Natural & Organic Beauty Recipes Evelyn R. Scott, 2015-03-10 Have you noticed? You continue to use cosmetics & products promising you an acne-free life, anti-aging results, smoother glowing skin... But the more you use these products, the fewer results you see. If you're like millions of other people, you may begin to feel they only prove to be a waste of both your money (the best of these products come with a hefty price tag!) and your time. There very well could be something else that is being wasted, too -- your very health. It's true! Even the so-called natural and organic cosmetics seem to carry potential dangers -- despite the soothing assurances of commercials and manufacturers. If you put cosmetics on with less than healthy -- even toxic -- ingredients, guess what happens? All the potentially toxic items soak directly into your skin and into your system. Surely there must be a better way to make you look and feel better without putting your health on the line everyday! What if I told you there were products available that are natural, and many times organic that wouldn't harm your skin or endanger your health? What if I told you there were products you can use and be absolutely sure of the ingredients you were using? What if I told you the ingredients for these outstanding skin care remedies are waiting for you right now in your very own kitchen? All you need to do is gather the items and make them. It's true and this is what Natural & Organic Beauty Recipes will show you. The Face Mask In COVID Times Deborah Lupton, Clare Southerton, Marianne Clark, Ash Watson, 2021-04-19 The simple fabric face mask is a key agent in the fight against the global spread of COVID-19. However, beyond its role as a protective covering against coronavirus infection, the face mask is the bearer of powerful symbolic and political power and arouses intense emotions. Adopting an international perspective informed by social theory, *The Face Mask in COVID Times: A Sociomaterial Analysis* offers an intriguing and original investigation of the social, cultural and historical dimensions of face-masking as a practice in the age of COVID. Rather than Beck's 'risk society', we are now living in a 'COVID society', the long-term effects of which have yet to be experienced or imagined. Everything has changed. The COVID crisis has generated novel forms of sociality and new ways of living and moving through space and time. In this new world, the face mask has become a significant object, positioned as one of the key ways people can protect themselves and others from infection with the coronavirus. The face mask is rich with symbolic meaning as well as practical value. In the words of theorist Jane Bennett, the face mask has acquired a new 'thing-power' as it is coming together with human bodies in these times of uncertainty, illness and death. The role of the face mask in COVID times has been the subject of debate and dissension, arousing strong feelings. The historical and cultural contexts in which face masks against COVID contagion are worn (or not worn) are important to consider. In some countries, such as Japan and other East Asian nations, face mask wearing has a long tradition. Full or partial facial coverings, such as veiling, is common practice in regions such as the Middle East. In many other countries, including most countries in the Global North, most people, beyond health care workers, have little or no experience of face masks. They have had to learn how to make sense of face masking as a protective practice and how to incorporate face masks into their everyday practices and routines. Face masking practices have become highly political. The USA has witnessed protests against face mask wearing that rest on 'sovereign individualism', a notion which is highly specific to the contemporary political climate in that country. Face masks have also been worn to make political statements: bearing anti-racist statements, for example, but also Trump campaign support. Meanwhile, celebrities and influencers have sought to advocate for face mask wearing as part of their branding, while art makers, museums, designers and novelty fashion manufacturers have identified the opportunity to profit from this sudden new market. Face masks have become a fashion item as well as a medical device: both a way of signifying the wearer's individuality and beliefs and their ethical stance in relation to the need to protect their own and others' health. *The Face Mask in COVID Times: A Sociomaterial Analysis* provides a short and accessible analysis of the sociomaterial dimensions of the face mask in the age of COVID-19. The book presents seven short chapters and an epilogue. We bring together sociomaterial theoretical perspectives with compelling examples from public health advice and campaigns, anti-mask activism as well as popular culture (news reports, blog posts, videos, online shopping sites, art works) to illustrate our theoretical points, and use Images to support our analysis.

Face and Mask Hans Belting, 2022-06-14 A cultural history of the face in Western art, ranging from portraiture in painting and photography to film, theater, and mass media This fascinating book presents the first cultural history and anthropology of the face across centuries, continents, and media. Ranging from funerary masks and masks in drama to the figural work of contemporary artists including Cindy Sherman and Nam June Paik, renowned art historian Hans Belting emphasizes that while the face plays a critical role in human communication, it defies attempts at visual representation. Belting divides his book into three parts: faces as masks of the self, portraiture as a constantly evolving mask in Western culture, and the fate of the face in the age of mass media. Referencing a vast array of sources, Belting's insights draw on art history, philosophy, theories of visual culture, and cognitive science. He demonstrates that Western efforts to portray the face have repeatedly failed, even with the developments of new media such as photography and film, which promise ever-greater degrees of verisimilitude. In spite of sitting at the heart of human expression, the face resists possession, and creative endeavors to capture it inevitably result in masks—hollow signifiers of the humanity they're meant to embody. From creations by Van Eyck and August Sander to works by Francis Bacon, Ingmar Bergman, and Chuck Close, Face and Mask takes a remarkable look at how, through the centuries, the physical visage has inspired and evaded artistic interpretation.

Meet Mask Hilda M Nunez, Barbara N Llossas, 2020-08-24 During the 2020 COVID-19 pandemic, many young children are learning to experience what it's like to wear a facial mask. Since facial masks can be made with many designs and out of many materials, it's no wonder why children might be frightened or insecure when they see them on people. Parents want to protect their children by providing a mask, however, many times it's easier said than done to try to have a child not be scared to wear one or understand why they need one when they leave the house. This story provides a way to make light of a pensive necessity. It introduces Mask as a friend and shares the idea that we are all in this together. This book introduces a commonality that all of us are safe when we wear a mask and that being protected, even in a small way, is beneficial to everyone!
