The Official Identity Theft Prevention Handbook Denis G. Kelly, 2011 What is America's top-rank crime concern? Identity theft. According to a 2009 Gallup Crime survey, 66 percent of U.S. adults say they worry "frequently" or "occasionally" about being a victim of identity theft. Why is the percentage of adults concerned with identity theft more than three times greater than the percentage concerned with "being sexually assaulted" or "getting murdered"? Similar to the identity theft crime itself, there is not a simple answer. Identity theft is a perfect storm: it affects many people, everyone is a potential target, there are substantial negative consequences, few truly understand the crime, and trusted sources disseminate information and products that can mislead, not help, the victim. It is comparable to driving your car without a door (and having no other options). You feel exposed, vulnerable and you know the consequences of a side impact are devastating; yet, you have no other option. The reality is you do have options to protect yourself, and The Official Identity Theft Prevention Handbook is here to teach you them. The Official Identity Theft Prevention Handbook is the first book to analyze identity theft in its proper context and provide takeaways to minimize the likelihood that you will be harmed by identity theft and to mitigate the negative consequences in the event that you've become a victim. Identity theft continues to proliferate, and it is tearing the fabric of our society. All understand it is important, but compelling people to take appropriate action is a challenge. The Official Identity Theft Prevention Handbook provides a tremendous first step towards individual and societal responsibility. We can swing the pendulum in the other direction. In the case of identity theft, the best defense is a good offense.

*Stealing Your Life* Frank W. Abagnale, 2008-05-13 The charismatic forger immortalized in *Catch Me If You Can* exposes the astonishing tactics of today's identity theft criminals and offers powerful strategies to thwart them based on his second career as an acclaimed fraud-fighting consultant. When Frank Abagnale trains law enforcement officers around the country about identity theft, he asks officers for their names and addresses and nothing more. In a matter of hours he can obtain everything he would need to steal their lives: Social Security numbers, dates of birth, current salaries, checking account numbers, the names of everyone in their families, and more. This illustrates how easy it is for anyone from anywhere in the world to assume our identities and in a matter of hours devastate our lives in ways that can take years to recover from. Considering that a fresh victim is hit every four seconds, *Stealing Your Life* is the reference everyone needs by an unsurpassed authority on the latest identity theft schemes. Consider these sobering facts: • Six out of ten American companies and government agencies have already been hacked. • An estimated 80 percent of birth certificate requests are fulfilled through the mail for people using only a name and a return address. • Americans write 39 billion checks a year, and half of them never reconcile their bank statements. • A Social Security number costs \$49 on the black market. A driver's license goes for \$90. A birth certificate will set you back \$79. Abagnale offers dozens of concrete steps to transform anyone from an easy mark into a hard case that criminals are likely to bypass: • Don't allow your kids to use the computer on which you do online banking and store financial records (children are apt to download games and attachments that host damaging viruses or attract spyware). • Beware of offers that appeal to greed or fear in exchange for personal data. • Monitor your credit report regularly and know if anyone's been "knocking on your door." • Read privacy statements carefully and choose to opt out of sharing information whenever possible. Brimming with anecdotes of creative criminality that are as entertaining as they are enlightening, *Stealing Your Life* is the practical way to shield yourself from one of today's most nefarious and common crimes.
