Trust Your Gut Gregory Plotnikoff MD,Mark B. Weisberg,Steve LeBeau,2013-04-01 40 million Americans (1 in 5) suffer from chronic cramping, bloating, diarrhea, and gas. If you or someone you love is plagued by chronic digestive distress, you know what it's like to be held captive by your gut or spend thousands of dollars on prescriptions that brought only temporary relief. In *Trust Your Gut*, internist Dr. Gregory Plotnikoff and clinical psychologist Dr. Mark Weisberg show how to listen to your gut to interpret symptoms as important messages that can help correct imbalances. Rather than using drugs to mask the symptoms and underlying problems, Plotnikoff and Weisberg offer a program to assess how diet, sleep, and stress are affecting your life and health. Plotnikoff and Weisberg offer a self-help program that provides anyone with chronic gut distress the tools to break the vicious cycle of symptoms, fear and pain.

Supervision for Today's Schools George E. Pawlas, Peter F. Oliva, 2007-06-29 A highly respected overview of the field of instructional supervision that covers the three domains of supervision: instructional development, curriculum development, and staff development. The authors adhere to the beliefs that supervisors should look at teaching before looking at the teacher, and that the supervisor should look at the classroom and school environment within the context of instruction. Continuing in approach and philosophy as previous editions, the Eighth Edition will continue to lean toward practice, with heavy emphasis on the supervisor's responsibilities as an instructor.

A Companion to Ethics Peter Singer, 2013-06-05 In this volume, some of today's most distinguished philosophers survey the whole field of ethics, from its origins, through the great ethical traditions, to theories of how we ought to live, arguments about specific ethical issues, and the nature of ethics itself. The book can be read straight through from beginning to end; yet the inclusion of a multi-layered index, coupled with a descriptive outline of contents and bibliographies of relevant literature, means that the volume also serves as a work of reference, both for those coming afresh to the study of ethics and for readers already familiar with the subject.

McCain's Promise David Foster Wallace, 2008-06-01 Is John McCain For Real? That's the question David Foster Wallace set out to explore when he first climbed aboard Senator McCain's campaign caravan in February 2000. It was a moment when McCain was increasingly perceived as a harbinger of change, the anticandidate whose goal was to inspire young Americans to devote themselves to causes greater than their own self-interest. And many young Americans were beginning to take notice. To get at something riveting and unspinnable and true about John McCain, Wallace finds he must pierce the smoke screen of spin doctors and media manipulators. And he succeeds—in a characteristically potent blast of journalistic brio that not only captures the lunatic rough-and-tumble of a presidential campaign but also delivers a compelling inquiry into John McCain himself: the senator, the POW, the campaign finance reformer, the candidate, the man.

Jazz Transatlantic, Volume I Gerhard Kubik, 2017-10-17 A CHOICE 2018 Outstanding Academic Title In *Jazz Transatlantic, Volume I*, renowned scholar Gerhard Kubik takes the reader across the Atlantic from Africa to the Americas and then back in pursuit of the music we call jazz. This first volume explores the term itself and how jazz has been defined and redefined. It also celebrates the phenomena of jazz performance and uncovers hidden gems of jazz history. The volume offers insights gathered during Kubik's extensive field work and based on in-depth interviews with jazz musicians around the Atlantic world. Languages, world views, beliefs, experiences, attitudes, and commodities all play a role. Kubik reveals what is most important--the expertise of individual musical innovators on both sides of the Atlantic, and hidden relationships in their thoughts. Besides the common African origins of much vocabulary and structure, all the expressions of jazz in Africa share transatlantic family relationships. Within that framework, musicians are creating and re-creating jazz in never-ending contacts and exchanges. The first of two volumes, *Jazz Transatlantic, Volume I* examines this transatlantic history, sociolinguistics, musicology, and the biographical study of personalities in jazz during the twentieth century. This volume traces the African and African American influences on the creation of the jazz sound and traces specific African traditions as they transform into American jazz. Kubik seeks to describe the constant mixing of sources and

traditions, so he includes influences of European music in both volumes. These works will become essential and indelible parts of jazz history.

Blue Juice Patricia Morris, 2012-06-08 Offering a candid behind-the-scenes look at small-animal veterinary practices, *Blue Juice* explores the emotional and ethical conflicts involved in providing a good death for companion animals. Patricia Morris presents a nuanced ethnographic account of how veterinarians manage patient care and client relations when their responsibility shifts from saving an animal's life to negotiating a decision to end it. Using her own experiences and observations in veterinary settings as well as the voices of seasoned and novice vets, Morris reveals how veterinarians think about euthanasia and why this dirty work often precipitates burnout, moral quandaries, and even tense or emotional interactions with clients. Closely observing these interactions, Morris illuminates the ways in which euthanasia reflects deep and unresolved tension in human-animal relationships. *Blue Juice* seeks to

understand how practitioners, charged with the difficult task of balancing the interests of animals and their humans, deal with the responsibility of ending their patients' lives.
