**Henry Friendly, Greatest Judge of His Era** David M. Dorsen, 2012-03-27 Henry Friendly is frequently grouped with Oliver Wendell Holmes, Louis Brandeis, Benjamin Cardozo, and Learned Hand as the best American jurists of the twentieth century. In this first, comprehensive biography of Friendly, David M. Dorsen opens a unique window onto how a judge of this caliber thinks and decides cases, and how Friendly lived his life. During his time on the Court of Appeals for the Second Circuit (1959–1986), Judge Friendly was revered as a conservative who exemplified the tradition of judicial restraint. But he demonstrated remarkable creativity in circumventing precedent and formulating new rules in multiple areas of the law. *Henry Friendly, Greatest Judge of His Era* describes the inner workings of Friendly's chambers and his craftsmanship in writing opinions. His articles on habeas corpus, the Fourth Amendment, self-incrimination, and the reach of the state are still cited by the Supreme Court. Dorsen draws on extensive research, employing private memoranda between the judges and interviews with all fifty-one of Friendly's law clerks—a veritable Who's Who that includes Chief Justice John R. Roberts, Jr., six other federal judges, and seventeen professors at Harvard, Yale, Stanford, and elsewhere. In his Foreword, Judge Richard Posner writes: "David Dorsen has produced the most illuminating, the most useful, judicial biography that I have ever read . . . We learn more about the American judiciary at its best than we can learn from any other . . . Some of what I've learned has already induced me to make certain changes in my judicial practice."

*Officer Friendly and Other Stories* Lewis Robinson, 2010-11-30 The stories in this acclaimed debut all take place in the state of Maine—which quickly comes to stand for the state we're all in when we face the moments that change our lives forever. Two roughneck hockey players are kicked off the team and forced to join the drama club. A young bartender at a party of coastal aristocrats has to deal with the surreal request to put a rich old coot out of his misery. Can a father defend his family if the diver helping to free the tangled propeller of their boat turns out to be a real threat? With humor, a piercing eye, and a sense that danger often lies just around the corner, Robinson gives us a variety of vivid characters, wealthy and poor, delinquent and romantic, while illuminating the mythic, universal implications of so-called ordinary life. These stories are at once classic and modern; taken together, they bring the good news that an important, compassionate new voice in American fiction has arrived.

*Developing Age-Friendly Communities in the UK* Stephen J. Page, Joanne Connell, 2022-12-23 The ageing population is a global societal issue. Policymakers, planners and the public, third and private sectors must rethink how the built environment and services are delivered to meet the needs of a changing demographic. This is the first book to systematically review the evolution, development and progress of age-friendly thinking in the UK, with a primary focus on the real-world experiences of the people leading place-based initiatives. The book presents the findings of the first in-depth national study of age-friendly programme leaders in the UK, completed in 2021, and provides insights into the development of age-friendly communities, the formative influences from a social policy perspective, the management challenges and the progress towards achieving age-friendly goals. Using primary interview data and narrative analysis, the experiences of working with age-friendly programmes in different organisational forms are explored. The book promotes a greater understanding of what it means to become an age-friendly community in practice, how the programmes have different development pathways, and what influences different outcomes. Embellished with detailed narratives from practitioners, informative tables, and

diagrams and figures throughout, the book carefully gathers the voices of a diverse range of decision-makers and leaders associated with the age-friendly movement and provides unique insights on the drivers of change in specific localities. This is a must-read for anyone involved in ageing research or ageing policy and practice as it provides an insightful look into the real world of embedding this community development model in different localities to make a difference to the lives of older people. Topical themes include how these agendas connect with other issues, such as dementia-friendly programmes and the work of the third sector, as well as the growing challenge of what it means to be 'friendly' as a community and place and whether 'friendly' is becoming an over-used term in relation to place identity. The book has national and global interest for all communities engaged in age-friendly activity, offering exemplars of best practice, achievements in transforming local communities and views on the meaning of ageing, as well as the age-friendly lens as an approach that champions the world through the eyes of older people. It offers a thought-provoking read for anyone with an interest in this expanding area of ageing, irrespective of disciplinary focus.

**Reports of the Chief Registrar of Friendly Societies, for the Year Ending**

Registry of Friendly Societies (Great Britain), 1918

**Global Age-friendly Cities** World Health Organization, 2007

The guide is aimed primarily at urban planners, but older citizens can use it to monitor progress towards more age-friendly cities. At its heart is a checklist of age-friendly features. For example, an age-friendly city has sufficient public benches that are well-situated, well-maintained and safe, as well as sufficient public toilets that are clean, secure, accessible by people with disabilities and well-indicated. Other key features of an age-friendly city include: well-maintained and well-lit sidewalks; public buildings that are fully accessible to people with disabilities; city bus drivers who wait until older people are seated before starting off and priority seating on buses; enough reserved parking spots for people with disabilities; housing integrated in the community that accommodates changing needs and abilities as people grow older; friendly, personalized service and information instead of automated answering services; easy-to-read written information in plain language; public and

commercial services and stores in neighbourhoods close to where people live, rather than concentrated outside the city; and a civic culture that respects and includes older persons.

Child-friendly Justice Said Mahmoudi, Pernilla Leviner, Anna Kaldal, Katrin Lainpelto, 2015-06-25 In Child-friendly Justice, world-leading experts on children's rights analyse how the UN Convention on the Rights of the Child has strengthened children's status in civil, administrative and criminal justice systems.

**The Bird-Friendly City** Timothy Beatley, 2020-11-05 How does a bird experience a city? A backyard? A park? As the world has become more urban, noisier from increased traffic, and brighter from streetlights and office buildings, it has also become more dangerous for countless species of birds. Warblers become disoriented by nighttime lights and collide with buildings. Ground-feeding sparrows fall prey to feral cats. Hawks and other birds-of-prey are sickened by rat poison. These name just a few of the myriad hazards. How do our cities need to change in order to reduce the threats, often created unintentionally, that have resulted in nearly three billion birds lost in North America alone since the 1970s? In *The Bird-Friendly City*, Timothy Beatley, a longtime advocate for intertwining the built and natural environments, takes readers on a global tour of cities that are reinventing the status quo with birds in mind. Efforts span a fascinating breadth of approaches: public education, urban planning and design, habitat restoration, architecture, art, civil disobedience, and more. Beatley shares empowering examples, including: advocates for "catios," enclosed outdoor spaces that allow cats to enjoy backyards without being able to catch birds; a public relations campaign for vultures; and innovations in building design that balance aesthetics with preventing bird strikes. Through these changes and the others Beatley describes, it is possible to make our urban environments more welcoming to many bird species. Readers will come away motivated to implement and advocate for bird-friendly changes, with inspiring examples to draw from. Whether birds are migrating and need a temporary shelter or are taking up permanent residence in a backyard, when the environment is safer for birds, humans are happier as well.

*Allergy-Friendly Diabetic Dishes For Kids* HARMONY KITCHEN, 2024-02-29 Attention: Start with visually appealing dishes that draw in children. Have a look at this vibrant Rainbow Veggie Skewer Platter. Cucumber, bell pepper, and cherry tomato kebabs are visually appealing and a great source of many important elements. To pique people's interest and curiosity, draw attention to the vivid colours. Interest: Changing to the idea of Quinoa Pizza Bites. Use quinoa instead of regular pizza dough for a gluten-free alternative. Add dairy-free cheese, tomato sauce, and allergy-friendly toppings like chopped turkey or chicken on top. To keep attention, highlight the comforting familiarity of pizza in a healthy, bite-sized format. Desire: Inspire cravings for something sweet with Berry Parfait Delight. Arrange a bed of fresh berries, crushed almonds, or seeds on top of a layer of yoghurt free of allergens. Use low-sugar yoghurts to showcase the decadence of a dessert-like parfait while keeping it diabetes-friendly. Action Recommend a basic recipe for Zucchini Noodle Stir-Fry. As a basis, use spiralized zucchini stir-fried in low-sodium soy sauce with prawns or other lean protein. This adds a playful twist to a traditional dish while also satisfying a

hunger for noodles. To create a sense of participation and accomplishment, get parents and kids involved in cooking together. In conclusion, creating kid-friendly recipes that are both allergy- and diabetic-friendly requires ingenuity and consideration for dietary requirements. These recipes, which range from vibrant vegetable skewers to quinoa pizza pieces, berry parfaits and stir-fried zucchini noodles, are meant to draw in diners, hold their interest, pique their curiosity and inspire action. We can accommodate their dietary needs while making healthy meals fun for kids by introducing diversity and getting them involved in the cooking process.
