Library Programs and Services Stacey Greenwell, G. Edward Evans, 2023-06-15 The ninth edition of this popular overview of the various programs and services offered by libraries offers best practice and useful tips for implementing them effectively. Building on the strong foundation of the previous editions, award-winning author G. Edward Evans returns with a new co-author, Stacey Greenwell, for this update that combines their signature style of textbook readability, informality, and sometimes humor, as well as their knack for balancing foundational topics and new trends. A new feature in this edition is the incorporation of the concept of library social work through Social Work Connections sidebars in each chapter. Anecdotes throughout the text and Career Connections sidebars offer practical advice and specific current examples. Greenwell and Evans have combined several chapters from the previous edition and expanded discussions of new trends while retaining and updating the fundamentals. The ninth edition is a welcome update for library and information science courses and a valuable handbook for public services librarians.

Library Programs and Services G. Edward Evans, Margaret Zarnosky Saponaro, Holland Christie, Carol Sinwell, 2015-06-30 Covering every essential topic ranging from circulation and literacy instruction to reference and security, this benchmark text provides an up-to-date, broadly based view of library public service and its functions. Supplying essential, foundational reading for students of library public services as well as an up-to-date overview for practitioners who wish to refresh their knowledge or acquaint themselves with a new area of responsibility, this book's broad and solid coverage will benefit anyone concerned with developing or maintaining the public face of the library. A revision and expansion of Libraries Unlimited's Introduction to Library Public Services: Seventh Edition, this edition has new chapters covering such topics as e-resources, collections, print and other media, and facilities and funding. Additionally, every chapter has been substantially updated and reorganized to better reflect the role of technology in library services today. The book begins with background information on public services in libraries and an analysis of the library's public service philosophy. Then, the authors delve

into staffing and assessment of services, moving logically to major functional areas of public services—reference, instruction, document delivery, circulation and reserves, collections, programming, safety and security issues, and facilities and funding. Real-life anecdotes from public, academic, and school libraries illustrate principles and concepts throughout the book. For each topic, the authors detail its role and philosophy, and offer key points to remember, references, and lists for further reading.

Administering the School Library Media Center Betty J. Morris, 2010-08-16 This is the most comprehensive textbook on school library administration available, now updated to include the latest standards and address new technologies. This reference text provides a complete instructional overview of the workings of the library media center—from the basics of administration, budgeting, facilities management, organization, selection of materials, and staffing to explanations on how to promote information literacy and the value of digital tools like blogs, wikis, and podcasting. Since the publication of the fourth edition of *Administering the School Library Media Center* in 2004, many changes have altered the landscape of school library administration: the implementation of NCLB legislation and the revision of AASL standards, just to mention two. The book is divided into 14 chapters, each devoted to a major topic in school library media management. This latest edition gives media specialists a roadmap for designing a school library that is functional and intellectually stimulating, while leading sources provide guidance for further research.

Selling Science Stephen E. Mawdsley, 2016-08 Today, when many parents seem reluctant to have their children vaccinated, even with long proven medications, the Salk vaccine trial, which enrolled millions of healthy children to test an unproven medical intervention, seems nothing short of astonishing. In *Selling Science*, medical historian Stephen E. Mawdsley recounts the untold story of the first large clinical trial to control polio using healthy children—55,000 healthy children—revealing how this long-forgotten incident cleared the path for Salk's later trial. Mawdsley describes how, in the early 1950s, Dr. William Hammon and the National Foundation for Infantile Paralysis launched a pioneering medical experiment on a previously untried scale. Conducted on over 55,000 healthy children in Texas, Utah, Iowa, and Nebraska, this landmark study assessed the safety and effectiveness of a blood component, gamma globulin, to prevent paralytic polio. The value of the proposed experiment was questioned by many prominent health professionals as it harbored potential health risks, but as Mawdsley points out, compromise and coercion moved it forward. And though the trial returned dubious results, it was presented to the public as a triumph and used to justify a federally sanctioned mass immunization study on thousands of families between 1953 and 1954. Indeed, the concept, conduct, and outcome of the GG study were sold to health professionals, medical researchers, and the public at each stage. At a time when most Americans trusted scientists, their mutual encounter under the auspices of conquering disease was shaped by politics, marketing, and at times, deception. Drawing on oral history interviews, medical journals, newspapers, meeting minutes, and private institutional records, *Selling Science* sheds light on the ethics of scientific conduct, and on the power of marketing to shape public opinion about medical experimentation.

Library and Information Studies for Arctic Social Sciences and Humanities Spencer Acadia,Marthe Tolnes Fjellestad,2020-11-26 Library and Information Studies for Arctic Social Sciences and Humanities serves as a key interdisciplinary title that links the social sciences and humanities with current issues, trends, and projects in library, archival, and information sciences within shared Arctic frameworks and geographies. Including contributions from professionals and academics working across and on the Arctic, the book presents recent research, theoretical inquiry, and applied professional endeavours at academic and public libraries, as well as archives, museums, government institutions, and other organisations. Focusing on efforts that further Arctic knowledge and research, papers present local, regional, and institutional case studies to conceptually and empirically describe real-life research in which the authors are engaged. Topics covered include the complexities of developing and managing multilingual resources; working in geographically isolated areas; curating combinations of local, regional, national, and international content collections; and understanding historical and contemporary colonial-industrial influences in indigenous knowledge. Library and Information Studies for Arctic Social Sciences and Humanities will be essential reading for academics, researchers, and students working the fields of library, archival, and information or data science, as well as those working in the humanities and social sciences more generally. It should also be of great interest to librarians, archivists, curators, and information or data professionals around the globe.

Library Furnishings Tish Murphy, 2015-02-18 The life expectancy of a typical library is 20 or so years. This useful life can be greatly extended, however, with extensive planning and an informed choice of versatile, adaptable furnishings. Everything you need to know to accomplish this feat can be found within the pages of this volume. Professional, experienced advice and suggestions take the library designer through the entire design process. This book provides a plethora of information from the planning stages through the finished media center—to allow any librarian or architect to make informed, cost-effective decisions. The work begins with the creation of the development team, explains terminology employed by furniture manufacturers and the conventions used for furnishing measurements. Topics covered include the installation of adequate (and stable) shelving; user-friendly seating arrangements; and plans for satisfying ever-increasing technological requirements. Appendices contain a number of checklists covering such areas as the tasks and responsibilities of the development team; evaluations of various work stations and seating options; ADA surveys; and electronic planning. Detailed diagrams and photographs from completed designs are also included. From colors to work spaces and furniture composition, Tish Murphy's twenty years of experience in the field provides the reader with firsthand knowledge regarding what works and what doesn't in the world of library furnishings.

School Libraries 3.0 Rebecca P. Butler, 2015-06-18 This textbook, for school library administration courses, is written by a professor who has taught this course at least once a year for the past twenty years. Technology is interwoven throughout the book and not listed as a separate chapter or book section. This is because the school librarian of today—and certainly the school librarian of tomorrow—is working in an environment of web resources, multimedia, mixed methods, and varying programs and services. Major chapters cover the various roles of the school librarian, curricular standards and guidelines, policies and procedures, budgeting, facilities, personnel, services, programming, ethics, advocacy, and evaluation. Sample policies, procedures, and plans make this book valuable to both new and experienced school librarians.
