*Removing Labels, Grades K-12* Dominique Smith, Douglas Fisher, Nancy Frey, 2021-01-19 Disrupting the cycle starts with you. No matter how conscientious we are, we carry implicit bias... which quickly turns into assumptions and then labels. Labels define our interactions with and expectations of students. Labels contribute to student identity and agency. And labels can have a negative effect beyond the classroom. It's crucial, then, that teachers remove labels and focus on students' strengths—but this takes real work at an individual, classroom, and schoolwide scale. *Removing Labels* urges you to take an active approach toward disrupting the negative effects of labels and assumptions that interfere with student learning. This book offers: 40 practical, replicable teaching techniques—all based in research and best practice—that focus on building relationships, restructuring classroom engagement and management, and understanding the power of social and emotional learning Suggestions for actions on an individual, classroom, and schoolwide level Ready-to-go tools and student-facing printables to use in planning and instruction *Removing Labels* is more than a collection of teaching strategies—it's a commitment to providing truly responsive education that serves all children. When you and your colleagues take action to prevent negative labels from taking hold, the whole community benefits.

Major Labels Kelefa Sanneh, 2022-10-04 One of Oprah Daily's 20 Favorite Books of 2021 • Selected as one of Pitchfork's Best Music Books of the Year “One of the best books of its kind in decades.” —The Wall Street Journal An epic achievement and a huge delight, the entire history of popular music over the past fifty years refracted through the big genres that have defined and dominated it: rock, R&B, country, punk, hip-

hop, dance music, and pop Kelefa Sanneh, one of the essential voices of our time on music and culture, has made a deep study of how popular music unites and divides us, charting the way genres become communities. In *Major Labels*, Sanneh distills a career's worth of knowledge about music and musicians into a brilliant and omnivorous reckoning with popular music—as an art form (actually, a bunch of art forms), as a cultural and economic force, and as a tool that we use to build our identities. He explains the history of slow jams, the genius of Shania Twain, and why rappers are always getting in trouble. Sanneh shows how these genres have been defined by the tension between mainstream and outsider, between authenticity and phoniness, between good and bad, right and wrong. Throughout, race is a powerful touchstone: just as there have always been Black audiences and white audiences, with more or less overlap depending on the moment, there has been Black music and white music, constantly mixing and separating. Sanneh debunks cherished myths, reappraises beloved heroes, and upends familiar ideas of musical greatness, arguing that sometimes, the best popular music isn't transcendent. Songs express our grudges as well as our hopes, and they are motivated by greed as well as idealism; music is a powerful tool for human connection, but also for human antagonism. This is a book about the music everyone loves, the music everyone hates, and the decades-long argument over which is which. The opposite of a modest proposal, *Major Labels* pays in full.

Labels Dominik Bartmański,2019 The music industry is dominated today by three companies. Outside

of it, thousands of small independent record labels have developed despite the fact that digitalization made record sales barely profitable. How can those outsiders not only survive, but thrive within mass music markets? What makes them meaningful, and to whom? Dominik Bartmanski and Ian Woodward show how labels act as taste-makers and scene-markers that not only curate music, but project cultural values which challenge the mainstream capitalist music industry. Focusing mostly on labels that entered independent electronic music after 2000, the authors reconstruct their aesthetics and ethics. The book draws on multiple interviews with labels such as Ostgut Ton in Berlin, Argot in Chicago, 100% Silk in Los Angeles, Ninja Tune in London, and Goma Gringa in Sao Paulo. Written by the authors of *Vinyl*, this book is essential reading for anyone with an interest in the contemporary recording industry, independent music, material culture, anthropology, sociology, and cultural studies

**Ethnic Labels, Latino Lives** Suzanne Oboler, 1995 *Hispanic or Latino? Mexican American or Chicano?* Social labels often take on a life of their own beyond the control of those who coin them or to whom they are applied. In *Ethnic Labels, Latino Lives* Suzanne Oboler explores the history and current use of the label Hispanic, as she illustrates the complex meanings that ethnicity has acquired in shaping our lives and identities. Exploding the myth of cultural and national homogeneity among Latin Americans, Oboler interviews members of diverse groups who have traditionally been labelled Hispanic, and records the many different meanings and social values which they attribute to this label. She also discusses the historical process of labelling groups of individuals and shows how labels affect the meaning of citizenship and the struggle for full social participation in the United States. Ultimately, she rejects the labelling process

altogether, having illustrated how labels can obstruct social justice, and vary widely in meaning from individual to individual. Though we have witnessed in recent years the fading of the idealized image of US society as a melting pot, we have also realized that the possibility of recasting it in multicultural terms is problematic. *Ethnic Labels*, *Latino Lives* aims to understand the role that ethnic labels play in our society and brings us closer towards actualizing a society which values cultural diversity.
