The Geometry Code Bruce Rawles,2012-04 Integrate practical insights from modern physics, ancient Hermetic Laws, non-dual meta-physics, transpersonal psychology, and humor, as tools for undoing conflicting beliefs we've dreamed ourselves into. The seven Hermetic laws are explored in

depth and demonstrate how a mindfulness that embraces 'other' as 'self' can reverse the typical misapplication of these inescapable laws of Mentalism, Correspondence, Vibration, Polarity, Rhythm, Cause & Effect and Generation. Ubiquitous geometric symbols, paired to each of these laws - the circle, vesica piscis, sine wave, line, spiral, fractal and yin-yang - and their countless commonplace variations, seen from the vantage point of shared interests, reflect these ideas. The inspired use of natural law restores attributes of life, love, strength, purity, beauty, perfection and gratitude to our awareness.

Using the Internet as a Reference Tool Michael P. Sauers,Denice Adkins,2001 The author presents both the challenge and the opportunity provided by the Internet as a reference tool. His objectives include being able to access, evaluate, and navigate Internet sites with the speed, efficiency, and comfort level librarians and patrons have enjoyed with print sources. Chapters provide background on the impact of the new technology for reference solutions and offer an excellent comparison of print and Internet resources that will aid in justifying the need for both. Information on creating effective reference strategies and a discussion of search engines and directories are included. The chapter on evaluation of reference resources outlines six points for librarians to consider when adding a print source to the collection and describes how these same factors are considered with Internet sites. Chapter five can be adapted as a teaching tool for teachers and others who need to learn strategies for accessing Internet information. There is also a site listed with links to all the resources included in this book.
