

Free Search Engine Optimization Tool

Bruce Clay

Seo Toolbook Jason McDonald, 2015-11-22 Free Tools for SEO in a Comprehensive Directory REVISED for 2016 - to cover new topics such as content marketing, Google+, and the new link-building! Why buy PAID TOOLS when you can use the many FREE TOOLS available on the Internet? You just have to know where to look. Used by Jason McDonald in his online SEO classes as well as classes at Stanford Continuing Studies and classes at San Francisco's Bay Area Video Coalition and AcademyX, the SEO Toolbook is a MUST HAVE for anyone who wants to dominate Google, Bing, or Yahoo. Here's what you get: Tools for every aspect of SEO, starting at Keywords proceeding through Page Tags, Link-building, and Diagnostics and ending up at rank measurement and Google Analytics. Web links to each and every free tool. A description of the tool plus a relevancy score. In addition to tools, pointers to tutorials, blogs, and trade shows on Search Engine Optimization as well as official free Google resources and even funny Easter Eggs. Access to the online edition, including Jason's dashboard of clickable tool links.

IMPORTANT ALERTS The SEO Toolbook is available FREE in PDF format (not hard copy!) to folks who take any of Jason's classes (both online and in San Francisco), as well as subscribers to the JM INTERNET GROUP email lists. Buy this book ONLY if you want a hard copy, printed version of this important search engine optimization tools directory. The SEO Toolbook is a wonderful companion to all books on SEO such as SEO For Dummies, SEO an Hour a Day, Search engine optimization 2016, etc. Understand How the SEO Toolbook Works First and foremost, the SEO Toolbook assumes a working knowledge of SEO. This toolbook has many wonderful free tools, but the tools alone are useless without a knowledge of how the game is played! (If you need that knowledge, we recommend you check out my SEO Fitness Workbook (on Amazon), online courses a, or call 800-298-4065 to learn more about my SEO one-on-one training and consulting

services). Second, this book emphasizes only free tools. Despite the fact that there are quite a few paid SEO tools out there, none are any better than the free tools identified in this Toolbook. Indeed, in today's tight economy, why pay when you can get them for free? Not to mention, why pay when the most important element, i.e. a knowledge of how SEO is played to win, can't be obtained from any tool? Third, we have reviewed each tool in the Toolbook for relevance and ease of use. Almost without exception, the tools in the Toolbook require nothing more than a Web browser and active connection to the Internet. Easy is just as important as free. Generally speaking, if a tool requires registration or has only a trial period, it has been excluded.

Be #1 on Google Absolutely 100% Free. Search Engine Optimization, 2018-03-22 How To Rank #1 On Google!!! There are ONLY TWO WAYS to maintain Top Rankings on Google; 1. Outspend your competition. 2. Read This Book!!? Nothing else works and why should it? Why does my website need SEO? The majority of web traffic is driven by the major commercial search engines, Google, Bing, and Yahoo!. Although social media and other types of traffic can generate visits to your website, search engines are the primary method of navigation for most Internet users. This is true whether your site provides content, services, products, information, or just about anything else. Search engines are unique in that they provide targeted traffic-people looking for what you offer. Search engines are the roadways that make this happen. If search engines cannot find your site, or add your content to their databases, you miss out on incredible opportunities to drive traffic to your site. Search queries-the words that users type into the search box-carry extraordinary value. Experience has shown that search engine traffic can make (or break) an organization's success. Targeted traffic to a website can provide publicity, revenue, and exposure like no other channel of marketing. Investing in SEO can have an exceptional rate of return compared to other types of marketing and promotion. Why can't the search engines figure out my site without SEO? Search engines are smart, but they still need help. The major engines are always working to improve their technology to crawl the web more deeply and return better results to users. However, there is a limit to how search engines can operate. Whereas the right SEO can net you thousands of visitors and increased attention, the wrong moves can hide or bury your site deep in the search results where visibility is minimal. In addition to making content available to search engines, SEO also helps boost rankings so that content will

be placed where searchers will more readily find it. The Internet is becoming increasingly competitive, and those companies who perform SEO will have a decided advantage in visitors and customers. SEARCH ENGINE OPTIMIZATION refers to the position at which a particular site appears in the results of a search engine query. A site is said to have a high ranking ... How can I get my website ranked at the top of Google?3. I want my website to get top ranking. How do I do that?AND you want to achieve that ranking in a cheap or affordable way... IT ISN'T GOING TO HAPPEN. Want to know the truth that most SEO scammers and spammers COUNT ON to be able to deceive you and take your money? At the same time, do you want to know the truth that most people with top ranked websites DON'T WANT YOU TO KNOW?
