## **Start Your Own Online Coupon or Daily Deal**

**Business** Rich Mintzer,/ Entrepreneur

magazine,2013-09-17 The online coupon and daily deal industries are booming as people from all socio-economic groups are seeking deals and discounts in these trying economic times. The experts at Entrepreneur deliver the startup details behind this hot opportunity and show eager entrepreneurs how to cash-in on internet-savvy savers.Unlike old-school design your own coupon book titles, this book moves straight into computer technology and proceeds to the latest trend in couponing . . . apps, which provide deals to mobile users in any location. Many daily deal businesses do not work to enhance the experience for their merchants. Readers, however, can learn how to do so. Experts in the industry are also included such as Marc Horne, co-creator of Daily Deal Builder, who discusses what it takes to build a daily deal site, David Teichner, CEO of Yowza!! who brought deal apps to iPhones and several business owners who have tried their luck at running daily deal. They discuss what they have learned from the process.Currently there are few, if any, other books on how to start a daily deal business and the coupon books focus on how to use coupons and even on extreme couponing, but not on running an online coupon business. This is a unique title which provides those who enjoy offering deals and discounts to get started in an industry that is still growing.

**Buying Retail is Stupid!** Trisha King,Deborah Newmark,Barbara Jacobs,1998 Offering valuable

information on all aspects of discount shopping-- outlets, mail order, resale and thrift stores, auctions, and more--this book includes a directory of consumer resource guides plus special discount coupons for additional savings.

*Discount Voting* Michael J. Hanmer, 2009-08-17 In the US, there is wide variation from state to state in the institutional arrangements - for example, registration laws - that structure the environment in which citizens decide whether to vote and parties decide whom to mobilize. This has important consequences for who gets elected and the policies they enact. In this book Michael Hanmer argues that to understand how these institutional arrangements affect outcomes, it is necessary to consider the interactions between social and political context and these laws. He tests this theory by examining how the factors that influence the adoption of a set of registration laws affect turnout, the composition of the electorate, and party strategies. His multi-method research design demonstrates that the effect of registration laws is not as profound as either reformers would hope or previous studies suggest, especially when reform is a response to federal legislation. He concludes by arguing for a shift in the approach to increasing turnout.

*Coupon Crazy* Mary Potter Kenyon, 2013-06-18 A fascinating history of this marketing tactic, and why some shoppers take it to extremes—from a longtime expert couponer. *Coupon Crazy* examines the phenomenon of avid coupon use and the socio-cultural and socioeconomic factors that construct it. By delving into the history of couponing, refunding, the science of shopping, and the dark underbelly of a coupon world the average American doesn't even know about, Mary Potter Kenyon manages to both fascinate and educate. Readers

will meet today's "Coupon Queens" (and Kings) and learn about an era when trash really was cash. Not just an observer of this ethnographic research, Mary lived it for over thirty years. "My favorite aspect of the entire book was the candid tone Kenyon takes in sharing her story and others. As someone that both uses coupons and teaches couponing practices, I found the book triggering self-reflection at many points: Do I purchase products just because they are on sale? Do I devalue products I've gotten for free? Do I allow coupons to inform my purchases or the other way around? If you are a couponer, it's quite possible you'll find yourself reflecting on your own shopping habits as you read this book, too."
