaping and disseminating WWE narratives. Treating the company and its product not merely as sports entertainment, but also as a brand, an employer, a company, a content producer, and an object of fandom, **#WWE** conceptualizes the evolution of professional wrestling's most successful company in the digital era.

The Mythic Mr. Lincoln Jeff O'Bryant, 2021-09-15 Honest Abe. The rail-splitter. The Great Emancipator. Old Abe. These are familiar monikers of Abraham Lincoln. They describe a man who has influenced the lives of everyday people as well as notables like Leo Tolstoy, Marilyn Monroe, and Winston Churchill. But there is also a multitude of fictional Lincolns almost as familiar as the original: time traveler, android, monster hunter. This book explores Lincoln's evolution from martyred president to cultural icon and the struggle between the Lincoln of history and his fictional progeny. He has been Simpsonized by Matt Groening, charmed by Shirley Temple, and emulated by the Lone Ranger. Devotees have attempted to clone him or to raise him from the dead. Lincoln's image and memory have been invoked to fight communism, mock a sitting president, and sell products. Lincoln has even been portrayed as the greatest example of goodness humanity has to offer. In short, Lincoln is the essential American myth.

The Oxford Handbook of Dance and Competition Dr. Sherril Dodds, 2018-11-01 In the twenty-first century, values of competition underpin the free-market economy and aspirations of individual achievement shape the broader social world. Consequently, ideas of winning and losing, success and failure, judgment and worth, influence the dance that we see and do. Across stage, studio, street, and screen, economies of competition impact bodily aesthetics, choreographic strategies, and danced meanings. In formalized competitions, dancers are judged according to industry standards to accumulate social capital and financial gain. Within the capitalist economy, dancing bodies compete to win positions in prestigious companies, while choreographers hustle to secure funding and attract audiences. On the social dance floor, dancers participate in dance-offs that often include unspoken, but nevertheless complex, rules of bodily engagement. And the media attraction to the drama and spectacle of competition regularly plays out in reality television shows, film documentaries, and Hollywood cinema. Drawing upon a diverse collection of dances across history and geography, *The Oxford Handbook of Dance and Competition* asks how competition affects the presentation and experience of dance and, in response, how dancing bodies negotiate, critique, and resist the aesthetic and social structures of the competition paradigm.

Decolonising Imperial Heroes Max Jones, Berny Sèbe, Bertrand Taithe, Peter Yeandle, 2017-10-02 The heroes of the British and French empires stood at the vanguard of the vibrant cultures of imperialism that emerged in Europe in the second-half of the nineteenth century. Their stories are well known. Scholars have tended to assume that figures such as Livingstone and Gordon, or Marchand and Brazza, vanished rapidly at the end of empire. Yet imperial heroes did not disappear after 1945, as British and French flags were lowered around the world. On the contrary, their reputations underwent a variety of metamorphoses in both the former metropolises and the former

colonies. This book develops a framework to understand the complex legacies of decolonisation, both political and cultural, through the case study of imperial heroes. We demonstrate that the 'decolonisation' of imperial heroes was a much more complex and protracted process than the political retreat from empire, and that it is still an ongoing phenomenon, even half a century after the world has ceased to be 'painted in red'. Whilst Decolonising Imperial Heroes explores the appeal of the explorers, humanitarians and missionaries whose stories could be told without reference to violence against colonized peoples, it also analyses the persistence of imperial heroes as sites of political dispute in the former metropolises. Demonstrating that the work of remembrance was increasingly carried out by diverse, fragmented groups of non-state actors, in a process we call 'the privatisation of heroes', the book reveals the surprising rejuvenation of imperial heroes in former colonies, both in nation-building narratives and as heritage sites. This book was originally published as a special issue of the Journal of Imperial and Commonwealth History.

LO: TECH: POP: CULT Priscilla Guy, Alanna Thain, 2024-04-24 This edited collection assembles international perspectives from artists, academics, and curators in the field to bring the insights of screendance theory and practice back into conversations with critical methods, at the intersections of popular culture, low-tech media practices, dance, and movement studies, and the minoritarian perspectives of feminism, queer theory, critical race studies and more. This book represents new vectors in screendance studies, featuring contributions by both artists and theoreticians, some of the most established voices in the field as well as the next generation of emerging scholars, artists, and curators. It builds on the foundational cartographies of screendance studies that attempted to sketch out what was particular to this practice. Sampling and reworking established forms of inquiry, artistic practice and spectatorial habits, and suspending and reorienting gestures into minoritarian forms, these conversations consider the affordances of screendance for reimagining the relations of bodies, technologies, and media today. This collection will be of great interest to students and scholars in dance studies, performance studies, cinema and media studies, feminist studies, and cultural studies.

Contemporary Street Arts in Europe S. Haedicke, 2012-11-28 Street theatre invades a public space, shakes it up and disappears, but the memory of the disruption haunts the site for audiences who experience it. This book looks at how the dynamic interrelationship of performance, participant and place creates a politicized aesthetic of public space that enables the public to rehearse democratic practices.

Khanqah of Sarwari Qadri Order Mrs. Ambreen Moghees Sarwari Qadri, 2020-03-18 The khanqah of a perfect Fakir is according to the Sunna of the Holy Prophet, where he esoterically trains the Muslims in the same way as the Holy Prophet trained the Companions. Khanqah of Sarwari Qadri Order: It is a place where the seekers of Allah get their inner-selves purged in the company of a perfect spiritual guide. This book provides a detailed account of the Sarwari Qadri khanqah established by Sultan-ul-Ashiqeen Sultan Mohammad Najib-ur-Rehman who is the present Shaikh of the Sarwari Qadri order. In today's materialistic world, this khanqah is a place where the seekers of Allah find real inward peace, where they get the light of faith instilled into their inwards following purgation of their inciting inner-selves that progressively elevates them esoterically and sanctifies their inwards to a level where they are bestowed with presence in Mohammadan Assembly and Divine vision. Holocaust Cinema Complete Rich Brownstein, 2021-09-17 Holocaust movies have become an important segment of world cinema and the de-facto Holocaust education for many. One quarter of all American-produced Holocaust-related feature films have won or been nominated for at least one Oscar. In fact, from 1945 through 1991, half of all American Holocaust features were nominated. Yet most Holocaust movies have fallen through the cracks and few have been commercially successful. This book explores these trends--and many others--with a comprehensive guide to hundreds of films and made-for-television movies. From Anne Frank to Schindler's List to Jojo Rabbit, more than 400 films are examined from a range of perspectives--historical, chronological, thematic, sociological, geographical and individual. The filmmakers are contextualized, including Charlie Chaplin, Sidney Lumet, Steven Spielberg, Quentin Tarantino and Roman Polanski. Recommendations and reviews of the 50 best Holocaust films are included, along with an educational guide, a detailed listing of all films covered and a four-part index-glossary.

Women and TV Culture in Pakistan Munira Cheema, 2018-07-30 The television broadcasting culture of Pakistan was changed dramatically in 2002. The President, General Pervez Musharraf, introduced a policy of liberalisation that enabled controversial issues such as honour killings, adultery, stoning to death, domestic violence, marriage after divorce and homosexuality to be increasingly depicted on screen. Women and TV Culture in Pakistan is the first in-depth analysis of this change in

television content. Munira Cheema focuses on how `gender issues' are dealt with on TV and examines the impact this has on female viewers. In Pakistan, television is often the only way in which women can access the public sphere (except through male guardians) and this book evaluates how TV content allows them to navigate their intersecting identities as Muslims, women and Pakistanis. At a time when religious conservatism is on the rise in the country, this book investigates why producers choose to focus on gender-based issues and the extent to which religion dictates social behaviour and broadcasting choices. Based on interviews with women viewers in Karachi as well as industry professionals including writers, directors and ratings experts, the research is a much-needed and original contribution to global television studies and gender studies.

The Distance from Slaughter County Steven Moore,2023-02-03 As a soldier and civilian, Steven Moore has traveled from the American Midwest to Afghanistan and beyond. In those travels, he's seen what place can mean, specifically rural places, and how it follows us, changes us. What Moore has to say about rural places speaks to anyone who has driven a lonely road at night, with nothing but darkness as a cushion between them and the emptiness that surrounds. Place and how we define it—and how it defines us—is a through line throughout the collection of eleven essays. Moore writes about where we come from and the disconnection we often feel between each other: between veterans and nonveterans, between people of different political beliefs, between regions, between eras. These pieces build into a contemplative whole, one that is a powerful meditation on why where we come from means something and how we'll always bring where we are with us, no matter where we go.

Storytelling in World Cinemas Lina H. Khatib,2012 Storytelling in World Cinemas, Vol. 2: Contexts addresses the questions of what and why particular stories are told in films around the world, both in terms of the forms of storytelling used, and of the political, religious, historical, and social contexts informing cinematic storytelling. Drawing on films from all five continents, the book approaches storytelling from a cultural/historical multidisciplinary perspective, focusing on the influence of cultural politics, postcolonialism, women's social and cultural positions, and religious contexts on film stories.-Publisher website.
