**Sex For Sale** Ronald Weitzer,2022-11-22 Since the publication of

the second edition in 2010, the field of sex work studies has expanded. This fully updated edition of *Sex for Sale: Prostitution, Pornography, and Erotic Dancing* presents an innovative, in-depth, and nuanced analysis of sex work, its risks, and benefits, and pays attention to newer and everchanging types of sex work and its actors, as well as public policies and laws that govern its trade. Now in its third edition, this volume includes updated research on traditional forms of sexual labor and incorporates original, empirically grounded research on newer or less researched phenomena. New chapters explore the use of technology among street sellers, blurring the line between street and online solicitation, in addition to chapters on historical prostitution, transgender workers, illicit massage parlors, male strippers, commercial webcamming, alternative policies and legal systems, and the sex workers' rights movement. The combination of cutting-edge and comprehensive analyses and carefully constructed methodologies in *Sex for Sale* makes it an excellent source of information for scholars and university students in gender studies, sociology, and criminology.

**Unparenting** Reema Ahmad, 2022-09-26 Through her own awkward journey as a confused single parent with mental health issues, Reema Ahmad explores what it means to unravel newer ways of bringing up children—ways that nurture their sense of innocence and curiosity whilst giving them the freedom to choose their own truths. Reema invites you to hop along as she and Imaad, her son, learn to laugh and understand less explored and serious questions regarding abuse, adult relationships, divorce and death that adults often forget to wonder at, and seldom question. More than anything else, *Unparenting* is a vibrant, whacky testimony to a parent-child relationship where the child leads and the parent follows. Written in the form of deeply personal, engaging and often humorous essays that

span the life of the mother and child from when he was seven-year-old till he turns fourteen, the book is a powerful reminder of what it feels like to be lost and misunderstood as a child and how important it is to challenge parents' knowledge about everything.

*Computational Methods for Protein Structure Prediction and Modeling* Ying Xu, Dong Xu, Jie Liang, 2010-05-05 Volume Two of this two-volume sequence presents a comprehensive overview of protein structure prediction methods and includes protein threading, De novo methods, applications to membrane proteins and protein complexes, structure-based drug design, as well as structure prediction as a systems problem. A series of appendices review the biological and chemical basics related to protein structure, computer science for structural informatics, and prerequisite mathematics and statistics.

I Used to be Nice Sue O'Sullivan, 1996 Sue O'Sullivan's collection of writing charts a quarter century of feminist engagement: from her ambivalence towards motherhood and marriage in the 1960s and 70s to butch/femme and queer in the 1980s and 90s; from birth control and PMT to HIV/AIDS and eroticism. Teasing out the contradictory layers which make up lesbian chic, political correctness and transsexuality, O'Sullivan moves on to take sides in the continuing debates around pornography and censorship.
