Animal Personalities Claudio Carere, Dario Maestripieri, 2013-03-07 Ask anyone who has owned a pet and they'll assure you that, yes, animals have personalities. And science is beginning to agree. Researchers have demonstrated that both domesticated and nondomesticated animals—from invertebrates to monkeys and apes—behave in consistently different ways, meeting the criteria for what many define as personality. But why the differences, and how are personalities shaped by genes and environment? How did they evolve? The essays in *Animal Personalities* reveal that there is much to learn from our furred and feathered friends. The study of animal personality is one of the fastest-growing areas of research in behavioral and evolutionary biology. Here Claudio Carere and Dario Maestripieri, along with a host of scholars from fields as diverse as ecology, genetics, endocrinology, neuroscience, and psychology, provide a comprehensive overview of the current research on animal personality. Grouped into thematic sections, chapters approach the topic with empirical and theoretical material and show that to fully understand why personality exists, we must consider the

evolutionary processes that give rise to personality, the ecological correlates of personality differences, and the physiological mechanisms underlying personality variation.

Raising a Young Modern-Day Princess Doreen

Hanna, Karen Whiting, 2016 Emulating the format of *Raising a Modern-Day Princess*, authors Doreen Hanna and Karen Whiting seek to help parents and grandparents cultivate strong relationships and encourage the spiritual formation in their daughters using examples, Bible teaching on the fruit of the Spirit, and a variety of creative activities that are based on Galatians 5:22-23, the fruit of the Spirit (love, joy, peace, patience, kindness, goodness, faithfulness, gentleness, and self-control). By implementing the ideas in this book, mothers (as well as fathers) will be equipped to understand and guide their daughters through each step of becoming His princess. This will include perceiving a daughter's unique personality and gifts, refining her character through training and discipline, and modeling the attributes of a daughter of the King. This book is a follow-up to both *Raising a Modern-Day Knight* (by Robert Lewis) and *Raising a Modern-Day Princess* by Pam Farrel and Doreen Hanna. While the latter book is aimed at parents of girls ages 12 and up, this book focuses on building the Christian character of younger girls.

And they will also have fun using this method to quickly recognize the unique and different spirit types within their fruity families,

flavorful friends, nutty neighbors, and assorted acquaintances. Current relationships can be repaired or enhanced while new dynamic ones created by using the book's simple decoding tools and straightforward relationship principles.

Aromatree Salvatore Battaglia,2019-09-04

Aromatherapy is one of the most popular forms of natural therapies available to us. What makes essential oils so exciting is that they are the only ‘plant-based remedies’ that work on all levels of our wellbeing — our physical, emotional, mental and spiritual wellbeing. As an aromatherapy educator, I often notice how frustrated people become when they have to learn the individual properties and actions of essential oils. The *aromatree* identifies the relationships that exist between the individual essential oils and the different parts of a plant such as leaves, roots, resin, wood, fruits, seed or flowers. In *Aromatree*, we examine the relationship and pattern between the botany of the plant, traditional folklore, symbolism, mythology of plants, aroma, chemistry, pharmacology, essential oil safety, our psyche, our personality, the chakras, the energetics according to traditional Chinese medicine and Ayurveda, and blending tips. *Aromatree* embraces all aspects of aromatherapy. Whether you are a beginner or a professional aromatherapist, you will gain an incredible insight into using essential oils.
