Cocktails on Tap Jacob Grier, 2015-03-24 The next great ingredient in the craft cocktail revolution has arrived: craft beer. Bartender and cocktail consultant Jacob Grier offers up more than fifty thirst-quenching concoctions featuring beer. Long considered a beverage best enjoyed on its own, beer has now become a favorite ingredient for top bartenders around the world. In *Cocktails on Tap*, Grier collects the best of these contemporary creations alongside forgotten classics. While the Mai Ta-IPA adds a refreshing note to a tropical favorite, the Green Devil boosts a powerful Belgian beer with gin and a rinse of absinthe. In *Cocktails on Tap*, the vast range of today's beers, from basic lagers to roasty stouts and sour Belgian ales, is shaken up for mixologists looking to add some spice—and hop—to their repertoire. “Grier is a masterful guide through the wickedly creative terrain of beer cocktails, offering not just delightful recipes, but history and cultural commentary, too. Connoisseurs and neophytes alike will find much to savor, and the latter will appreciate Jacob's tutelage in cocktail basics. Grab a copy and start mixing!” —Maureen Ogle, author of *Ambitious Brew: The Story of American Beer* “Jacob Grier was at the forefront of the beer cocktail renaissance before many of us had ever contemplated the idea of a beer cocktail. His vast knowledge of beer and passionate dedication to this area of mixology is certain to push the craft of cocktails forward in a positive new direction.” —Jeffrey Morgenthaler, author of *The Bar Book*

A Life Less Ordinary John Hodge, 1997 He's a down-on-his-luck janitor with aspirations of writing the great American trash novel. She's the spoiled, sharp-tongued boss's daughter, always looking for a creative way to spice up her boring life. Normally, these two would never meet, but a higher power has different plans for both of them. The major motion picture from 20th Century Fox starring Ewan McGregor, Cameron Diaz and Holly Hunter hits the box office in October.

Connections, Curvature, and Cohomology Werner Hildbert Greub, Stephen Halperin, Ray Vanstone, 1972 This monograph developed out of the Abendseminar of 1958-1959 at the University of Zürich. The purpose of this monograph is to develop the de Rham cohomology theory, and to apply it to obtain topological invariants of smooth manifolds and fibre bundles. It also addresses the purely algebraic theory of the operation of a Lie algebra in a graded differential algebra.

Gender Ideologies and Military Labor Markets in the U.S. Saskia Stachowitsch, 2013-03 *Gender Ideologies and Military Labor Markets in the U.S.* offers a comprehensive analysis of the relationship between changes in military gender ideologies and structural changes in U.S. military and society. By investigating how social and military change have influenced gender ideologies, the author develops an approach that (re-)connects military gender ideologies to the social conditions of their production and distribution and explains their transformation as effects of changing social and political relations and conflicts. Examining the role of different groups of social actors, media debates on women's military participation and gender ideologies inherent in depictions of military women, the author seeks to contextualise these ideologies are within structural change in the U.S. military and society, relating them to the gender-specific division of labour on civilian and military labor markets. This work provides a deeper understanding of the nexus between military re-structuring processes, women's military integration, and changes of gender ideologies in regard to war and the military, and will be of great interest to students and scholars of gender, security studies and American politics.
