John C. Rigdon

The Illustrated Dictionary of Hindu Iconography Margaret Stutley, 2019-04-09 Indian art, increasingly popular in the west, cannot be fully appreciated without some knowledge of the religious and philosophical background. This book, first published in 1985, covers all aspects of Hindu iconography, and explains that its roots lie far back in the style of prehistoric art. The dictionary demonstrates the rich profusion of cults, divinities, symbols, sects and philosophical views encompassed by the Hindu religious tradition.

Dictionary of Indian Palmistry Symbols Sulabh Jain, 2017-02-17 Over thousands of years, Hindu palmists have observed special symbols located on the hands of people. They learnt that the combination of a few lines in the form of these symbols could add more depth to a palm reading than simply reading each line one at a time. In other words, the sum of a few lines on a hand could give a greater meaning than each line could all by itself. These combinations of lines were given names and entered mainstream palmistry in India through its shastras (ancient texts). This style of palmistry was mostly practiced by monks, hermits, and other holy people. Over the course of time, the people who could interpret these symbols became fewer and fewer until a large number of the symbols became lost over a period of time. This book attempts to save the remaining symbols that are still known for future generations of palmists. This is the first book of its kind to catalogue and record the symbols of palmistry that are used in India. It is a vital reference for beginner palmists and an essential skill for the experts alike.

Simple Dictionary of Hinduism Sudhir Mittal, 2017-04-28 'Simple Dictionary of Hinduism' (Hindi to English) outshines many big time dictionaries in the market for several important reasons. Most significantly, here the Hindi words have been provided in the order of English Alphabets (that's really very easy to search a word now). This work comes as a vast treasure of ancient Hinduism vocabulary that even gives the English phonetics of each and every Hindi/Sanskrit letter. USP of This Dictionary: 1. Here Hindi words have been set in the order of English syllables. For searching a Hindi word's conversion you're no longer required to remember the typical order of Hindi vowels and consonants. That's really the best part of it. 2. English conversions for Hindi words/phrases have been chosen the same way the eminent and big time translators have in past. You can surely rely upon the 'GRAVITY' of the words provided here. 3. This dictionary is a wonderful literary treasure for both: Amateur and Eminent. Whosoever may think about translating Hinduism original text into English, this should be a perfect reference assistance. 4. This dictionary stands out for many special reasons, including, it does not encompass the general/ordinary words for the sake of focusing upon the core lexicon of Hinduism itself. Needless it is to mention that this dictionary is deep rooted in originality and therefore provides you the much sought after 'Sensitivity' with regard to every mythological word or term recorded in Hinduism text. No wonder that, over the times, it has been a peerless resource for mature and amateur spiritual writers, bloggers, translators, readers, students and literary agencies.

Sacred Hindu Symbols Gautam Chatterjee, Sanjoy Chatterjee, 1996 Hinduism is not merely a religion but a way of life. Hinduism, in its traverse of four thousand years, has accumulated many a belief and practice, which encompass the whole socio-religio-cultural life of a devout. Since the mythological past, Hinduism is studded with varied signs and symptoms, which are mystic in character and symbolic in nature, and are also sacred symbols of spiritualism as well. These symbols are the sacred rivers; mystic mantras like 'OM' and GAYATRI; the auspicious symbol of Swastika; the Shivalinga, Salagram Shila or sacred stone objects; Tripundra Tilaks or Urdhapundra Tilaks- the process of besmearing the body with different marks of sandal pastes; the sacred conch or Sankha and venerated trees which have medicinal value and spiritual ethos like Tulsi, Vata, Rudraksha, etc. All these are part of modern Hinduism but to many devouts and observers these symbols stand enigmatic! Thus this book attempts to explore and unearth the hidden philosophy of these signs and gauge the socio-scientific base and tries to find out the real meaning of ritualistic methodologies of these symbols, which are the great objects of veneration of the Hindus down the ages.

The Dictionary of Indus Symbols Rekha Rao,2018-10-07 This book is a new approach for creating a categorized understanding of Indus seal symbols. Two hundred and sixty-two symbols have been analyzed in this book along with their geometric constructions where applicable. Each symbol has a unique definition, the interpretation of which is such that they hold the meaning regardless of the seals they appear in. In addition, the research considers the sequence of symbols and its implications on the meaning of seals. This attempt at creating a dictionary for Indus seals based on Vedic rituals can be used to interpret many more seals. Several themes such as the purpose of making the seals, the class of people using them, and the geometrical perfections that were adopted while structuring some of the symbols have been analyzed. The book also studies the numerous variations in symbols and addresses why it is hard to find identical seals. The seals portrayed on a two-inch stone piece could have been for ease of handling, transportation and storage as reference documents for practitioners involved in Vedic rituals. It could also have served the purpose of avoiding mistakes during recitation and ritual procedures at a time when script was non-existent.

Essential English / Hindi Dictionary John C. Rigdon, 2017-03-01 Hindi is listed as the 4th most widely spoken language in the world. Of the 22 official languages and over 1,000 dialects of India, Hindi along with English is promoted by the government and viewed by over half the population as a link-language. Hindi is an Indo-European language spoken in India, Nepal, and by minorities in Fiji, United Arab Emirates, Trinidad, Suriname, South Africa, UK, USA and Australia. Hindi is written in the Devanagari script, shared with Nepali, Marathi and a number of other Indian languages. Devanagari is a form of alphabet called an abugida, as each consonant has an inherent vowel (a), that can be changed with the different vowel signs. Most consonants can be joined to one or two other consonants so that the inherent vowel is suppressed. The resulting form is called a ligature. Devanagari is written from left to right. Devanagari has no case distinction, i.e. no upper case letters. This dictionary contains 12,500 terms in English and Hindi with their transliteration equivalent in the Roman Alphabet. Terms are also identified according to their part of speech. We also publish a dictionary with definitions in Hindi (16,000 terms) and an unabridged English / Hindi Dictionary with 136,000 terms.
