Finding Democracy in Music Robert Adlington, Esteban Buch, 2020-11-02 For a century and more, the idea of democracy has fuelled musicians' imaginations. Seeking to go beyond music's proven capacity to contribute to specific political causes, musicians have explored how aspects of their practice embody democratic principles. This may involve adopting particular approaches to compositional material, performance practice, relationships to audiences, or modes of dissemination and distribution. *Finding Democracy in Music* is the first study to offer a wide-ranging investigation of ways in which democracy may thus be found in music. A guiding theme of the volume is that this takes place in a plurality of ways, depending upon the perspective taken to music's manifold relationships, and the idea of democracy being entertained. Contributing authors explore various genres including orchestral composition, jazz, the post-war avant-garde, online performance, and contemporary popular music, as well as employing a wide array of theoretical, archival, and ethnographic methodologies. Particular attention is given to the contested nature of democracy as a category, and the gaps that frequently arise between utopian aspiration and reality. In so doing, the volume interrogates a key way in which music helps to articulate and shape our social lives and our politics.

Finding God in the Devil's Music Alex DiBlasi, Robert McParland, 2019-05-30 From the rise of the American Evangelical movement to the introduction of Eastern philosophies in the West, the past century has seen major changes in the religious makeup of Western culture. As one result, musicians across the world have brought both new and old religious beliefs into their works. This book investigates rock music as an expression of religious inquiry and religious devotion. Contributors to this essay collection use a variety of sources, including artist biographies, record and concert reviews, videos, personal experience, rock music forums and social media in order to investigate the relationship of rock music and religion from a number of perspectives. The essays also explore public interest in religion as a platform for expression and social critique, viewing this issue through the lens of popular rock music.

The Search for Medieval Music in Africa and Germany, 1891–1961 Anna Maria Busse Berger, 2020-10-30 This innovative book reassesses the history of musicology, unearthing the field's twentieth-century German and global roots. In the process, Anna Maria Busse Berger exposes previously unseen historical relationships such as those between the modern rediscovery of medieval music, the rise of communal singing, and the ways in which African music intersected with missionary work in the German colonial period. Ultimately, Busse Berger offers a monumental new account of the early twentieth-century music culture in Germany and East Africa. The book unfolds in three parts. Busse Berger starts with the origins of comparative musicology circa 1900, when early proponents used ideas from comparative linguistics to test whether parallels could be drawn between nonwestern and medieval European music. She then turns to youth movements of the era—the Wandervogel, Jugendmusikbewegung, and Singbewegung—whose focus on joint music making influenced many musicologists. Finally, she considers case studies of Protestant and Catholic mission societies in what is now Tanzania, where missionaries—many of them musicologists and former youth-group members—extended the discipline via ethnographic research and a focus on local music and communities. In highlighting these long-overlooked transnational connections and the role of global music in early musicology, Busse Berger shapes a fresh conception of music scholarship during a pivotal part of the twentieth century.

Lyrics in Search of Music Terry L. Rath,2018-11-20 I have composed the following collection of poetry for more than four decades. This is my second published book of verse. Once again, it has been inspired by people, places, and life episodes that have been a large part of my life. Writing has become a great passion for me, as it occupies such a large part of my life. In this book, I cover several darker subjects from the less popular side of life that I didn't feature, in depth, in my first book. Working in downtown Denver for more than ten years, I encountered people that were struggling to just survive rather than actually living life. My goal, in compiling this collection, is to present a strong mix of poetic subjects. –Terry L. Rath

Ruth Crawford Seeger : A Composer's Search for American Music Judith Tick Professor of Music Northeastern University,1997-08-18 Ruth Crawford Seeger (1901-1953) is frequently considered the most significant American female composer in this century. Joining Aaron Copland and Henry Cowell as a key member of the 1920s musical avant-garde, she went on to study with modernist theorist and future husband Charles Seeger, writing her masterpiece, String Quartet 1931, not long after. But her legacy extends far beyond the cutting edge of modern music. Collaborating with poet Carl Sandburg on folk song arrangements in the twenties, and with the famous folk-song collectors John and Alan Lomax in the 1930s, she emerged as a central figure in the American folk music revival, issuing several important books of transcriptions and arrangements and pioneering the use of American folk songs in children's music education. Radicalized by the Depression, she spent much of the ensuing two decades working aggressively for social change with her husband and stepson, the folksinger Pete Seeger. This engrossing new biography emphasizes the choices Crawford Seeger made in her roles as composer, activist, teacher, wife and mother. The first woman to win a Guggenheim Foundation Fellowship in music composition, Crawford Seeger nearly gave up writing music as the demands of family, politics, and the folk song movement intervened. It was only at the very end of her life, with cancer sapping her strength, that she returned to composing. Written with unique insight and compassion, this book offers the definitive treatment of a fascinating twentieth-century figure.

In Search of Song: The Life and Times of Lucy Broadwood Dorothy de Val,2016-05-23 Born into the famous family of piano makers, Lucy Broadwood (1858-1929) became one of the chief collectors and scholars of the first English folk music revival in the late nineteenth and early twentieth centuries. Privately educated and trained as a classical musician and singer, she was inspired by her uncle to collect local song from her native Sussex. The desire to rescue folk song from an aging population led to the foundation of the Folk Song Society, of which she was a founder member. Mentor to younger collectors such as Percy Grainger but often at loggerheads with fellow collector Cecil Sharp and the young Ralph Vaughan Williams, she eventually ventured into Ireland and Scotland, while remaining an eclectic contributor and editor of the Society's Journal, which became a flagship for scholarly publication of folksong. She also published arrangements of folk songs and her own compositions which attracted the attention of singers such as Harry Plunket Greene. Using an array of primary sources including the diaries Broadwood kept throughout her adult life, Dorothy de Val provides a lively biography which sheds new light on her early years and chronicles her later busy social, artistic and musical life while acknowledging the underlying vulnerability of single women at this time. Her account reveals an intelligent, generous though reserved woman who, with the help of her friends, emerged from the constraints of a Victorian upbringing to meet the challenges of the modern world.

This Thing Called Music Victoria Lindsay Levine,Philip V. Bohlman,2015-05-21 The most fundamental subject of music scholarship provides the common focus of this volume of essays: music itself. For the distinguished scholars from the field of musicology and related areas of the humanities and social sciences, the search for music itself—in its vastly complex and diverse forms throughout the world—characterizes the lifetime of reflection and writing by Bruno Nettl, the leading ethnomusicologist of the past generation. This Thing Called Music: Essays in Honor of Bruno Nettl salutes not only a great scholar and beloved teacher, but also a thinker whose search for the meaning and ontology of music has exerted a global influence. Editors Victoria Lindsay Levine and Philip V. Bohlman have gathered essays that represent the many dimensions of musical meaning, addressing some of the most critically important areas of music scholarship today. The social formations of musical communities play counterpoint to analytical studies; investigations into musical change and survival connect ethnography to history, offering a collection of essays that can serve as an invaluable resource for the intellectual history of ethnomusicology. Each chapter explores music and its meanings in specific geographic areas—North and South America, Europe, Asia, and the Middle East—crossing the boundaries of genre, repertory, and style to provide insight into the aesthetic zones of contact between and among the folk, classical, and popular musics of the world. Readers from all disciplines of music scholarship will find in this collection a proper companion in an era of globalization, when the connections that draw musicians and musical practices together are more sweeping than ever. Chapters offer models for detailed analysis of specific musical practices, while at the same time they make possible new methods of comparative study in the twenty-first century, together posing a challenge crucial to all musicians and scholars in search of “this thing called music.”
