**Paper Belt on Fire** Michael Gibson, 2022-11-29

Written by a successful venture capitalist (and university dropout), this book is part memoir, part guide for the next generation of innovators who seek an alternative to the traditional path in higher education. “Part adventure tale, part manifesto, *Paper Belt on Fire* is a battle cry for anyone who ever dreamed of wresting power back from corrupt institutions—or of nailing the truth to the cathedral door.” —Peter Thiel, author of *Zero to One* *Paper Belt on Fire* is the unlikely account of how two outsiders with no experience in finance—a charter school principal and defrocked philosopher—start a venture capital fund to short the higher education bubble. Against the contempt of the education establishment, they discover, mentor, and back the leading lights in the next generation of dropout innovators and in the end make their investors millions. Can such a madcap strategy help renew American creativity? Who would do such a thing? This story is the behind-the-scenes romp of one team that threw educational authorities into a panic. It fuses real-life personal drama with history, science, and philosophy to show how higher education and other institutions must evolve to meet the dire challenges of tomorrow.

*Brave Journeys* David B. Mixner,Dennis Bailey,2000 In

Stranger Among Friends, renowned activist, political adviser, and White House insider David Mixner offered a compelling account of his decades-long fight for human rights and the challenges he faced as a gay man in Washington. Now, in this new book written with collaborator Dennis Bailey, Mixner presents moving, candid, and inspiring portraits of other extraordinary men and women engaged in the struggle for equality. *Brave Journeys: Profiles in Gay and Lesbian Courage* From a top-gun pilot in the U.S. Navy to an authority on antigay violence, from a member of the president's administration to a leading Shakespearean actor, *Brave Journeys* tells the stirring stories of seven intrepid men and women who effectively challenged the status quo and thereby altered the political and societal landscape of the world we live in. In these pages we meet Hispanic-American Dianne Hardy-Garcia, executive director of the Lesbian and Gay Rights Lobby of Texas and a passionate crusader against hate crimes; Elaine Noble, the feisty veteran of Boston's busing wars who became the first openly gay person to be elected to a state office in the United States-the Massachusetts State Legislature; brilliant British actor Sir Ian McKellen, who came out as a gay man and an activist in one very public moment on the BBC; Roberta Achtenberg, who braved the venomous homophobia of Jesse Helms in Senate confirmation hearings for her appointment to the Department of Housing and Urban Development; Lieutenant Tracy Thorne, a Navy fighter pilot living his lifelong dream of flight who outed himself on Nightline to challenge the U.S. military's policy against gays and lesbians, fully aware that this would mean the end of his Navy career; and San Franciscans Del Martin and Phyllis Lyon, founders of the first national lesbian organization, the Daughters of Bilitis, who have celebrated fifty years

together as a couple. Powerful and eloquent, *Brave Journeys* is David Mixner's tribute to gay men and lesbians who have made a difference. Rich in private bravery and public risk, these profiles comprise a vivid map of the gay rights movement over the last fifty years-and individually they testify to the power of courage to force change against profoundly overwhelming odds.
