Roger A. MacDonald

Hot Laps Steve Eubanks,2009-03-17 A brain-dead hayseed named Troy Slackherd's been caught red-handed trying to hijack an eighteen-wheeler filled with die-cast toy race cars. The culprit's the step-brother of pro-racing's most popular speed demon, Junior Senior Jr.—which means Redball's returning, against his will, to the 180 m.p.h. world of gas fumes, adrenaline, and treacherous curves. When the truckful of toys leads to a lockerful of cash—and to perfidy, porn, loser Louisiana wiseguys . . . and murder—Redball realizes he's back in the race for good or ill. And he'll have to keep moving . . . or die.

Hot Laps Shey Stahl,2014-04-26 It's not always about the win. Sometimes it's about the hot laps you learn from. He's rarely taken seriously ... she's never taken seriously. Casten Riley is living his life the way most kinds only dream. Working for the family business, he's never had much to worry about. And, if he did, he's not the type to worry. He's adorable as some would say, sharp, witty, and never shy. He's a ladies man just looking for fun. Casten has the kind of heart that make you feel more than you ever thought possible ... just by being him. And then a girl happens. That's when Hayden Harris, a new employee at CST Engines, comes crashing into his life. The two are introduced and immediately find ways to tease each other. She's full of spark, humor, and is the only girl who can make him blush. Hayden and Casten quickly become friends and find their attraction for each other is anything but playful. Casten won't admit Hayden has a hold on him and Hayden doesn't want to admit Casten Riley has pegged her red line. But the sparks that are generated by their connection is not what these two are expecting.

Hot Lap Leslie Scott,2019-03-06 Starting a new life isn't easy when the skeletons locked in her closet are the notorious town drunk for a father and a haunted past. But, Hadley Morgan isn't one to shy away from second chances or giving them either. When a young, single father wrapped up in an octane fueled package takes particular interest in her, she begins to dream. But well-known drag racer Aiden Casey is also her boss, making her hesitate to grab at her chance at happiness. Will her secrets shatter their chance at love or will his past come back to destroy both of them?

Sunday Money Jeff MacGregor,2009-10-13 NASCAR racing, once considered no more than a regional circuit of moonshiners pounding around low-country dirt tracks in a cloud of red dust and cliché, has somehow become America's fastest-growing spectator sport. With 75 million ardent fans, it is a sports entertainment empire built at the very crossroads of pop culture, corporate commerce, and American mythology -- a platinum-plated, V-8 hero machine. Smart, funny, and profane, Sunday Money is the kaleidoscopic account of a season on the NASCAR circuit. Driving 48,000 miles in a tiny motor home, Jeff MacGregor and his wife tracked the lives of superstar drivers like Junior Earnhardt and Tony Stewart, their crews, and their fans across the grinding reach of a 40-week season. More than just a behind-the-scenes chronicle of America's loudest pastime, Sunday Money is the story of a hundred stories, of red states and blue, of splendid Rebels and Yankee hotshoes. It is a brilliant snapshot of American culture -- of race, religion, class, sex, money, and fame -- taken from the window of a moving car.

Richard Petty Tim Bongard,Robert Coulter,2000-08 What were the first cars Richard Petty drove? Was his number always 43? When did he start painting the cars Petty Blue? How did Petty Enterprises end up with Pontiac? The list goes on and on. The more the authors researched, the more they realized that large portions of the King's career are obscure, a mystery to the legions of stock car racing fans and modelers who have discovered the sport in recent years. All this information and more is included for the die-hard race fan or modeler.

Spokane Hot Rodding John Gunsaulis,2015-04-13 Spokane, located just 20 miles from the Idaho border, is the largest city in Eastern Washington, and during the 1940s, it became a center point of an evolving postwar hot rod community. Auto sports were expanding at this time from stock car and midget racing to street cars and drag racing. Local car enthusiasts joined together with an influx of military personnel and college students who were just as passionate for hot rodding, and it was during this time that the Spokane hot rodding culture started flourishing. Together, they pushed the boundaries of hot rodding and created lifelong bonds in the process. This book explores that evolution

of inland northwest hot rodding from the mid-1940s to the mid-1960s, starting with the jalopy-styled hot rods that began popping up on local streets to the formation of new clubs and organized racing.

The Early Laps of Stock Car Racing Betty Boles Ellison, 2014-09-08 The first organized, sanctioned American stock car race took place in 1908 on a road course around Briarcliff, New York--staged by one of America's early speed maven, William K. Vanderbilt, Jr. A veteran of the early Ormond-Daytona Beach speed trials, Vanderbilt brought the Grand Prize races to Savannah, Georgia, the same year. What began as a rich man's sport eventually became the working man's sport, finding a home in the South with the infusion of moonshiners and their souped-up cars. Based in large part on statements of drivers, car owners and others garnered from archived newspaper articles, this history details the development of stock car racing into a megasport, chronicling each season through 1974. It examines the National Association for Stock Car Automobile Racing's 1948 incorporation documents and how they differ from the agreements adopted at NASCAR's organization meeting two months earlier. The meeting's participants soon realized that their sport was actually owned by William H.G. Bill France, and its consequential growth turned his family into billionaires. The book traces the transition from dirt to asphalt to superspeedways, the painfully slow advance of safety measures and the shadowy economics of the sport.

Stock Car Driving Techniques Don Alexander, Whether the reader wants to know how their NASCAR heroes achieve their superspeedway feats or how to get the most of their own cars at the local track on Friday nights, this illustrated guide provides the answers. Topics like positioning, drafting, passing, cornering, proper lines and pit strategies are illustrated with color photos and specially commissioned illustrations. Also featured are comments from top NASCAR drivers Jeff Gordon, Dale Jarrett, Ricky Rudd, Terry Labonte and Jeff Burton. A must-have guide for armchair fans as well as burgeoning local-track stars.

How Did I Ever Survive the 70's Clayton Matthews, 2020-12-06 Humorous personal essays detailing a teenaged boy's coming of age in the 1970s, an era defined by sexual liberation and drug experimentation. Clayton Matthews, if that's his real name, was a child of the '70s. He smoked pot, drove fast cars, and chased women. In this hilarious collection of essays detailing his misspent youth, Matthews looks back at a decade where bell bottoms, free love and LSD were all the rage. A self-proclaimed hippie from a small Midwestern town, Matthews's no-holds-barred account of everything from sexual exploits to acid trips will have readers young and old relishing a time when the counterculture of the '60s had become the mainstream of the 70s, and sex, drugs and rock and roll were a way of life.

Broken Time Gerald Giroldi, 2004 Japan. A clandestine romance suddenly exposed. Wes must again survive Vietnam. While searching for Janie, he is injured in a stock car race. Only Janie's love can save him.

Cobra Jet: The History of Ford's Greatest High-Performance Muscle Cars Rob Kinnan,Diego Rosenberg,2020-03-15 Relive Ford's glory days in the muscle car era in this stunning new volume covering the popular and powerful Cobra Jets! Ford's "Total Performance" racing program in the early 1960s was the first stone turned in the task of repurposing its image to the youth market. The introduction of the Mustang increased that exponentially, but even in 289 Hi-Po form it was no match for the Pontiac GTO or other muscle cars. Neither was the 1966 Fairlane GT or subsequent 390 Mustang the following year. But when the 428 Cobra Jet Mustang debuted at Pomona for the NHRA Winternationals in 1968, that image evolved from wholesome to fearsome! Cobra Jet Mustangs downed all comers and took the vaunted Super Stock Eliminator crown while introducing a new weapon under the hood to serve as fair warning to what was to be uncoiled at the stoplight. By the next model year with the revolutionary shaker hood on Cobra Jet-equipped Mach 1s and the striking snake adorning the sheet metal of the midsize Cobra, Ford's image makeover was complete. The demise of the muscle car era didn't signify the end of the Cobra Jet, as Ford continued the performance reign with the 351 Cobra Jet. The legacy left by Mustang, Cougar, Torino, Cyclone, and Ranchero 428, 429, and 351 Cobra Jet-powered vehicles is indelible. Mustang Monthly editor Rob Kinnan and muscle car expert Diego Rosenberg bring this history back to life in an all-encompassing book that is the first to specifically feature all Cobra Jet cars, including the purpose-built drag cars of today! Cobra Jet: The History of Ford's Greatest High Performance Cars will hypnotize you as the first and complete history of Ford's most famous engines during the era's peak.
