Grand Sara Schaefer,2021-05-25 When Sara Schaefer is in first grade, her father warns to always tell the truth because one lie leads to another and soon you will find yourself in a hole you can't escape. A few years later, the Schaefer family is completely upended when it's revealed that their grand life is based on a lie. Her parents become pariahs in their upper middle class community and go from non-religious people to devout church members. The idea of good and evil as binary, opposed forces is drilled into Sara and it becomes the perfect framework on which to build her anxiety and increasingly-obsessive thoughts. The year she turns forty, Sara decides to take each member of her family on a one-on-one vacation culminating with a whitewater rafting journey through the Grand Canyon with her younger sister. The only problem: Sara is she's terrified of rafting. As they embark on this once-in-a-lifetime adventure, Sara tows her grief, impostor syndrome, and gallon-size bottle of sunscreen through the Colorado River, resulting in an unlikely epiphany at the ends of the earth.--Back cover.

The Grand Food Bargain Kevin D. Walker,2019-03-26 When it comes to food, Americans seem to have a pretty great deal. Our grocery stores are overflowing with countless varieties of convenient products. But like most bargains that are too good to be true, the modern food system relies on an illusion. It depends on endless abundance, but the planet has its limits. So too does a healthcare system that must absorb rising rates of diabetes and obesity. So too do the workers who must labor harder and faster for less pay. Through beautifully-told stories from around the world, Kevin Walker reveals the unintended consequences of our myopic focus on quantity over quality. A trip to a Costa Rica plantation shows how the Cavendish banana became the most common fruit in the world and also one of the most vulnerable to disease. Walker's early career in agribusiness taught him how pressure to sell more and more fertilizer obscured what that growth did to waterways. His family farm illustrates how an unquestioning belief in "free markets" undercut opportunity in his hometown. By the end of the journey, we not only understand how the drive to produce ever more food became hardwired into the American psyche, but why shifting our mindset is essential. It starts, Walker argues, with remembering that what we eat affects the wider world. If each of us decides that bigger isn't always better, we can renegotiate the grand food bargain, one individual decision at a time.

Johnson shares these truths and more, offering profound meditations on family, race, freedom and creativity. A Distance Too Grand (American Wonders Collection Book #1) Regina Scott,2019-10-01 Meg Pero has been assisting her photographer father since she was big enough to carry his equipment, so when he dies she is determined to take over his profession--starting with fulfilling the contract he signed to serve on an Army survey of the North Rim of the Grand Canyon in 1871. What she doesn't realize is that the leader of the expedition is none other than the man she once refused to marry. Captain Ben Coleridge would like nothing more than to leave without the woman who broke his heart, but he refuses to wait even one more day to get started. This survey is a screen for another, more personal mission, one he cannot share with any member of his team. As dangers arise from all sides, including within the survey party, Meg and Ben must work together to stay alive, fulfill their duties, and, just maybe, rekindle a love that neither had completely left behind.
