Downtime Nadine Levy Redzepi, 2017-10-24 Blurring the line between everyday and special occasion cooking, Nadine Levy Redzepi elevates simple comfort food flavors to elegant new heights in *Downtime*. When you're married to Noma's Rene Redzepi you never know who might drop by for dinner...So Nadine Redzepi has developed a stripped-down repertoire of starters, mains, and desserts that can always accommodate a few more at the table, presenting them in a stylish yet relaxed way that makes guests feel like family--and makes family feel special every single day. Gone are the days when the cook is expected to labor alone in the kitchen while family or guests wait for their meal. In the Redzepi home everyone gravitates toward the kitchen to socialize, help, or graze on tasty bites while dinner is prepared, and Nadine wouldn't have it any other way. Her culinary mantra – pair the very best ingredients with restaurant-inflected techniques that make the most of out their inherent flavors -- puts deliciousness at home well within reach for cooks of all levels. In Nadine's confident hands, weeknight mainstays like tomato bruschetta, pan-seared pork chops, slow-roasted salmon, or dark, fudgy brownies feel new again. Each recipe is studded with tips to help cooks build confidence and expertise as they cook, as well as restaurant-ready techniques that contribute precision, flavor, and plate appeal to even down-to-earth preparations. With a newfound mastery of essential building blocks like homemade mayonnaise and beurre blanc, a flavorful tomato sauce, or a genius do-it-all cake batter that can be reinvented in a myriad of ways, creating showstoppers like White Asparagus with Truffle Sauce; Rotini with Spicy Chicken Liver Sauce; or a decadent Giant Macaron Cake – just as Nadine does on a daily basis--soon becomes second nature. *Downtime* is a celebration of the joys of cooking well –and making it look easy while you do it, an aspirational guide for any cook ready to take their home cooking to the next level without sacrificing ease or enjoyment in the process.

Downtime Marc Platt, 1996 Based on the original video drama, this book takes place after Victoria's departure from the Tardis in *Fury from the Deep*. It features unique photos taken during filming. '

Downtime Joseph Domino, 2003-11 Groucho Marx has said, I wouldn't belong to any club that would have me as a member, essentially the protagonist's credo at the outset of *Downtime*. *Downtime* is a layman's vision of the approaching apocalypse. This dark comic tale is seen through the

eyes of hapless Melford Blintze, a literate, sensitive, and timid man who is tormented by private insecurities and the excesses of a vulgar society going to hell. Blintze doesn't believe the end is near; he believes that it's in progress. The setting of the novel is the very near future. Terrorists have taken over an ICBM missile base. During this crisis, oddly kept at an emotional distance by Mel's urban society, Mel is unwittingly involved in a mad terrorist plot by his crazed economics professor. As the tension of approaching Doomsday mounts, Mary, an attractive Washington agent, rescues Mel not only from the terrorists, but also from his lack of self-respect.

Downtime Cynthia Felice,1986 In this science fiction adventure, lovers Calla and Jason are forced apart by the obligations of duty when Calla stands alone against a power-hungry tyrant who would destroy the universe in order to rule it

Downtime Mark Yaconelli,2009-05-26 You know the reality: teens don't have much downtime in their lives. Between school, extra-curricular activities, jobs, friends (and youth group!), students these days barely have enough time to do all the things they need to do in a day. It's no wonder that quiet, reflective time in prayer with God is not high on their priority list. With years of experience helping teens encounter God in quiet, contemplative ways, Mark Yaconelli will give you the tools and insights needed to help teens understand why and how to pray, and to guide them towards a life of prayer. You'll find several prayer exercises in this book, based on the praying tradition of the Christian church, along with instructions to help you introduce the prayers to students. Not only are there explorations of classical methods of prayer that involve silence, solitude, and scripture, but you'll also discover more recent forms of prayer that use creative media, music, writing, movement, and acts of compassion. As you help teens bring prayer into their everyday lives, your students will find that they long for those times when they can step away from it all and find rest and comfort in God.

Process Downtime Reduction Michael R. Beauregard,2023-09-15 Among the biggest mistakes manufacturers make is not keeping key equipment and processes running and making saleable product when needed. This situation existed when the author Mike Beauregard began working in manufacturing years ago and it currently remains true in companies ostensibly focusing on Lean. To improve, companies often rely on increasing productivity by making products faster and with more automation, but many fail to focus on the area in which they can get the biggest gains for their efforts – the reduction of downtime. This book provides readers the techniques they crucially need to keep their critical manufacturing equipment running correctly and efficiently -- which increases production, decreases labor costs, decreases breakdown costs, and ultimately increases the bottom line.

Downtime in production lines stems from many sources. The contribution might be small for many of those sources, but it adds up. Downtime and its causes then insidiously become the norm, accepted, unseen by the workforce and the management team. Most training courses and books look at a specific cause of downtime – mainly, either product changeover (set-up reduction) or breakdowns (TPM). This book addresses these two areas and many other sources of downtime including how to decrease downtime caused by supply chain issues, staffing issues, and downtime internal to the processes themselves. In the final chapter, the author covers how to manage the downtime reduction effort – how to measure downtime, prioritize which downtime sources to attack first, and monitor the improvement

Downtime on the Microgrid Malcolm McCullough,2020-03-31 Something good about the smart city: a human-centered account of why the future of electricity is local. Resilience now matters most, and most resilience is local—even for that most universal, foundational modern resource: the electric power grid. Today that technological marvel is changing more rapidly than it has for a lifetime, and in our new grid awareness, community microgrids have become a fascinating catalyst for cultural value change. In Downtime on the Microgrid, Malcolm McCullough offers a thoughtful counterpoint to the cascade of white papers on smart clean infrastructure. Writing from an experiential perspective, McCullough avoids the usual smart city futurism, technological solutionism, policy acronyms, green idealism, critical theory jargon, and doomsday prepping to provide new cultural context for a subject long a favorite theme in science and technology studies. McCullough describes the three eras of North American electrification: innovation, consolidation, and decentralization. He considers the microgrid boom and its relevance to the built environment as “architecture's grid edge.” Finally, he argues that resilience arises from clusters; although a microgrid is often described as an island, future resilience will require archipelagos—clusters of microgrids, with a two-way, intermittent connectiveness that is very different from the always-on, top-down technofuture we may be expecting. With Downtime on the Microgrid, McCullough rises above techno-hype to find something good about the smart city and reassuring about local resilience.

Guidelines to Minimize Downtime During Pipe Lining Operations Thomas D. Rockaway,R. Timothy Ball,2007 This report provides best utility practices to minimize downtime during pipe lining operations. Downtime refers to not only the amount of time customers are without water service, but also the amount of time customers must rely on temporary service, endure restricted service, or are served by less secure networks. The report reviews pipe lining procedures in current use by water utilities and identifies those that improve efficiency and reduce costs.

The Procrastination Economy Ethan Tussey, 2020-04-01 2018 Outstanding Academic Title, given by Choice Magazine How mobile devices make our in-between moments valuable to media companies while also providing a sense of control and connection In moments of downtime – waiting for a friend to arrive or commuting to work – we pull out our phones for a few minutes of distraction. Just as television reoriented the way we think about living rooms, mobile devices have taken over the interstitial spaces of our everyday lives. Ethan Tussey argues that these in-between moments have created a procrastination economy, an opportunity for entertainment companies to create products, apps, platforms, subscription services, micropayments, and interactive opportunities that can colonize our everyday lives. But as businesses commoditize our free time, and mobile devices become essential tools for promotion, branding and distribution, consumers are using these devices as a means of navigating public and private space. These devices are not just changing the way we spend and value our time, but also how we interact with others and transform our sense of the politics of space. By examining the four main locations of the procrastination economy—the workplace, the commute, the waiting room, and the “connected” living room—Ethan Tussey illuminates the relationship between the entertainment industry and the digitally empowered public.
