What is e-book? Nicolae Sfetcu,2014-05-10 The e-book guide for publishers: how to publish, EPUB format, ebook readers and suppliers. An electronic book (also e-book, ebook, electronic book, digital book) is a book-length publication in digital form, consisting of text, images, or both, and produced on, published through, and readable on computers or other electronic devices. An e-book can be purchased/borrowed, downloaded, and used immediately, whereas when one buys or borrows a book, one must go to a bookshop, a home library, or public library during limited hours, or wait for a delivery. Electronic publishing or ePublishing includes the digital publication of e-books and electronic articles, and the development of digital libraries and catalogues. EPUB (short for electronic publication; alternatively capitalized as ePub, ePUB, Epub, or epub, with EPUB preferred by the vendor) is a free and open e-book standard by the International Digital Publishing Forum (IDPF). Self-publishing is the publication of any book or other media by the author of the work, without the involvement of an established third-party publisher. One of the greatest benefits brought about by ebooks software is the ability for anyone to create professional ebooks without having to fork out thousands of dollars to design and publish a book. People can easily become authors overnight and earn income from selling online ebooks.

The New American Revolution Kayleigh McEnany, 2019-09-03 In this essential exploration of the American heartland, Kayleigh McEnany presents an eye-opening collection of interviews and stories about the powerful grassroots populist movement of frustrated Americans left behind by the government that changed the landscape of political campaigns forever Kayleigh McEnany spent months traveling throughout the United States, conducting interviews with citizens whose powerful and moving stories were forgotten or intentionally ignored by our leaders. Through candid, one-on-one conversations, they discussed their deeply personal stories and the issues that are most important to them, such as illegal immigration, safety from terrorist attacks, and religious freedom. The New American Revolution chronicles both the losses of these grassroots voters, as well as their ultimate victory in November 2016. Kayleigh also includes interviews with key figures within President Trump's administration—including Ivanka Trump, Secretary Ben Carson, Jared Kushner, and many more—and their experiences on the road leading up to President Trump's historic win. Kayleigh's journey takes her from a family cabin in Ohio to the empty factories in Flint, Michigan, from sunny Florida to a Texas BBQ joint—and, of course, ends up at the White House. The collective grievance of the American electorate reveals a deep divide between leaders and citizens. During a time of stark political division, Kayleigh discovers a personal unity and common thread of humanity that binds us nevertheless. Through faith in God and unimaginable strength, these forgotten men and women have overcome, even when their leaders turned their heads. An insightful book about the triumph of this powerful movement, The New American Revolution is a potent testament to the importance of their message.

Architectures of Occupation in the Australian Short Story Patrick West, 2024-05-28 Patrick West's Architectures of Occupation in the Australian Short Story cultivates the potential for literary representations of architectural space to contribute to the development of a contemporary politics of Australian post-colonialism. West argues that the predominance of tropes of place within cultural and critical expressions of Australian post-colonialism should be re-balanced through attention to spatial strategies of anti-colonial power. To elaborate the raw material of such strategies, West develops interdisciplinary close readings of keynote stories within three female-authored, pan-twentieth century, Australian short-story collections: Bush Studies by Barbara Baynton (1902); Kiss on the Lips and Other Stories by Katharine Susannah Prichard (1932); and White Turtle: A Collection of Short Stories by Merlinda Bobis (1999). The capacity of the short-story form to prompt creative and politically germinal engagements with species of space associated with architecture and buildings is underscored. Relatedly, West argues that the recent resurgence

of binary thought—on local, national, and international scales—occasions an approach to the short-story collections shaped by binary relationships like a dichotomy of inside and outside. Concluding his argument, West connects the literary and architectural critiques of the story collections to the wicked problem, linked to ongoing colonial violences, of improving Australian Indigenous housing outcomes. Innovative and interdisciplinary, this book will be of interest to scholars and students of Literary, Architectural, and Postcolonial Studies. .
