Translation and Literature in East Asia Jieun Kiaer, Jennifer Guest, Xiaofan Amy Li, 2019-05-07 Translation and Literature in East Asia: Between Visibility and Invisibility explores the issues involved in translation between Chinese, Japanese and Korean, as well as from these languages into European languages, with an eye to comparing the cultures of translation within East Asia and tracking some of their complex interrelationships. This book reasserts the need for a paradigm shift in translation theory that looks beyond European languages and furthers existing work in this field by encompassing a wider range of literature and scholarship in East Asia. Translation and Literature in East Asia brings together material dedicated to the theory and practice of translation between and from East Asian languages for the first time.

Translating Japanese Texts Kirsten Refsing, Lita Lundquist, 2009 Intended for both students and teachers of translation, and professional translators, this book offers an introduction to problems of and strategies for translating Japanese texts. It focuses on Japanese and English and attempts to highlight differences between these two languages.

Divided Languages? Judit Árokay, Jadranka Gvozdanović, Darja Miyajima, 2014-01-21 The present volume is a collection of papers presented at the international conference “Linguistic Awareness and Dissolution of Diglossia” held in July 2011 at Heidelberg University. The aim is to reevaluate and compare the processes of dissolution of diglossia in East Asian and in European languages, especially in Japanese, Chinese and in Slavic languages in the framework of the asymmetries in the emergence of modern written languages. Specialists from China, Japan, Great Britain, Germany and the U.S. contributed to the volume by introducing their research focusing on aspects of the dissolution of diglossic situations and the role of translation in the process. The first group of texts focuses on the linguistic concept of diglossia and the different processes of its dissolution, while the second investigates the perception of linguistic varieties in historical and transcultural perspectives. The third and final group analyses the changing cultural role and function of translations and their effect on newly developing literary languages.

Translation and Translation Studies in the Japanese Context Nana Sato-Rossberg, 2012-08-09 Japan is often regarded as a 'culture of translation'. Oral and written translation has played a vital role in Japan over the centuries and led to a formidable body of thinking and research. This is rooted in a context about which little information has been available outside of Japan in the past. The chapters examine the current state of translation studies as an academic discipline in Japan and a range of historical aspects (for example, translation of Chinese vernacular novels in early modern times, the role of translation in Japan's modernization, changes in stylistic norms in Meiji-period translations, 'thick translation' of indigenous Ainu place names), as well as creative aspects of translation in modern and postwar Japan. Other chapters explore contemporary phenomena such as the intralingual translation of Japanese expressions embedded in English texts emanating from diasporic contexts, the practice of pre-translation or writing for an international audience from the outset, the innovative practice of reverse localization of Japanese video games back into Japanese, and community interpreting practices and research.

Translating the West Douglas R. Howland, 2001-09-30 In this rich and absorbing analysis of the transformation of political thought in nineteenth-century Japan, Douglas Howland examines the transmission to Japan of key concepts--liberty, rights, sovereignty, and society--from Western Europe and the United States. Because Western political concepts did not translate well into their language, Japanese had to invent terminology to engage Western political thought. This work of westernization served to structure historical agency as Japanese leaders undertook the creation of a modern state. Where scholars have previously treated the introduction of Western political thought to Japan as a simple migration of ideas from one culture to another, Howland undertakes an unprecedented integration of the history of political concepts and the semiotics of translation techniques. He demonstrates that Japanese efforts to translate the West must be understood as problems both of language and action--as the creation and circulation of new concepts and the usage of these new concepts in debates about the programs and policies to be implemented in a westernizing Japan. Translating the West will interest scholars of East Asian studies and translation studies and historians of political thought, liberalism, and modernity.

A Cultural History of Translation in Early Modern Japan Rebekah Clements, 2015-03-05 The translation of texts has played a formative role in Japan's history of cultural exchange as well as the development of literature, and indigenous legal and religious systems. This is the first book of its kind, however, to offer a comprehensive survey of the role of translation in Japan during the Tokugawa period, 1600–1868. By examining a wide range of translations into Japanese from Chinese, Dutch and other European texts, as well as the translation of classical Japanese into the vernacular, Rebekah Clements reveals the circles of intellectual and political exchange that existed in early modern Japan, arguing that, contrary to popular belief, Japan's 'translation' culture did not begin in the Meiji period. Examining the 'crisis translation' of military texts in response to international threats to security in the nineteenth century, Clements also offers fresh insights into the overthrow of the Tokugawa shogunate in 1868.

Transnationalism and Translation in Modern Chinese, English, French and Japanese Literatures Ryan Johnson, 2020-12-15 The theory of “literary worlds” has become increasingly important in comparative and world literatures. But how are the often-contradictory elements of Eastern and Western literatures to cohere in the new worlds such contact creates? Drawing on the latest work in philosophical logic and analytic Asian philosophy, this monograph proposes a new model of literary worlds that is best suited to comparative literature dealing with Western and East Asian traditions. Unlike much discussion of world literature anchored in North American traditions, featured here is the transnational work of artists, philosophers, and poets writing in English, French, Japanese and Mandarin in the twentieth century. Rather than imposing sharp borders, this book suggests that vague boundaries link Eastern and Western literary works and traditions, and that degrees of distance can better help us to see the multiple dimensions that both distinguish and join together literary worlds East and West. As such, it enables us to grasp not only how East Asian and Western writers translate one another's works into their own languages and traditions, but also how modern writers East and West modify their own traditions in order to make them fit in the new constellation of literary worlds brought about by the complex flow of literary information across twentieth-century Eurasia.

A Catalogue of the Chinese Translation of the Buddhist Tripitaka Bunyiu Nanjio, 2017-11 Excerpt from A Catalogue of the Chinese Translation of the Buddhist

Tripitaka: The Sacred Canon of the Buddhists in China and Japan This is a complete Catalogue of the Chinese Translation of the Buddhist Tripitaka, the Sacred Canon of the Buddhists in China and Japan. It contains not only the titles of 1662 different works (of which 342, however, are miscellaneous works), but also the names of the authors and translators, together with their dates. The arrangement and classification of these works are the same as in the original Chinese Catalogue, i. E. N o. 1662. Notes taken from various sources are added under each title with their full references. A list of the principal authorities consulted by me will be found on p. Xxxii. Though I gladly and gratefully acknowledge the assistance received from my predecessors, there still remain such difficulties as were pointed out by the Rev. J. Summers in his Descriptive Catalogue of the Chinese, Japanese, and Manchu books in the Library of the India Office, 1872 (p. Iv), when he says 'the title of a [chinese] book is often untranslatable; the author's name is frequently out of sight, and has to be sought for in some obscure corner or work; the date of the publication is alike often doubtful, and in the case of Buddhist Literature the identification of the Chinese title with the Sanskrit original is sufficiently troublesom This quotation will to a certain extent explain the imperfection of my own work, for which I have to crave the indulgence of those who may use it. My principal object in making this compilation has been to show the original, though it may be not quite scientific, arrangement Of this great Collection of our Sacred Canon, made in China under the Min dynasty, A. D. 1368 - 1644. A copy of the Japanese edition of this Chinese Collection, published in Japan in A. D. 1678 - 1681, is now in the Library of the India Office in London. 'it is this copy of the Sacred Books, ' says the Rev. S. Beal, that (in 1874) I requested His Excellency Iwakura Tomomi to procure for the India Ofiice Library. In 1875 the entire Tripitaka was received at the India Office, in fulfilment of the promise made by the Japanese Immediately after this, Mr. Beal prepared a Catalogue of the books for practical purposes which was completed in June 1876, within the time of six months 3. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. The Jury and Democracy John Gastil,E. Pierre Deess,Philip J. Weiser,Cindy Simmons,2010-11-10 Alexis de Tocqueville, John Stuart Mill, and the U.S. Supreme Court have all alleged that jury service promotes civic and political engagement, yet none could prove it. Finally, The Jury and Democracy provides compelling systematic evidence to support this view. Drawing from in-depth interviews, thousands of juror surveys, and court and voting records from across the United States, the authors show that serving on a jury can trigger changes in how citizens view themselves, their peers, and their government--and can even significantly increase electoral turnout among infrequent voters. Jury service also sparks long-term shifts in media use, political action, and community involvement. In an era when involved Americans are searching for ways to inspire their fellow citizens, The Jury and Democracy offers a plausible and realistic path for turning passive spectators into active political participants.

Japanese for Sinologists Joshua A. Fogel,Fumiko Joo,2017-07-18 This textbook, the first of its kind, is aimed at helping students of Chinese history and culture acquire a great ability at reading Japanese. After an introduction, several charts, and guide to dictionaries, it presents eight chapters--each with a brief introduction, the Japanese text, and an extensive, layered vocabulary list. All chapters are taken from ordinary Japanese resources, but all of the authors are known to be extraordinary scholars. The final appendix provides full translations of all the essays. The principal audience is students who have completed two or three years of classroom Japanese language instruction and want to jump into China-related materials. Although best used in a classroom with a teacher, especially assiduous students may be able to use it on their own.--Provided by publisher.

Translating China Xuanmin Luo,Yuanjian He,2009 The book is a collection of essays on translating various types of text (literary, religious, political, etc.) into and from Chinese. The focus is on how such translations have been produced and propagated from ancient to modern times, and their sociocultural impact on the evolution of Chinese history and Chinese translatology.

Translation and Cultural Change Eva Hung,2005-01-01 History tells us that translation plays a part in the development of all cultures. Historical cases also show us repeatedly that translated works which had real social and cultural impact often bear little resemblance to the idealized concept of a 'good translation'. Since the perception and reception of translated works □ as well as the translation norms which are established through contest and/or consensus □ reflect the concerns, preferences and aspirations of their host cultures, they are never static or homogenous even within a given culture. This book is dedicated to exploring some of the factors in the interplay of culture and translation, with an emphasis on translation activities outside the Anglo-European tradition, particularly in China and Japan.

Translating the Occupation Jonathan Henshaw,Craig A. Smith,Norman Smith,2021-02-15 From 1931 to 1945, Chinese citizens were subjugated to Japanese imperialism. Despite the enduring historical importance of the occupation, Translating the Occupation is the first English-language volume to provide such a diverse selection of important primary sources from this period. Contributors have translated Chinese, Japanese, and Korean texts on a wide range of subjects, focusing on writers who have long been considered problematic or outright traitorous. This volume offers a practical, accessible sourcebook from which to challenge standard narratives. It deepens our understanding of the myriad tensions and transformations at work in Chinese wartime society.

Shaping the Field of Translation In Japanese ↔ Turkish Contexts II Ryō Miyashita ,Esin ESEN,2019-05-31 The academic discipline of translation studies is only half a century old and even younger in the field of bilateral translation between Japanese and Turkish. This book is the second volume of the world's first academic book on Turkish↔Japanese translation. While this volume gathered discussions on translation studies with theoretic and applied aspects, literature, linguistics, and philosophy, the second volume deals with the history of translation, philosophy, culture education, language education, and law. It also covers the translation of historical materials and divan poetry. These books will be the first steps to discuss and develop various aspects of the field. Such compilation brings together experienced and young Turkology and Japanology scholars as well as academics linked to translation studies and translation, and also translators. Both volumes contain 24 essays

written by twenty-two writers from Japan, Turkey, USA and China. Special notes by Özlem BERK ALBACHTEN, Special notes by Nobuo MISAWA, Ryō MIYASHITA, Esin ESEN, Shingo YAMASHITA, Gülzemin ÖZRENK AYDIN, Iku NAGASHIMA, İbrahim Soner ÖZDEMİR, Sinan LEVENT, Barış KAHRAMAN, DeryaAKKUŞ SAKAUE, Yukiko KONDO, Okan Haluk AKBAY, Ayatemis DEPÇİ

Attitudes to English Study among Japanese, Chinese and Korean Women Yoko Kobayashi,2020-11-05 This edited book comprises chapters integrated around a central theme on college-educated Japanese, Korean, and Chinese women’s orientation to English study. The collection is composed of two parts: (1) East Asian women’s motivation to study in the West and (2) East Asian women’s dream to use English as a career. The first part discusses their international migration as facilitated by factors characteristic of East Asian nations (e.g. middle-class women’s access to advanced education and yet unequal access to professional career) and other factors inherent in each nation (e.g. different social evaluations of women equipped with competitive overseas degrees and English proficiency). The second part sheds light on the dreams and realities of East Asian female adults who, having been avid English learners, aim for dream jobs (e.g. interpreters) or have few other career choices but to be re-trained as English specialists or even as Japanese language teachers working abroad. This collection is suitable for any scholar interested in the lives and voices of young educated women who strive to empower themselves with language skills in the seemingly promising neoliberal world that is, however, riddled with ideological contradictions.

The Japanese Translations of the Hebrew Bible Doron B. Cohen,2013-01-15 The Japanese Translations of the Hebrew Bible: History, Inventory and Analysis tells the story of the translation of the Bible into Japanese against the background of the transplanting of Christianity in Japan. It includes a detailed inventory of Old Testament translations, with linguistic and theological analyses of choice verses.

China and Its Others James St. André,Hsiao-yen Peng,2012-01 This volume brings together some of the latest research by scholars from the UK, Taiwan, and Hong Kong to examine a variety of issues relating to the history of translation between China and Europe, aimed at increasing dialogue between Chinese studies and translation studies. Covering the nineteenth century to the present, the essays tackle a number of important issues, including the role of relay translation, hybridity and transculturation, methods for the incorporation of foreign words and concepts, the problems entailed by the importation of foreign paradigms and epistemes, the role of public institutions, the issue of agency, and the role of metaphors to conceptualize translation. By examining the dissemination of certain key terms from the West to the East, often through pivotal languages, and by laying bare the transformation of knowledge conveyed through these terms, the essays go well beyond the “difference and similarity” comparison model in the investigation of East-West relations, demonstrating that transcultural hybridity is a more meaningful topic to pursue. Moreover, they demonstrate how the translator, always working simultaneously under several domestic and foreign institutions, needs to resort to “selection, deletion and compromise”, in other words personal free choice, when negotiating among institutional powers.
