Through The Heart Of The Jungle Jonathan Emmett,2003-03-01 A cumulative rhyme in which a fly is gobbled by a spider, which is then gulped by a frog, and so on until the king of beasts himself makes an appearance.

Through the Heart of the Jungle Jonathan Emmett,2003 This is the crocodile with the wide gaping jaws, that snapped at the toad with the big googly eye, that gulped down the spider, that gobbled the fly that buzzed through the heart of the jungle. Rhythmic lyrics and lush artwork are the cornerstones of this jungle themed progressive story about who started the chain of events that led to the flyand-- who buzzed through the heart of the jungleand-- getting gobbled up. This is an adventure where ancient cultures, and mysterious creatures are exhumed in the sweltering jungles of Africa.

The Monkey's Heart Anita Gupta, Jungle stories always fascinate the tiny tots. They not only offer the children wholesome entertainment, but also broaden their knowledge about nature and jungle

life. Keeping this in mind, Mind Melodies has come out with a set of eight story books on jungle life. To make them more attractive, the stories are enriched with beautiful illustrations.

A Jungle in My Heart Tim Kittleson, 2006-07 When Ann Miller is informed that her husband is MIA (missing in action), pressures from family and friends push her into a lonely life of constant mourning. Desperate to begin a new life, she decides to take a job as a reporter in a remote lake resort town. A dangerous adventure ensues when she encounters a violent group of people from her past that try to kill her. She meets on this deadly journey a man that has brought home with him the brutality and emotional scars from the same violent war. If a soldier is infected by memories from the jungles of Vietnam, can he escape back to a normal life or does he really want to? Will she prevail in her quest for happiness or will she ultimately be a victim of the evil forces trying to destroy her?

In the Heart of the Amazon Forest Henry Walter Bates, 2007-02-01 One of the most impressive of all Victorian scientists but also a marvellous writer, Bates' (1825-1892) account of his years in the upper reaches of the Amazon is almost too good to be true - a great monument to human inquisitiveness as he battles great hoards of malevolent reptiles and insects in his quest for ever more obscure specimens on ever more narrow and creeper-choked tributaries. *Great Journeys* allows readers to travel both around the planet and back through the centuries - but also back into ideas and worlds frightening, ruthless and cruel in different ways from our own. Few reading experiences can begin to match that of engaging with writers who saw astounding things: Great civilisations, walls of ice, violent and implacable jungles, deserts and mountains, multitudes of birds and flowers new to science. Reading these books is to see the world afresh, to rediscover a time when many cultures were quite strange to each other, where legends and stories were treated as facts and in which so much was still to be discovered.

From the Jungle to My Heart Sarah Wind, 2006-05-01 If you want a book that will haunt your thoughts and linger in your heart, don't miss this one! The average American is somewhat complacent about who the homeless are and who we, by our thoughts and actions, really are. Ultimately, *From the Jungle to My Heart* is an uplifting story about prayer and human rejection.

Deep Jungle Fred Pearce, 2010-10-31 DEEP JUNGLE is an exploration of the most alien and feared habitat on Earth. Starting with man's earliest recorded adventures, Fred Pearce journeys high into the canopy - home to two-thirds of all the creatures on our planet, many of whom never come down to earth. During his travels he encounters all manner of fantastic flora and fauna, including a frog that can glide from tree to tree, a spider that can drag live chickens into its burrow and a flower that smells of decaying flesh. It is in the jungle that Pearce discovers secrets about how evolution works, the intricate links that connect us all, and maybe even clues to where humans came from - here is the key to our future foods and medicines, our climate and our understanding of how life works. At the start of a new millennium Pearce asks why we continue to waste precious time - and billions of dollars - looking for signs of life elsewhere in our universe when the greatest range of life-forms that have ever existed lies right here on our doorstep. Today environmentalists say we are on the verge of destroying the last rainforests, and with them the planet's evolutionary crucible, and maybe even its ability to maintain life on Earth. But nature has a way of getting its own back. The Mayans and the people of Angkor went too far in manipulating nature and paid the ultimate price. Their civilisations died and the jungle returned. Nature reclaimed its own and it may do so again ...

In Africa's Forest and Jungle Richard Henry Stone, 2010 *In Africa's Forest and Jungle* is the memoir of Richard Henry Stone, a Civil War era Southern Baptist missionary, who served in what is now Nigeria during the late 1850s and again during the first years of the American Civil War. Stone

published this work in 1899, when it became clear that age would prevent him from returning to Africa. Stone served in Africa with his wife and successfully learned the Yoruba language. He was an intelligent, self-reflective, and reliable observer, making his works important sources of information on Yoruba society before the intervention of European colonialism. In Africa's Forest and Jungle is a rare account of West African culture, made all the more complete by the additional journal entries, letters, and photographs collected in this edition.
