For fans of John Grisham, Robin Cook, Kathy Reichs, James Patterson and Patricia Cornwell: My favourite authors are James Patterson and John Grisham and this book easily fit amongst these great authors. Right up there with Robin Cook...great writer and subject matter. I'm a big 'King' fan so for me to read a book of a different flavor and keep me interested is great writing. I think Pamela has a great talent. This had the feel of John Grisham's *The Client*. The plot reminded me of early Patricia Cornwell. This book was so well put together it reminded of Kathy Reichs and Linda Fairstein. Those who compare her to master thriller writers aren't exaggerating! This book is masterfully written and put together. The writing as well as the editing is superb. A great thriller. Rivals the best. One of my favorite authors.

**Damaged** Robert Maunder, MD,Jonathan Hunter, MD,2021-08-31 Childhood adversity that is severe enough to be harmful throughout life is one of the biggest public health issues of our time, yet health care systems struggle to even acknowledge the problem. In *Damaged*, Dr. Robert Maunder and Dr. Jonathan Hunter call for a radical change, arguing that the medical system needs to be not only more compassionate but more effective at recognizing that trauma impacts everybody's health, from patient to practitioner. Drawing on decades of experience providing psychiatric care, Maunder and Hunter offer an open and honest window into the private world of psychotherapy. At the heart of the book is the painful yet inspiring story of Maunder's career-long work with a patient named Isaac. In unfiltered accounts of their therapy sessions, we see the many ways in which childhood trauma harms Isaac's health for the rest of his life. We also see how deeply patients can affect the doctors who care for them, and how the caring collegiality between doctors can significantly improve the medicine they practice. *Damaged* makes it clear that human relationships are at the core of medicine, and that a revolution in health care must start with the development of safe, respectful, and caring relationships between doctors and patients. It serves as a strong reminder that the way we care for those who suffer most reveals who we are as a society.

Damaged Evan Rapport,2020-11-24 *Damaged: Musicality and Race in Early American Punk* is the first book-length portrait of punk as a musical style with an emphasis on how punk developed in relation to changing ideas of race in American society from the late 1960s to the early 1980s. Drawing on musical analysis, archival research, and new interviews, *Damaged* provides fresh interpretations of race and American society during this period and illuminates the contemporary importance of that era. Evan Rapport outlines the ways in which punk developed out of dramatic changes to America's cities and suburbs in the postwar era, especially with respect to race. The musical styles that led to punk included transformations to blues resources, experimental visions of the American musical past, and bold reworkings of the rock-and-roll and rhythm-and-blues sounds of the late 1950s and early 1960s, revealing a historically oriented approach to rock that is strikingly different from the common myths and conceptions about punk. Following these approaches, punk itself reflected new versions of older exchanges between the US and the UK, the changing environments of American suburbs and cities, and a shift from the expressions of older baby boomers to that of younger musicians belonging to Generation X. Throughout the book, Rapport also explores the discourses and contradictory narratives of punk history, which are often in direct conflict with the world that is captured in historical documents and revealed through musical analysis.

**Damaged, but Still Good** Ramona Rodgers,2019-12-02 *Damaged, but Still Good* is a book that is revelatory in exemplifying that many of us as individuals whether good, bad, ugly, or indifferent are shaped by our experiences as early as childhood. Dexter Howard (2014) states, That's what's missing as I look at the landscape of our society: identity and much needed affirmation. Mothers are designed to nurture, but fathers provide identity and affirmation. Without those things, it leaves a hole in the heart of a child. Parents don't realize that broken relationships not only affect the couple involved, but it affects and shapes their children. We are the sum total of our experiences. And, like a flowing river, those same experiences, and those yet to come, continue to influence and reshape the person we are, and the person we become. None of us are the same as we were yesterday, nor will be tomorrow (B. J. Neblett). Oftentimes, we ask the question, Why do bad things happen to good people? However, we learn the best lessons and gain wisdom in the worst circumstances. It is amid life challenges, catastrophes, and calamities that we understand that even when you have experienced great loss, God can still use what you have left! Life has taught me it's not what we go through that damages us, but an unwillingness to forgive the process designed to work for our greater good. The Bible says in Psalms 37:23 that the steps of a good man are ordered by the Lord. Most of us believe that God is a God that only orders blessings. However, life has shown me that God does not just order blessings, but God orders trials. He orders setbacks, and he orders challenges, but in God's ordering, he will never put on us more than what we can bear.

**Damaged Life** Tod Sloan,2016-06-10 What are the psychological problems caused by modernization? How can we minimize its negative effects? Modernization has brought many material benefits to us, yet we are constantly told how unhappy we are: crime, divorce, suicide, depression and anxiety are rampant. How can this contradiction be reconciled? *Damaged Life*, originally published in 1996, presents a powerful and progressive analysis of modernity's impact on the psyche. Tod Sloan develops an integrated theory of the self in society by combining perspectives on personality development and socio-historical processes to explore our complex response to modernization. He discusses the implications of postmodern theory for psychology and proposes concrete responses to address the issue of mass emotional suffering. His book should be read not only by those working within psychology and related disciplines such as sociology and social policy, but also by anyone seeking enlightenment about the predicament of the self in contemporary society.
