Society in the Self Hubert J. M. Hermans, 2018-03-09 Instead of considering society as a social environment, *Society in the Self* begins from the assumption that society works in the deepest regions of self and identity, as expressed in phenomena like self-sabotage, self-radicalization, self-cure, self-government, self-nationalization, and self-internationalization. This leads to the central thesis that a democratic society can only function properly if it is populated by participants with a democratically organized self. In this book, an integrative model is presented that is inspired by three versions of democracy: cosmopolitan, deliberative, and agonistic democracy, with the latter focusing on the role of social power and emotions. Drawing on these democratic views, three levels of inclusiveness are distinguished in the self: personal (I as an individual), social (I as a member of a group), and global (I as a human being). A democratic self requires the flexibility of moving up and down across these levels of inclusiveness and has to find its way in fields of tension

between the self and the other, and between dialogue and social power. As author Hubert Hermans explains, this theory has far reaching consequences for such divergent topics as leadership in the self, cultural diversity in the self, the relationship between reason and emotion, self-empathy, cooperation and competition between self-parts, and the role of social power in prejudice, enemy image construction, and scapegoating. The central message of this book is reflected in Mahatma Gandhi's dictum: Be the change you want to see in the world.

Does free will really exist? This book explores how our genes and experiences determine our behaviour as well as discussing the implications determinism may have on personal responsibility and morality.

Diary of An Expat in Singapore Jennifer Gargiulo, 2013-08-15 This hilarious new book records the tongue-in-cheek journey of an expat in Singapore, told through vignettes, snapshots and Top 10 lists: "10 sure signs you're in a Singapore taxi"; "Things first-time visitors to Singapore say"; "10 signs you've overstayed"; "Politically-incorrect expat profiling by nationality"; and many more. Based on the author Jennifer Gargiulo's popular blog of the same name, *Diary of an Expat in Singapore* packs in a wealth of quirky observations, witty one-liners, and laugh-out-loud misunderstandings as the author tries to adjust to life in a strange new land and raise two kids while at it. Marvel as Jennifer enlists the help of her young son, Alexander (who learns Chinese at school), to find out what her hairdressers are saying about her at the salon! Expats will share many of the experiences of the author told in this book, but few will have heard them told with more humour and flair. And Singaporeans will also find much to enjoy and laugh over, when local customs and foibles are seen anew through the author's eyes

Animalkind Ingrid Newkirk, Gene Stone, 2021-01-19 The founder and president of PETA, Ingrid Newkirk, and bestselling author Gene Stone explore the wonders of animal life with “admiration and empathy” (The New York Times Book Review) and offer tools for living more kindly toward them. In the last few decades, a wealth of new information has emerged about who animals are: astounding beings with intelligence, emotions, intricate communications networks, and myriad abilities. In *Animalkind*, Ingrid Newkirk and Gene Stone present these findings in a concise and awe-inspiring way, detailing a range of surprising discoveries, like that geese fall in love and stay with a partner for life, that fish “sing” underwater, and that elephants use their trunks to send subsonic signals, alerting other herds to danger miles away. Newkirk and Stone pair their tour through the astounding lives of animals with a guide to the exciting new tools that allow humans to avoid using or abusing animals as we once did. Whether it’s medicine, product testing, entertainment, clothing, or food, there are now better options to all the uses animals once served in human life. We can substitute warmer, lighter faux fleece for wool, choose vegan versions of everything from shrimp to marshmallows, reap the benefits of animal-free medical research, and scrap captive orca exhibits and elephant rides for virtual reality and animatronics. *Animalkind* provides a fascinating look at why our fellow living beings deserve our respect, and lays out the steps everyone can take to put this new understanding into action.

Interesting Times Terry Pratchett, 2009-10-13 “Discworld is more complicated and satisfactory than Oz . . . has the energy of *The Hitchhiker’s Guide to the Galaxy* and the inventiveness of *Alice in Wonderland* . . . brilliant.” —A. S. Byatt When war, magic, politics,

and one deliciously inept wizard collide, zany mayhem ensues in this delightful satire in Sir Terry Pratchett's internationally bestselling Discworld series. To the fine denizens of Discworld, the phrase "May you live in interesting times" is a curse. No one wishes to hear those words, especially not Rincewind. The distinctly unmagical sorcerer has barely survived more than a few "interesting times" and he isn't looking to experience any more. But when a request for a "Great Wizzard" arrives in Ankh-Morpork via carrier albatross from the faraway Counterweight Continent, Rincewind is named emissary. The Agatean Empire's current ruler is on the brink of downfall, and chaos is all but certain to arise in the wake. For some incomprehensible reason, someone believes Rincewind will have a mythic role in the war and the ensuing bloodletting. Cohen the Barbarian and his extremely elderly Silver Horde are already hard at work planning for the looting and pillaging. Anyone can be a hero, but there's only one Rincewind—and he believes he owes it to the world to keep that one alive for as long as possible. The Discworld novels can be read in any order but *Interesting Times* is the fifth installment in the Wizards collection (and the 18th Discworld book). The other books in the Wizards collection include: *The Color of Magic* *The Light Fantastic* *Sourcery* *Eric* *The Last Continent* *Unseen Academicals*

Overcoming Animal and Insect Phobias Martin Antony,Randi E. McCabe,2005-06-01 As the makers of blockbuster movies like *The Birds*, *Jaws* and *Arachnophobia* well know, animal fears are the most commonly reported phobias. Some 6 percent of Americans suffer from diagnosable animal phobia at any given time, and 11 percent will experience an episode at some time in their lives. Nearly three quarters of animal phobia sufferers are women, and

most symptoms of animal phobia come on in childhood. Since most people with animal phobias experience panic attacks when they encounter certain animals, these fears can cause victims to lose significant quality of life. Fortunately, specific phobias are among the most responsive of anxiety disorders to behavior therapy, the research-proven treatment adapted for self-help readers in this book. Readers first learn about their phobia, where it comes from, what factors influence it, and how best to prepare for treatment. Then they learn to confront and overcome their animal and insect phobia. These techniques are effective and fast. The book includes information about avoiding relapse and helping someone else who suffers from an animal phobia.

The Art of Deception Kevin D. Mitnick, William L. Simon, 2011-08-04 The world's most infamous hacker offers an insider's view of the low-tech threats to high-tech security Kevin Mitnick's exploits as a cyber-desperado and fugitive form one of the most exhaustive FBI manhunts in history and have spawned dozens of articles, books, films, and documentaries. Since his release from federal prison, in 1998, Mitnick has turned his life around and established himself as one of the most sought-after computer security experts worldwide. Now, in *The Art of Deception*, the world's most notorious hacker gives new meaning to the old adage, It takes a thief to catch a thief. Focusing on the human factors involved with information security, Mitnick explains why all the firewalls and encryption protocols in the world will never be enough to stop a savvy grifter intent on rifling a corporate database or an irate employee determined to crash a system. With the help of many fascinating true stories of successful attacks on business and government, he illustrates just how susceptible even the most locked-down information systems are to a slick con artist

impersonating an IRS agent. Narrating from the points of view of both the attacker and the victims, he explains why each attack was so successful and how it could have been prevented in an engaging and highly readable style reminiscent of a true-crime novel. And, perhaps most importantly, Mitnick offers advice for preventing these types of social engineering hacks through security protocols, training programs, and manuals that address the human element of security.

Graced by Waters John Dietsch, Paul VanDevelder, 2020-04-28 In this inspirational and humorous collection of essays, author John Dietsch sees his addiction to and passion for

fishing as a parable that can help us shift from compulsive thinking to mindfulness and a closer connection to God. From creating fishing scenes on the set of *A River Runs Through It* in Montana, to directing fly fishing shows in New Zealand and from exploring deep canyons in California to guiding in Colorado, John shares his experiences and asks the question: what are we really fishing for? Through John's journeys across the globe, we discover that the same pursuit in fishing—of what is elusive but attainable—can be applied to our own spiritual journey. In the end, Dietsch uncovers his own truth under the rocks of a childhood river, recognizing the loss of both his brothers as the path of acceptance and faith that is graced by waters.

Save a Truck, Ride a Redneck Molly Harper, 2017-10-16 Molly Harper brings her signature “clever humor, snark, silliness, and endearing protagonists” (Booklist) to the charming small town of Lake Sackett, Georgia with the new Southern Eclectic series. Carl and Marianne were high school sweethearts, loving the way only teenagers can—with no thought to logic or pride, just a bone-headed, optimistic frenzy of unicorns and hormones. That was all they needed. Or so Carl thought. Scared of being stuck in Lake Sackett, Georgia, like so many of her friends—without a real shot at a future or achieving her own dreams—Marianne panicked and bolted to college after stomping Carl's heart into the high grass. But when she returns to Lake Sackett for the summer with her family after years away, she and Carl are drawn together like moths to a flame. As they rekindle their old romance and remember what it was like to be in love, they have to wonder: is this, finally, their real chance at happiness? Perfect for fans of Kristan Higgins and Amy E. Reichert, this warmhearted and witty love story introduces Molly Harper's new Southern Eclectic series
