Passive Income Ideas Michael Cruz,2020-04-03 The concept of making money when you sleep has drawn a crowd to the pursuit of passive income. Theoretically, you put in some time and money in the start, then relax and let the money pour in when you focus on other things. This appears like a dream become a reality, but it's mostly only a dream. In today's workforce, relying on one income source is risky. Job protection is rarely guaranteed, and a little extra cash is useful always. By using your primary income source to cover basic expenses, you may use extra income streams to pay off debts, reduce your economic burden, or avoid going further into debt when you are able to pay for larger purchases up front rather than with a credit card or loan. Conversely, passive income is cash that continues to pay out following the initial work is done. Traditionally, income that were considered passive generally included money earned from investments in shares or profit acquired by a person who had invested in accommodations property but wasn't involved in the management or day-to-day functions of that property. This book covers: Passive Income Dropshipping Affiliate Marketing Blogging Dividend Stocks Merch By Amazon Programs Amazon Fba Ebook Online Courses Freelancing As A Virtual Assistant.....AND MORE!!! These are great ways to make passive income still, although they require a substantial investment right from the start. With the rise of the internet, the potential to develop passive income is around every corner if you know where to look, and you will get started with much smaller investments. Although you absolutely can drastically reduce the amount of time you may spend working throughout the full week, a passive income stream won't be quite passive fully. In order to ensure you possess a well-curved understanding of all aspects of your business, it is suggested to be as included as you can be in the start. You can then outsource whatever you don't want to do or that you aren't well-suited for to experts, or automate with software. Among the great perks of working online is that you can have got multiple businesses creating income for you without the trouble of owning or renting different buildings, hiring managers, personnel, maintenance, etc.; or trying to find and attract a person base in your area. Your online businesses could be available to anyone across the globe twenty-four hours a time, 3 hundred sixty-five days a full year. With outsourcing and automation, these tools can grow your client base and make you money any moment of day or night with minimal involvement on your own part. It's never too late to begin with building passive income, and you don't need to be a trained businessperson to begin with building your own business online. If you are ready to put in your time and effort to learn and improve as you move, you can build an effective business and passive income stream in addition to anyone. With an online business, you will be your own boss and work from you want anywhere. And the best part is that there is no cap on how much money you may make. With patience and persistence, you can perform the financial freedom we all fantasy of, and you can eventually reduce your functioning hours to less than those of a part-time job while still maintaining plenty of income. Want to start your journey to financial freedom? CLICK AND BUY NOW!!!

Investigating Internet Crimes Todd G. Shipley, Art Bowker, 2013-11-12 Written by experts on the frontlines, Investigating Internet Crimes provides seasoned and new investigators with the background and tools they need to investigate crime occurring in the online world. This invaluable guide provides step-by-step instructions for investigating Internet crimes, including locating, interpreting, understanding, collecting, and documenting online electronic evidence to benefit investigations. Cybercrime is the fastest growing area of crime as more criminals seek to exploit the speed, convenience and anonymity that the Internet provides to commit a diverse range of criminal activities. Today's online crime includes attacks against computer data and systems, identity theft, distribution of child pornography, penetration of online financial services, using social networks to commit crimes, and the deployment of viruses, botnets, and email scams such as phishing. Symantec's 2012 Norton Cybercrime Report stated that the world spent an estimated \$110 billion to combat cybercrime, an average of nearly \$200 per victim. Law enforcement agencies and corporate security officers around the world with the responsibility for enforcing, investigating and prosecuting cybercrime are overwhelmed, not only by the sheer number of crimes being committed but by a lack of adequate training material. This book provides that fundamental knowledge, including how to properly collect and document online evidence, trace IP addresses, and work undercover. Provides step-by-step instructions on how to investigate crimes online Covers how new software tools can assist in online investigations Discusses how to track down, interpret, and understand online electronic evidence to benefit investigations Details guidelines for collecting and documenting online evidence that can be presented in court
