Jelena Bogdanović

Icon Design Steve Caplin,2001 Though design for computer applications is a relatively new phenomenon, the boom in the home computer marketplace means that this is now the fastest-growing area of design. While providing boundless creative opportunities for the graphic designer, the challenge of designing interface icons - the symbols that represent applications, documents, functionality, and any other facet of the software that gives it a graphic identity - has often been underestimated. icon design offers practical, comprehensible, jargon-free advice for designing cutting-edge icons, and includes an inspirational showcase of contemporary icon designs.

Mother of the Lamb Matthew J. Milliner,2022-10-04 Mother of the Lamb tells the remarkable story of a Byzantine image that emerged from the losing side of the Crusades. Called the Virgin of the Passion in the East and Our Lady of Perpetual Help in the West, the icon has expanded beyond its Byzantine origins to become one of the most pervasive images of our time. It boasts multiple major shrines on nearly every continent and is reflected in every epoch of art history since its origin, even making an appearance at the Olympics in 2012. Matthew Milliner first chronicles the story of the icon's creation and emergence in the immediate aftermath of the Third Crusade, whereupon the icon became a surprising emblem of defeat, its own fame expanding in inverse proportion to Christendom's political contraction. Originally born as a Christian response to the Christian violence of the Crusades, it marked the moment when Mary's ministry of suffering love truly began. Having traced the icon's origin and ubiquity, Milliner teases out the painting's theological depth, and continues the story of the icon's evolution and significance from its origins to the present day. As the story of the icon moves well beyond Byzantine art history, both temporally and thematically, it engages religion, politics, contemporary art, and feminist concerns at once. Always, though, the icon exemplifies dignity in suffering, a lesson that--through this image--Byzantium bequeathed to the wider world. Encapsulating eleven centuries of development of the mourning Mary in Byzantium, the Virgin of the Passion emerges as a commendable icon of humility, a perennial watchword signaling the perils of imagined political glory. The Virgin of the Passion, emblemizing political humility, the powerful agency of women, and the value of inter-Christian and extra-Christian concord, is an exemplary Marian image for the fledgling twenty-first century.

A Purdue Icon James L. Mullins,2019-07-15 The former Purdue Power Plant (HPN) with its iconic smoke stack and the attached Engineering Administration Building (ENAD) at the very heart

of campus played important roles for most of the twentieth century. To many Purdue students and alumni, the smoke stack not only symbolized the emphasis at Purdue on technology but also provided a visible marker for the Purdue campus. The smoke stack was lovingly referred to by many as \Purdue's finger to the world.\ Amid controversy, the smoke stack was demolished in the early 1990s when the Purdue Clock Tower was constructed to locate the campus on the landscape. A Purdue Icon: Creation, Life, and Legacy is an edited volume that speaks to the history of the Power Plant, from the initial need for increased power and heat to meet a growing campus demand and its Romanesque architecture that allowed it to fit contextually on the campus, to the people who worked to bring heat and power to the campus by keeping the boilers up and the students who experienced the principles and applications of mechanical engineering through active learning. This book tells the story of the transition to alternative power and heat sources at the University, the decommissioning of the Power Plant, the controversy about what was to be done with this important site at the heart of the campus, and the challenges associated with the Power Plant's potential reuse or demolition. The unique problems faced with demolishing a contaminated building in the middle of a major research university campus are insightfully explored before introducing the Thomas S. and Harvey D. Wilmeth Active Learning Center-a potential new Purdue icon.

Living in an Icon Robert Gottfried, Frederick W. Krueger, 2019-08-17 Helps bridge the gap between love of God and love of nature. Many people experience God most strongly in nature but do not know how to incorporate this experience into their spiritual life. Others question whether Christianity has room for nature at all and seek alternatives elsewhere, often leaving Christianity entirely. This book addresses this crucial issue by providing a resource for fostering a closer relationship with God and creation. With a step-by-step approach, this book provides a framework integrating asceticism with the contemplation of nature. Each chapter contains a "take it home" section for applying the lessons learned outdoors to everyday life, connecting God and nature as seamless components of spirituality. Topics include gratitude, delight, appreciation, wonder, discernment, reverence, mortality, love, beauty, humility, silence, and hope.

The Icon Painter's Handbook Ian Knowles, 2023-06-01 This handbook is an in depth introduction to the theory and practice of Byzantine icon painting in egg tempera. The aim is to help all students aspire to create icons that are both sound theologically while being aesthetically beautiful. This volume focuses on the Face of Christ, especially in the Mandolin icon, and covers all the basics of icon painting. Subsequent volumes are planned which will look at the figure and the Kyykotissa icon, the design of festal icons, backgrounds and buildings . This handbook uses dozens of precisely chosen, clear illustrations, gives precise recipes for colours and mixtures, provides step by step instructions to follow, and links directly to video demonstrations which show some of the most difficult processes close up. It puts the practical aspects of icon painting in a clear historical and theological framework, introducing the application of the timeless principles on which the aesthetics of icon painting are built. As art for the Church's Liturgy, icon painting calls for the highest aesthetic standards and this book aims to help make that achievable for the average committed student. Icon painting is presented here as a vocation, rather than a hobby or an interesting artistic technique though this handbook will be of interest to anyone drawn to the world of the Byzantine liturgy and its icons. By encouraging students to do more than simply copy good examples from the past but to understand how the medieval Christian artist understood what he or she was doing and how they put that into practice, this handbook brings the world of the Byzantine artist back to life. Icon painting is opened up as a living art form for today's Church. The author, who has theology degrees from Oxford University and Heythrop College in London, has many years of icon teaching experience, founding the Bethlehem Icon School in 2010 at the Emmanuel Greek Catholic Monastery in Bethlehem, where he continues to teach from time to time. This handbook began as handouts for his students on the Prince's School of Traditional Arts icon painting course, while that was being run at the Bethlehem Icon Centre in Palestine, and has finally emerged as a companion to the online Academy Course in Icon Painting and for members of the Arbor Vitae Icon Academy which the author established during the Covid pandemic.

Icon Painting Technique Mary Jane Miller,2013-06-03 Mary Jane Miller discusses her Icon Painting technique, the history and meaning of icon painting. The How to book orients icon painters and examines why icons continue to be a spiritual tool. From a uniquely Western perspective, this step-by-step study of art and teaching of a practical course in Icon Painting technique. The religion and spirituality of this technique brings to life the sacred and beautiful art of egg tempera painting. Included are egg tempera recipe guides and patterns to work from. Beginners, intermediate, and advanced iconographers will all find new insights. With in-depth information, invaluable advice, and superb illustrations of each step, this is a most comprehensive guide to the philosophy and practice of icon painting. In addition, this Icon Painting technique book can be read as a step-by-step guide of how to create your own icon. The 12-step sequence put forth here is a guideline or road map for the process from vision to creation. However, while easy to follow detailed instructions about technique and materials are provided, my main objective is to emphasize the mystical experience of the process itself, bringing the the Icon Painting technique to a better understanding of the two natures of Christ - flesh and spirit. The Splendour of Creation Levon Nersesjan,1998

God's Human Face Christoph Schoenborn,2011-03-30 The principal editor of the Catechism of the Catholic Church, presents the sources of meditation on the mystery of God's human face from the great Masters of early Christianity. Artists and theologians have meditated upon the mystery of God's human countenance and tried to express it. This book seeks to present the great sources of this meditation--sources which today are widely unknown, or have become foreign or obscure. These sources are above all the great masters of early Christianity. In their meditation upon Christ, Bishop Schonborn seeks the sources of the art on the Icon. The reader will find not only an engaging introduction to the meaning and beauty of Icons, but an invitation to draw closer to the One who inspired these Masters of theological expression and holy art. Includes beautiful color Icon illustrations.

Just Begin Dann E. Wigner,2018-10-17 - Spiritual practices for beginners and practitioners all in one volume - Spurs people of faith to deeper self-awareness, holistic living, and prayer Just Begin is an indispensable reference tool for the interested spiritual practitioner who wants to add new methods and exercises to their mystical toolbox. In simple terms, basic steps, and encouraging

language, Dr. Wigner introduces readers to more than 40 different practices from Eastern and Western traditions, encompassing everything from mindfulness to music, yoga to the Lord's Prayer. In each short description, the focus is to just begin to practice and experiment, grow, and develop spiritually on the way. No one can take a journey without taking the first step, and Dr. Wigner provides the first steps for multiple practices in various religious traditions. These spiritual exercises will help spur people of faith to deeper self-awareness, holistic living, and prayer. The book's sections are organized around types of practices: Meditating, Listening, Being, Sensing, and Embodying, with a final section: Doing. Each chapter forms a short three to five page introduction to a mystical practice, consisting of segments on definition, background, how to practice, resources for further study, journal prompts and discussion questions, and common problems that sometimes get in the way of one's practice.

Nefertiti's Face Joyce Tyldesley, 2018-04-09 Little is known about Nefertiti, the Egyptian queen whose name means "a beautiful woman has come." She was the wife of Akhenaten, the pharaoh who ushered in the dramatic Amarna Age, and she bore him at least six children. She played a prominent role in political and religious affairs, but after Akhenaten's death she apparently vanished and was soon forgotten. Yet Nefertiti remains one of the most famous and enigmatic women who ever lived. Her instantly recognizable face adorns a variety of modern artifacts, from expensive jewelry to cheap postcards, t-shirts, and bags, all over the world. She has appeared on page, stage, screen, and opera. In Britain, one woman has spent hundreds of thousands of pounds on plastic surgery in hope of resembling the long-dead royal. This enduring obsession is the result of just one object: the lovely and mysterious Nefertiti bust, created by the sculptor Thutmose and housed in Berlin's Neues Museum since before World War II. In *Nefertiti's Face*, Egyptologist Joyce Tyldesley tells the story of the bust, from its origins in a busy workshop of the late Bronze Age to its rediscovery and controversial removal to Europe in 1912 and its present status as one of the world's most treasured artifacts. This wide-ranging history takes us from the temples and tombs of ancient Egypt to wartime Berlin and engages the latest in Pharaonic scholarship. Tyldesley sheds light on both Nefertiti's life and her improbable afterlife, in which she became famous simply for being famous.

Icons of Space Jelena Bogdanović, 2021-07-26 *Icons of Space: Advances in Hierotopy* brings together important scholars of Byzantine religion, art, and architecture, to honour the work of renowned art historian Alexei Lidov. As well as his numerous publications, Lidov is well known for developing the concept of hierotopy, an innovative approach for studying the creation of sacred spaces. Hierotopy and the related concepts of 'spatial icons' and 'image-paradigms' emphasize fundamental questions about icons, including what defines them as structures, spaces, and experiences. Chapters in this volume engage with the overarching theme of icons of space by employing, contrasting, and complementing methods of hierotopy with more traditional approaches such as iconography. Examinations of icons have traditionally been positioned within strictly historical, theological, socio-economic, political, and art history domains, but this volume poses epistemological questions about the creation of sacred spaces that are instead inclusive of multi-layered iconic ideas and the lived experiences of the creators and beholders of such spaces. This book contributes to image theory and theories of architecture and sacred space. Simultaneously, it moves beyond colonial studies that predominantly focus on questions of religion and politics as expressions of privileged knowledge and power. This book will appeal to scholars and students of Byzantine history, as well as those interested in hierotopy and art history.
