**Plume: World Explorer** Tania McCartney, 2022-05-04 Hitch a ride on the Albatross Express and travel the globe with Plume: World Explorer. This exciting new picture book series for little ones celebrates culture, diversity and the natural wonders of our world. Plume is not your typical Antarctic penguin. Sporting a bright yellow plume on the top of his head, Plume is bored of black and white, of shuffling around and snoozing on icebergs. He much prefers to cook, read, knit and sky dive. He craves colour, adventure, excitement! He wants to seize the world he's discovered in the books of his fantastical, glacier library (the largest in the Southern Hemisphere). Plume's great hope is to grow the hearts and minds of his penguin friends. Through his travels, children will engage with themes such as friendship, acceptance, understanding and the wellbeing of our planet. Plume is truly a book series for our times.

**The Shameless Diary of an Explorer** Robert Dunn, 1907 In 1903, aspiring journalist Robert Dunn joined an expedition attempting the first ascent of Mt. McKinley, the highest mountain in North America. Led by explorer Frederick Cook (who would later win infamy for faking the discovery of the North Pole), the climbers failed to conquer McKinley, but they did circumnavigate the great peak--an accomplishment not repeated until 1978. The trek also spawned a book unique in the literature of exploration: Dunn's frank, sardonic, no-holds-barred look at day-to-day existence on an Alaskan expedition. Before Dunn, most such accounts were sanitized and expurgated of anything unflattering. Dunn, however, a protege of the muckraker Lincoln Steffens, endeavored to report what he saw, with panache. And what Dunn reported was a journey rife with conflict, missed opportunity, incompetence, privation, and danger. By showing men reduced to their rawest state, the young journalist produced a compelling, insightful, and oddly amusing book that disturbed and riveted his contemporaries. As Hudson Stuck--the Episcopal archdeacon of the Yukon who completed the first ascent of Mt. McKinley in 1913--observed, [Dunn's] book has a curious undeniable power, despite its brutal frankness. ... One is thankful, however, that it is unique in the literature of travel.

Corporate Explorer Andrew Binns, Charles A. O'Reilly, Michael Tushman, 2022-01-28 Corporate Explorers Transform Disruption Into Opportunity With This Proven Framework Innovation used to be seen as a game best left to entrepreneurs, but now a new breed of corporate managers is flipping this logic on its head. These Corporate Explorers have the insight, resilience, and discipline to overcome the obstacles and build new ventures from inside even the largest organizations. Corporate Explorers are part entrepreneurs, using innovation disciplines to jump start cutting-edge ideas, and part change leaders, capable of creating support for investment. They see that corporations already own the ideas, resources, and--critically--the talent to build new ventures. Companies like Amazon, Microsoft, Bosch, LexisNexis, and Analog Devices enable managers to put these assets to use and gain an upper hand over startups that threaten to disrupt them. Corporate Explorer is a guidebook to the practices that enable these managers to go from idea into action. It demonstrates how success is not only possible but may offer entrenched companies better odds than venture-capital backed startups. This actionable and proven framework explains how managers can become successful corporate innovators; it includes tools to: Learn how to apply innovation practices with greater discipline Turn great ideas into a full-time job as an innovation leader Experiment with

and scale original business models Transform innovation programs into a thriving source of new business Attract, retain, and motivate entrepreneurial talent Energize employees by creating a realistic way to innovate These lessons come from the trailblazers of corporate innovation—Andrew Binns (Change Logic), Charles O'Reilly (Stanford Graduate School of Business), and Michael Tushman (Harvard Business School)—who have decades of experience helping entrepreneurial-minded executives activate employees to become Corporate Explorers. Entrepreneurs take notice—it's time for Corporate Explorers to set the pace and chart the course for disruption.

**The Food Explorer** Daniel Stone, 2019-02-05 The true adventures of David Fairchild, a turn-of-the-century food explorer who traveled the globe and introduced diverse crops like avocados, mangoes, seedless grapes—and thousands more—to the American plate. “Fascinating.”—The New York Times Book Review • “Fast-paced adventure writing.”—The Wall Street Journal • “Richly descriptive.”—Kirkus • “A must-read for foodies.”—HelloGiggles In the nineteenth century, American meals were about subsistence, not enjoyment. But as a new century approached, appetites broadened, and David Fairchild, a young botanist with an insatiable lust to explore and experience the world, set out in search of foods that would enrich the American farmer and enchant the American eater. Kale from Croatia, mangoes from India, and hops from Bavaria. Peaches from China, avocados from Chile, and pomegranates from Malta. Fairchild's finds weren't just limited to food: From Egypt he sent back a variety of cotton that revolutionized an industry, and via Japan he introduced the cherry blossom tree, forever brightening America's capital. Along the way, he was arrested, caught diseases, and bargained with island tribes. But his culinary ambition came during a formative era, and through him, America transformed into the most diverse food system ever created. “Daniel Stone draws the reader into an intriguing, seductive world, rich with stories and surprises. The Food Explorer shows you the history and drama hidden in your fruit bowl. It's a delicious piece of writing.”—Susan Orlean, New York Times bestselling author of *The Orchid Thief* and *The Library Book*

The Impossible First Colin O'Brady, 2020-11-17 In this Young Readers Edition of *Impossible First*—perfect for fans of *My Shot* by Elena Delle Donne and *Shaken* by Tim Tebow—Colin O'Brady vividly recounts his fifty-four-day, unsupported, record-shattering solo crossing of Antarctica using every ounce of his strength, years of training, and sheer force of will. Prior to December 2018, no individual had ever crossed the landmass of Antarctica alone, without support, and completely

human-powered. But Colin O'Brady was determined to do just that—even though ten years earlier a tragic accident raised doubts that he'd ever walk again normally. O'Brady's quest drew him into a head-to-head battle with British SAS Captain Louis Rudd—also striving to be “the first.” Enduring Antarctica's sub-zero temperatures and pulling a sled that initially weighed 375 pounds—in complete isolation and through a succession of whiteouts, storms, and a series of near disasters—O'Brady journeyed 932 miles to a world's first. Honest, deeply moving, filled with moments of vulnerability—and set against the backdrop of some of the most extreme environments on earth, from Mount Everest to Antarctica—*The Impossible First* reveals how anyone can reject limits, overcome immense obstacles, and discover what matters most.

**Explorer's Wife** Emma Wotton De Long, 2016-09-06 First published in 1938, Explorer's Wife is a heartfelt autobiography by Emma Wotton De Long, widow to arctic explorer George Washington De Long, lost to the disastrous Jeannette Expedition, 1879-1881. This endearing and detailed account recalls the lives of Emma and George during their young courtship, the preparations of the Jeannette Expedition, through to its voyage and ultimate demise. Written from a woman's perspective, her story chronicles the departure and loss of her husband through letters exchanged between the two, along with documents and anecdotes from the time. The Jeannette Expedition was captained by George Washington De Long, a US naval officer, and set sail for the arctic in 1879. Along with many of his men, De Long perished when their expedition ran into problems in the Bering Sea. Of the 33 crew members that departed on the voyage, only 13 arrived safely back on US soil. In this compelling account, Emma Wotton De Long provides a refreshing perspective on the naval catastrophe from a widow's point of view. Explorer's Wife is an excellent read for any interested in tragic maritime history and those looking to learn more about the arctic explorations of the past.
