Redoing Recess Great Games to Get Kids Moving B. J. G. Scruggs,2012-05 Dr. Brenda J. G. Scruggs is a retired educator of 36 years. She has worked as a teacher, lead teacher, assistant principal, elementary coordinator, program director, elementary principal, and educational consultant. She received her Master's Degree from the University of South Carolina in Columbia, SC, and her Ed. D. in Educational Leadership from Nova Southeastern University in Fort Lauderdale, FL. This book started as a Recess Activity Manual that was written as part of a project for one of my classes during the time I was in school. Having worked with children, I know all too well that if children don't have something to do, they will come up with something to do, and sometimes the things they do can lead to trouble. As an elementary school principal, I witnessed many recess or free play periods that ended up in children fighting or getting hurt in some way. It is my hope that this book will do two things for children: (1) get them moving, and (2) keep them out of trouble. I wholeheartedly agree with our First Lady Michelle Obama on the matter of children getting active. They need to get up and move, exercise, and eat right. Something as simple as walking around the school is good exercise, not only for the children but for the teachers too. As I wrote in the introduction, we all want our schools to promote the physical, intellectual, personal, and social well being of every child, and in promoting the physical this book will Redo Recess....and provide Great Games To Get Kids Moving, as well as help children to know what to do with themselves when they have recess or free play. Let's get kids moving.

The Infinite Game Simon Sinek,2019-10-15 From the New York Times bestselling author of *Start With Why* and *Leaders Eat Last*, a bold framework for leadership in

today's ever-changing world. How do we win a game that has no end? Finite games, like football or chess, have known players, fixed rules and a clear endpoint. The winners and losers are easily identified. Infinite games, games with no finish line, like business or politics, or life itself, have players who come and go. The rules of an infinite game are changeable while infinite games have no defined endpoint. There are no winners or losers—only ahead and behind. The question is, how do we play to succeed in the game we're in? In this revelatory new book, Simon Sinek offers a framework for leading with an infinite mindset. On one hand, none of us can resist the fleeting thrills of a promotion earned or a tournament won, yet these rewards fade quickly. In pursuit of a Just Cause, we will commit to a vision of a future world so appealing that we will build it week after week, month after month, year after year. Although we do not know the exact form this world will take, working toward it gives our work and our life meaning. Leaders who embrace an infinite mindset build stronger, more innovative, more inspiring organizations. Ultimately, they are the ones who lead us into the future.
