Picture Research Nina Lager Vestberg,2023-06-06

An intimate foray into the invisible work that made it possible for pictures to circulate in print and online from the 1830s to the 2010s. Picture Research focuses on how pictures were saved, stored, and searched for in a time before scanners, servers, and search engines, and describes the dramatic difference it made when images became scannable, searchable, and distributable via the internet. While the camera, the darkroom, and the printed page are well-known sites of photographic production that have been replaced by cell phones, imaging software, and websites, the cultural intermediaries of mass-circulation photography—picture librarians and researchers, editors, and archivists—are less familiar. In this book, Nina Lager Vestberg artfully details the range of research skills, reproduction machinery, and communication infrastructures that was needed to make pictures available to a public before digitization. Drawing on documents and representations across a range of cultural expressions, Picture Research reveals the intermediation that has been performed by skilled workers in a variety of roles, making use of pre-photographic, photographic, and digital machineries of capture, accumulation, extraction, and transmission. Tracing a history of the modern pictorial economy from the pre-photographic 1830s to the post-digitized 2010s, it makes visible and explicit the invisible labor that has built—and still sustains—the visual commodity culture of everyday life.

Look at My Striped Shirt! The Phat Phree,2006-12-26

Target. Observe. Ridicule. You run into them every day—the striped-shirt guy, the karaoke master, the dude with a pencil-thin beard, the guy who won't shut up about his fantasy football team—characters who annoy, irritate, and incense us all. Based on the wildly popular essay on ThePhatPhree.com by Mike Polk, this book is a look inside the heads of the most infuriating douchebags on Earth. It's the best of ThePhatPhree.com plus more than fifty all-new, hilarious pieces written by some of your favorite writers from this site. Everyone's (Least) Favorite, The Striped-Shirt Guy ... I will valet tonight! I will treat the valet with contempt and make sure that he knows that I am superior to him. I will tell him, "Take it easy on the brakes, champ"! When I do not hook up with a girl at the club, I will say that the place is "full of skanks" and wait in line at another bar, only to strike out again! Your "Cool" High School Teacher ... Here are some things I allow in my class that other teachers don't: eating, drinking, swearing, dancing, smoking, fighting, cell phones, Texas hold 'em, iPods, and sex. Like my Goo Goo Dolls tee? Anyone else here down with the Dolls? No? Me either. I'm just wearing it as a goof. The Guy with Amazing Taste in Music ... Personally, I haven't listened to the radio in fifteen years. If you have ever heard a band on the radio, then I can assure you, I am not a fan. I stopped listening to American music about ten years ago.

Financial Cryptography and Data Security Roger Dingledine, Philippe Golle, 2009-07-21

This volume contains the proceedings of the 13th International Conference on Financial Cryptography and Data Security, held at the Accra Beach Hotel and Resort, Barbados, February 23-26, 2009. Financial Cryptography and Data Security (FC) is a well-established international forum for research, advanced development, education, exploration and debate regarding information assurance in the context of finance and commerce. The conference covers all aspects of securing transactions and systems. The goal of FC is to bring security and cryptography researchers and practitioners together with economists, bankers, and policy makers. This year, we assembled a vibrant program featuring 21 peer-reviewed research paper presentations, two panels (on the economics of information security and on authentication), and a keynote address by David Dagon. Despite a proliferation of security and cryptography venues, FC continues to receive a large number of high-quality submissions. This year, we received 91 submissions (75 full-length papers, 15 short papers and 1 panel). Each submission was reviewed by at least three reviewers. Following a rigorous selection, ranking and discussion process, the Program Committee accepted 20 full-length papers, 1 short paper and 1 panel. The overall acceptance rate was 24%.

Transforming from Consumer to Producer in 90 Days Darryl L.

Wortham, 2011-08-10 FOREWORD The core concept is not just saving money, but saving time and energy as well. These savings are multiplied together, giving you more money to invest. To summarize, I created the equation: $\$ET = M2 \text{ to INVEST}$, in which saving Money, Energy, and Time ($\$ET$) are multiplied to generate (=) More Money ($M2$) to INVEST. This equation is fundamental to your success! You must be prepared to take action to start having enough money to accomplish your goals, to stop living paycheck to paycheck, and to retire early. If you are on course to make the same income as last year or, worse, facing

declining take-home pay because of ever-increasing taxes, medical costs and declining economy, don't give up! Saving money, energy, and time will generate more money to invest creating real income and wealth. Transforming you from consumer to producer! You must expand yourself personally as well as enhance your inner and micro economics. Rather than growing a mega-company's revenue or the financial fortitude of millionaires' pockets, you are going to grow your own individual savings account, retirement plan, and children's college funds. This book is a guide to help you create a path and roadmap to a life of saving money, reducing debt, living efficiently, and creating wealth by investing within a reasonable timeframe. Together we will examine four major building blocks that inspire and accelerate behavioral changes: 1. Why and how to change your behavior and lifestyle. 2. How to save money, energy, and time. 3. How to invest your money, energy, and time savings to improve your present situation and build for the future. 4. How to create and implement a transformation plan. Progressive ideas and hilarious cheap strategies are also detailed. These are necessary to exceed your personal and financial goals. I want you to be thrilled about life, saving money for a brighter future, and early retirement, while having fun at the same time.
