The production steps are all there, enhanced with graphs of the production process, production forms, photos and a comprehensive list of production resources along with a chapter devoted to the use of computers for the production and post-production process. The techniques of planning for success are easily applied to both traditional linear program development to interactive multimedia development for all types of programs, including communications, training, marketing, corporate news and teleconferencing. Pre-Production Planning for Video, Film and Multimedia also includes 30 planning, production and post-production forms that can be accessed on an accompanying complimentary disk (for both IBM compatibles or Mac). Reimagining Textuality Elizabeth Bergmann Loizeaux,Neil Fraistat,2002 What happens when, in the wake of postmodernism, the old enterprise of bibliography, textual criticism, or scholarly editing crosses paths and processes with visual and cultural studies? In *Reimagining Textuality*, major scholars map out in this volume a new discipline, drawing on and redirecting a host of subfields concerned with the production, distribution, reproduction, consumption, reception, archiving, editing, and sociology of texts.

40 Days and 40 Bytes Aaron Spiegel,Nancy Armstrong,Brent Bill,2004-06-01 Today we are awash in computerized Bible games, pastoral care software, and church management systems with members' personal information and giving records, observe authors Spiegel, Armstrong, and Bill, but too often we blindly accept and use technology

without asking the big questions. Questions like, is it appropriate to our mission and ministry? 40 Days and 40 Bytes will help your congregation explore technology so you can decide, from a ministry and culture standpoint, what you need to do. The goal: godly service—not technological glitz. The authors are uniquely qualified to help you think about the role of technology in your congregation. All three are staff members with the Indianapolis Center for Congregations, which launched the innovative Computers and Ministry Grants Initiative in 1998 to help congregations address the challenges they face when using computer technology in their ministries. In this book, they share what they have learned in their work with 102 congregations. There's no question your congregation is going to use computer technology. The only question is, How? 40 Days and 40 Bytes will help you design technology that fits your ministry and mission.
