The Kota Sunshine Somerville,2017-05-04 A terrifying virus. A global tyranny. Humanity remembers no better life. It's time to give them one. Troy Kandoya wants nothing to do with his brother's Kota movement. But when the DRK virus threatens mankind and strange portals open in the sky, the Kota are the only people with answers. Troy becomes Trok, the immortal Kota Interceder, and he soon finds himself responsible for more than he ever imagined. After 500 years of war, genetic manipulation, viral plague, and the Dominion tyranny, Trok must unite four prophesied Kota Warriors destined to save Earth. But nothing about these heroes is what Trok expected. Loree is an assassin with the ability to

dematerialize. Zaak is forced to grow up on an alien planet. Alex is a telepath missing a year of her life. Ryu has incredible mutate-genes of strength. Together, the Warriors join Earth's rebels and use their abilities to fight the Dominion. But rebel politics are complicated. And always, the Dominion threatens its subjects with an unstoppable weapon – the dehumanizing DRK virus. For centuries, no one's been able to stop the Dominion and the DRK. Can four Warriors really make a difference?

The Songster of Javensbee J. Riccobono S. J. Riccobono,S. J. Riccobono,2009-12 The Songster of Javensbee is an exciting blend of galactic science fiction and off-earth fantasy. A non-corporeal civilization accidentally creates an entity that possesses their intellect and the awesome forces of nature. Unable to destroy their abomination, they empower a group they later name the Mist to repel a seemingly indestructible enemy. For mysterious reasons, the Mist are helpless to initiate the link that would stop this monster, Javensbee, from fomenting a galactic war and making overtures of love to the only female member of the group. She is helpless to resist his powers and is quickly pulled into his web of lies and deceit. As he plots his next move, the last hope falls upon a young scientist, who must somehow repair the damaged link and

free the inhabitants of the galaxy from this unwanted terror. Will he succeed in his mission or will they be doomed to a life of war and terror at the hands of Javensbee?

British Cinema and the Cold War Tony Shaw,2001 Shaw analyses key films of the period, including High Treason, which put a British McCarthyism on celluloid; the fascinatingly ambiguous science fiction thriller The Quatermass Experiment; the court-room drama based on the trial of Hungary's Cardinal Mindszenty, The Prisoner; the dystopic The Damned, made by one of Hollywood's blacklisted directors, Joseph Losey; and the CIA-funded, animated version of George Orwell's classic novel Animal Farm. The result is a deeply probing study of how Cold War issues were refracted through British films, compared with their imported American and East European counterparts, and how the British public received this 'war propaganda'.--BOOK JACKET.
