**Kids at Work** Emir Estrada,2019-07-16 How Latinx kids and their undocumented parents struggle in the informal street food economy Street food markets have become wildly popular in Los Angeles—and behind the scenes, Latinx children have been instrumental in making these small informal businesses grow. In *Kids at Work*, Emir Estrada shines a light on the surprising labor of these young workers, providing the first ethnography on the participation of Latinx children in street vending. Drawing on dozens of interviews with children and their undocumented parents, as well as three years spent on the streets shadowing families at work, Estrada brings attention to the unique set of hardships Latinx youth experience in this occupation. She also highlights how these hardships can serve to cement family bonds, develop empathy towards parents, encourage hard work, and support children—and their parents—in their efforts to make a living together in the United States. *Kids at Work* provides a compassionate, up-close portrait of Latinx children, detailing the complexities and nuances of family relations when children help generate income for the household as they peddle the streets of LA alongside their immigrant parents.

Understanding Children as Consumers David Marshall, 2010-04-19 What drives children as consumers? How do advertising campaigns and branding effect children and young people? How do children themselves understand and evaluate these influences? Whether fashion, toys, food, branding, money - from TV adverts and the supermarket aisle, to the internet and peer trends, there is a growing presence of marketing forces directed at and influencing children and young people. How should these forces be understood, and what means of research or dialogue is required to assess them? With critical insight, the contributors to this collection, take up the evaluation of the child as an active consumer, and offer a valuable rethinking of the discussions and literature on the subject. Features: • 14 original chapters from leading researchers in the field • Each chapter contains vignettes or case examples to reinforce learning • Contains consideration of future research directions in each of the topics that the chapters cover. This book will be relevant reading for postgraduates and advanced undergraduates with an interest in children as consumers, consumer behaviour and on marketing courses in general as well as for researchers working in this field.

**Dads, Kids, and Fitness** William Marsiglio, 2016-10-31 Now more than ever, American dads act as hands-on caregivers who are devoted to keeping themselves and their families healthy. Yet, men are also disproportionately likely to neglect their own health care, diets, and exercise routines—bad habits that they risk passing on to their children. In *Dads, Kids, and Fitness*, William Marsiglio challenges dads to become more health-conscious in how they live and raise their children. His conclusions are drawn not only from his revealing interviews with a diverse sample of dads and pediatric healthcare professionals, but also from his own unique personal experiences—as a teenage father who, thirty-one years later, became a later-life dad to a second son. Marsiglio's research highlights the value of treating dads as central players in what he calls the social health matrix, which can serve both healthy children and those with special needs. He also outlines how schools, healthcare facilities, religious groups, and other organizations can help dads make a positive imprint on their families' health, fitness, and well-being. Anchored in compelling life stories of joy, tragedy, and resilience, *Dads, Kids, and Fitness* extends and deepens public conversation about health at a pivotal historical moment. Its progressive

message breathes new life into discussions about fathering, manhood, and health.

**Gaming Empire in Children's British Board Games, 1836-1860** Megan A. Norcia, 2019-03-25 Over a century before Monopoly invited child players to bankrupt one another with merry ruthlessness, a lively and profitable board game industry thrived in Britain from the 1750s onward, thanks to publishers like John Wallis, John Betts, and William Spooner. As part of the new wave of materials catering to the developing mass market of child consumers, the games steadily acquainted future upper- and middle-class empire builders (even the royal family themselves) with the strategies of imperial rule: cultivating, trading, engaging in conflict, displaying, and competing. In their parlors, these players learned the techniques of successful colonial management by playing games such as Spooner's A Voyage of Discovery, or Betts' A Tour of the British Colonies and Foreign Possessions. These games shaped ideologies about nation, race, and imperial duty, challenging the portrait of Britons as absent-minded imperialists. Considered on a continuum with children's geography primers and adventure tales, these games offer a new way to historicize the Victorians, Britain, and Empire itself. The archival research conducted here illustrates the changing disciplinary landscape of children's literature/culture studies, as well as nineteenth-century imperial studies, by situating the games at the intersection of material and literary culture.

Reading Between The Lines (The Rosewoods, #4) Katrina Abbott, 2014-07-16 Brooklyn Prescott is starting to settle into life at The Rosewood School for Academic Excellence. Now that the masquerade ball is over and was a total success (whew!), she can return to her non-party planning life! She's dating Jared officially now that he's returned from Japan, and he's even asked her to read his memoir of his life as a child actor, a great honor for Brooklyn, the wannabe journalist. But just as things seem like they're sliding into place, Emmie breaks up with Dave, who is suddenly showing interest in Brooklyn. More confused than ever, Brooklyn doesn't know what to do—stay with the great guy who is obviously into her, or take a chance with the one she's been crushing on since her first day on campus and risk alienating her friend and roommate? And what about Coach Fleming, who she has to resist every single day at equestrian practice? One kiss starts the ball rolling and a second changes everything, causing a chain of events Brooklyn never could have imagined. As the holidays approach, Brooklyn needs to figure out who and what she is most thankful for. But then who she really is catches up with her and turkey dinners and horse shows are nothing compared to suddenly being faced with a life or death situation. **Why Children Need Joy** Ben Kingston-Hughes,2023-12-13 This transformative book looks at one of the most undervalued aspects of childhood, joy. Using the latest neuroscience and biochemistry this book shows that joy, far from being an abstract concept, is one of the key motivators for every aspect of learning and development throughout childhood and something we ignore at our peril. The book gives concrete strategies for increasing the levels of joy in our children and highlights the catastrophic damage that a decline in joy can cause in our children especially in a post pandemic world. Suitable for anyone who works with children, this book puts forward a compelling argument that Joy is profoundly important for all of our children and can fundamentally help our children to thrive. Warning - may contain evil clowns!

**Overcoming Autism** Lynn Kern Koegel, Ph.D.,Claire LaZebnik,2014-03-25 There have been huge advances in our ability to diagnose autism and in the development of effective interventions that can change children's lives. In this extraordinary book, Lynn Kern Koegel, a leading clinician, researcher, and cofounder of the renowned Autism Research Center at the University of California at Santa Barbara, combines her cutting-edge expertise with the everyday perspectives of Claire LaZebnik, a writer whose experience with a son with autism provides a rare window into the disorder. Together, they draw on the highly effective "pivotal response" approach developed at the center to provide concrete ways of improving the symptoms of autism and the emotional struggles that surround it, while reminding readers never to lose sight of the humor that lurks in the disability's quirkiness or the importance of enjoying your child. From the shock of diagnosis to the step-by-step work with verbal communication, social interaction, self-stimulation, meltdowns, fears, and more, the answers are here-in a book that is as warm and nurturing as it is authoritative.
