Expert Oracle Exadata Kerry Osborne, Randy Johnson, Tanel Poder, 2011-10-15
Throughout history, advances in technology have come in spurts. A single great idea can often spur rapid change as the idea takes hold and is propagated, often in totally unexpected directions. Exadata embodies such a change in how we think about and manage relational databases. The key change lies in the concept of offloading SQL processing to the storage layer. That concept is a huge win, and its implementation in the form of Exadata is truly a game changer. *Expert Oracle Exadata* will give you a look under the covers at how the combination of hardware and software that comprise Exadata actually work. Authors Kerry Osborne, Randy Johnson, and Tanel Poder share their real-world experience, gained through multiple Exadata implementations with the goal of opening up the internals of the Exadata platform. This book is intended for readers who want to understand what makes the platform tick and for whom—how it does what it is does is as important as what it does. By being exposed to the features that are unique to Exadata, you will gain an understanding of the mechanics that will allow you to fully

benefit from the advantages that the platform provides. Changes the way you think about managing SQL performance and processing Provides a roadmap to laying out the Exadata platform to best support your existing systems Dives deeply into the internals, removing the black box mystique and showing how Exadata actually works

The Columbia Anthology of Modern Chinese Drama Xiaomei Chen, 2014-04-01 This condensed anthology reproduces close to a dozen plays from Xiaomei Chen's well-received original collection, along with her critical introduction to the historical, cultural, and aesthetic evolution of twentieth-century Chinese spoken drama. Comprising

representative works from the People's Republic of China, the collection encapsulates the revolutionary rethinking of Chinese theater and performance that began in the late Qing dynasty and vividly portrays the uncertainty and anxiety brought on by modernism, socialism, political conflict, and war. Chosen works from 1919 to 1990 also highlight the formation of Chinese national and gender identities during a period of tremendous social, cultural, and political change and the genesis of contemporary attitudes toward the West. PRC theater tracks the rise of communism in China, juxtaposing ideals of Chinese socialism against the sacrifices made for a new society. Post-Mao drama addresses the nation's socialist legacy, its attempt to reexamine its cultural roots, and postsocialist reflections on critical issues such as nation, class, gender, and collective memories. An essential, portable guide for easy reference and classroom use, this abridgement provides a concise yet well-rounded survey of China's theatricality and representation of political life. This work has not only established a canon of modern Chinese drama but also made it available for the first time in English in a single volume.

Demosthenes, Speeches 60 and 61, Prologues, Letters ,2009-03-16 This is the tenth volume in the Oratory of Classical Greece. This series presents all of the surviving speeches from the late fifth and fourth centuries BC in new translations prepared by classical scholars who are at the forefront of the discipline. These translations are especially designed for the needs and interests of today's undergraduates, Greekless scholars in other disciplines, and the general public. Classical oratory is an invaluable resource for the study of ancient Greek life and culture. The speeches offer evidence on Greek moral views, social and economic conditions, political and social ideology, law and

legal procedure, and other aspects of Athenian culture that have recently been attracting particular interest: women and family life, slavery, and religion, to name just a few. Demosthenes is regarded as the greatest orator of classical antiquity. This volume contains his Funeral Oration (Speech 60) for those who died in the Battle of Chaeronea in 338 BC, in which Philip of Macedonia secured his dominance over Greece, as well as the so-called Erotic Essay (Speech 61), a rhetorical exercise in which the speaker eulogizes the youth Epicrates for his looks and physical prowess and encourages him to study philosophy in order to become a virtuous and morally upright citizen. The volume also includes fifty-six prologues (the openings to political speeches to the Athenian Assembly) and six letters apparently written during the orator's exile from Athens. Because so little literature survives from the 330s and 320s BC, these works provide valuable insights into Athenian culture and politics of that era.
