The Perfect Thing Steven Levy, 2006-10-23 On October 23, 2001, Apple Computer, a company known for its chic, cutting-edge technology -- if not necessarily for its dominant market share -- launched a product with an enticing promise: You can carry an entire music collection in your pocket. It was called the iPod. What happened next exceeded the company's wildest dreams. Over 50 million people have inserted the device's distinctive white buds into their ears, and the iPod has become a global obsession. The Perfect Thing is the definitive account, from design and marketing to startling impact, of Apple's iPod, the signature device of our young century. Besides being one of the

most successful consumer products in decades, the iPod has changed our behavior and even our society. It has transformed Apple from a computer company into a consumer electronics giant. It has remolded the music business, altering not only the means of distribution but even the ways in which people enjoy and think about music. Its ubiquity and its universally acknowledged coolness have made it a symbol for the digital age itself, with commentators remarking on the iPod generation. Now the iPod is beginning to transform the broadcast industry, too, as podcasting becomes a way to access radio and television programming. Meanwhile millions of Podheads obsess about their gizmo, reveling in the personal soundtrack it offers them, basking in the social cachet it lends them, even wondering whether the device itself has its own musical preferences. Steven Levy, the chief technology correspondent for Newsweek magazine and a longtime Apple watcher, is the ideal writer to tell the iPod's tale. He has had access to all the key players in the iPod story, including Steve Jobs, Apple's charismatic cofounder and CEO, whom Levy has known for over twenty years. Detailing for the first time the complete story of the creation of the iPod, Levy explains why Apple succeeded brilliantly with its version of the MP3 player when other companies didn't get it right, and how Jobs was able to convince the bosses at the big record labels to license their music for Apple's groundbreaking iTunes Store. (We even learn why the iPod is white.) Besides his inside view of Apple, Levy draws on his experiences covering Napster and attending Supreme Court arguments on copyright (as well as his own travels on the iPod's click wheel) to address all of the fascinating issues -- technical, legal, social, and musical -- that the iPod raises. Borrowing one of the definitive qualities of the iPod itself, *The Perfect Thing* shuffles the book format. Each chapter of this book was written to stand on its own, a deeply researched, wittily observed take on a different aspect of the iPod. The sequence of the chapters in the book has been shuffled in

different copies, with only the opening and concluding sections excepted. Shuffle is a hallmark of the digital age -- and The Perfect Thing, via sharp, insightful reporting, is the perfect guide to the deceptively diminutive gadget embodying our era.

The iPod Book Scott Kelby, 2009-11-15 Are you looking for a book that focuses on just the most important and most useful stuff about your iPod (including the iPod touch, nano, classic, shuffle, and the iTunes Store)? Well, this is it! There are basically two kinds of iPod books: (1) The "tell-me-all-about-it" kind, which include in-depth discussions on compression algorithms and tutorials on how to export your playlist in Unicode format. (2)

Then there's this book—a "show-me-how-to-do-it" book. Scott shows you step by step how to do the things people really want to learn about their iPods, and he uses the same casual, conversational style that has made him the world's #1 best-selling technology author. This book focuses on just the most important, most requested, most useful things so you can start having fun with your iPod today. Right now! Plus, there's only one topic per page, so if you want to know how to do something, you turn to that page and it shows you how to do just that one thing. It's a simple approach, and people really love learning this way!
