Each character is presented in a very simple and clear way. A step-by-step diagram shows how to write the character, and boxes are provided for freehand writing practice. The meaning and pronunciation are given along with the key vocabulary compounds and an example sentence. Review exercises reinforce the learning process and an index at the back allow you to look up the characters according to their English meanings or romanized Hanyu Pinyin pronunciation. Key features of this Chinese workbook include: Designed for HSK Level 1 and AP exam prep Learn the 178 most basic Chinese characters Example sentences and over 534 vocabulary items Step-by-step writing diagrams and practice boxes

**Hacking Chinese** Olle Linge, 2016-03-26 Learning Chinese can be frustrating and difficult, partly because it's very different from European languages.

Following a teacher, textbook or language course is not enough. They show you the characters, words and grammar you need to become proficient in Chinese, but they don't teach you how to learn them! Regardless of what program you're in (if any), you need to take responsibility for your own learning. If you don't, you will miss many important things that aren't included in the course you're taking. If you study on your own, you need to be even more aware of what you need to do, what you're doing at the moment and the difference between them. Here are some of the questions I have asked and have since been asked many times by students: How do I learn characters efficiently? How do I get the most out of my course or teacher? Which are the best learning tools and resources? How can I become fluent in Mandarin? How can I improve my pronunciation? How do I learn successfully on my own? How can I motivate myself to study more? How can I fit learning Chinese into a busy schedule? The answers I've found to these questions and many others form the core of this book. It took eight years of learning, researching, teaching and writing to figure these things out. Not everybody has the time to do that! I can't go back in time and help myself learn in a better way, but I can help you! This book is meant for normal students and independent language learners alike. While it covers all major areas of learning, you won't learn Chinese just by reading this book. It's like when someone on TV teaches you how to cook: you won't get to eat the delicious dish just by watching the program; you have to do the cooking yourself. That's true for this book as well. When you apply

what you learn, it will boost your learning, making every hour you spend count for more, but you still have to do the learning yourself. This is what a few readers have said about the book: The book had me nodding at a heap of things I'd learnt the hard way, wishing I knew them when I started, as well as highlighting areas that I'm currently missing in my study. - Geoff van der Meer, VP engineering This publication is like a bible for anyone serious about Chinese proficiency. It's easy for anyone to read and written with scientific precision. - Zachary Danz, foreign teacher, children's theatre artist About me I started learning Chinese when I was 23 (that's more than eight years ago now) and have since studied in many different situations, including serious immersion programs abroad, high-intensity programs in Sweden, online courses, as well as on the side while working or studying other things. I have also successfully used my Chinese in a graduate program for teaching Chinese as a second language, taught entirely in Chinese mostly for native speakers (the Graduate Institute for Teaching Chinese as a Second Language at National Taiwan Normal University). All these parts have contributed to my website, Hacking Chinese, where I write regularly about how to learn Mandarin.

**Remembering Simplified Hanzi 1** James W. Heisig, Timothy W. Richardson, 2008-10-31 The approach that has helped thousands of learners memorize Japanese kanji has been adapted to help students with Chinese characters. Remembering Simplified Hanzi covers the writing and meaning of

the 1,000 most commonly used characters in the traditional Chinese writing system, plus another 500 that are best learned at an early stage. Of critical importance to the approach found in these pages is the systematic arranging of characters in an order best suited to memory. In the Chinese writing system, strokes and simple components are nested within relatively simple characters, which can, in turn, serve as parts of more complicated characters and so on. Taking advantage of this allows a logical ordering, making it possible for students to approach most new characters with prior knowledge that can greatly facilitate the learning process.--BOOK JACKET.

*Tuttle Learning Chinese Characters* Alison Matthews, Laurence Matthews, 2011-12-20 This user-friendly book is aimed at helping students of Mandarin Chinese learn and remember Chinese characters. At last--there is a truly effective and enjoyable way to learn Chinese characters! This book helps students to learn and remember both the meanings and the pronunciations of over 800 characters. This otherwise daunting task is made easier by the use of techniques based on the psychology of learning and memory. Key principles include the use of visual imagery, the visualization of short stories, and the systematic building up of more complicated characters from basic building blocks. Although *Learning Chinese Characters* is primarily a book for serious learners of Mandarin Chinese, it can be used by anyone with an interest in Chinese characters, without any prior knowledge of Chinese. It can be used alongside (or after, or even before) a course in the Chinese

language. All characters are simplified (as in mainland China) but traditional characters are also given, when available. Key features: Specially designed pictures and stories are used in a structured way to make the learning process more enjoyable and effective, reducing the need for rote learning to the absolute minimum. The emphasis throughout is on learning and remembering the meanings and pronunciations of the characters. Tips are also included on learning techniques and how to avoid common problems. Characters are introduced in a logical sequence, which also gives priority to learning the most common characters first. Modern simplified characters are used, with pronunciations given in pinyin. Key information is given for each character, including radical, stroke-count, traditional form, compounds, and guidance on writing the character. This is a practical guide with a clear, concise and appealing layout, and it is well-indexed with easy look-up methods. The 800 Chinese characters and 1,033 compounds specified for the original HSK Level A proficiency test are covered.

Learning Mandarin Chinese Characters Volume 2 Yi Ren, 2017-04-11 Reinforce your written Chinese with this practice book for the best-selling Tuttle Learning Chinese Characters. Learning Mandarin Chinese Characters helps students quickly learn the basic Chinese characters that are fundamental to the language. Intended for self-study and classroom use, this character workbook presents 135 Chinese characters and over 405 common words using these characters. These are the characters and words students need to know if

they plan to take the official Chinese government HSK Level 2 Exam or the Advanced Placement (AP) Chinese Language and Culture Exam. Each character is presented in a very simple and clear way. A step-by-step diagram shows how to write the character and boxes are provided for freehand writing practice. The meaning and pronunciation are given along with the key vocabulary compounds and an example sentence. Review exercises reinforce the learning process and an index at the back allow you to look up the characters according to their English meanings or romanized Hanyu Pinyin pronunciation. Key features of this Chinese workbook include: Designed for HSK Level 1 and AP exam prep Learn the 135 most basic Chinese characters Example sentences and over 405 vocabulary items Step-by-step writing diagrams and practice boxes

**Reading and Writing Chinese** William McNaughton, 2013-07-23 This is a complete and easy-to-use guide for reading and writing Chinese characters. Learning written Chinese is an essential part of mastering the Chinese language. Used as a standard by students and teachers learning to read Chinese and write Chinese for more than three decades, the bestselling Reading & Writing Chinese has been thoroughly revised and updated. Reading & Writing Chinese places at your fingertips the essential 1,725 Chinese characters' current definitions, derivations, pronunciations, and examples of correct usage by utilizing cleverly condensed grids. This guide also focuses on Pinyin, which is the official system to transcribe Hanzi, Chinese characters, into Latin script, now universally used in mainland China and

Singapore. Traditional characters (still used in Taiwan and Hong Kong) are also included, making this a complete reference. Newly updated and revised, these characters are the ones officially prescribed by the Chinese government for the internationally recognized test of proficiency in Chinese, the Hanyu Shuiping Kaoshi (HSK). The student's ability to read and write Chinese are reinforced throughout the text. Key features of this newly-expanded edition include: The 1,725 most frequently used characters in both Simplified and Traditional forms. All 2,633 characters and 5,000+ compounds required for the HSK Exam. Standard Hanyu Pinyin romanizations. More mnemonic phrases and etymologies to help you remember the characters. An extensive introduction, alphabetical index, and index according to stroke count and stroke order. Completely updated/expanded English definitions. Convenient quick-reference tables of radicals. Updated and revised compounds, plus 25% more vocabulary now offered. Codes to assist those who are preparing for the AP exam or the HSK exam.

**Mandarin Chinese Characters Made Easy** Michael L. Kluemper, Kit-Yee Nam Nadeau, 2016-10-18 This highly-visual book introduces an effective new method for learning Chinese characters using visual stimuli and pictographs. Learning the necessary characters used to write even simple Chinese sentences can be a long and arduous process. Chinese Characters Made Easy makes the learning process fun and easy by presenting the 1,000 most common characters using a new mnemonic approach that associates each character with a memorable

visual and verbal clue--making memorization easy. The character for person, for example, is superimposed over a sketch of a man representing a person standing on two legs--drawing the reader's attention to the distinctive shape of the character and associating the sketch with the character's meaning. The Chinese characters are presented in groups or clusters all sharing common elements and meanings, for context and ease of identification. These groups of characters all share common root symbols known as radicals or relate to a particular theme or topic such as colors, numbers, animals, or body parts. Pronunciations, meanings and vocabulary compounds are provided for each character in the group. Key features of Chinese Characters Made Easy include: An introduction to the history and structure of the Chinese writing system 1,000 characters and over 3,000 words for beginning learners of Chinese This Chinese character book's visual approach is a powerful learning tool. It can be used by serious students and is entertaining and useful to general readers who are curious about how the Chinese writing system works and how it developed.

Easy Learning Mandarin Chinese Characters Collins Dictionaries, 2017-04-06 Learn how to write 250 of the commonest Chinese characters, with stroke by stroke guidance on every page. With thousands of characters to learn, beginning to read and write Chinese is a daunting task. Aimed at learners, this book takes you through 250 of the commonest characters in a clear and accessible way. The meaning of every character is explained along with

information about its radical, the compound words it can form, its history, and more. There is a practice grid on every page, showing how the character is written, with space for you to practise writing the character for yourself. It is generally agreed that learners of Chinese need a working knowledge of about 100 characters in order to make themselves at all understood and to travel in China, so Easy Learning Chinese Characters is a great place to start.

*Master Your Memory* Tony Buzan, 2000 Aiming to provide an understanding of how the brain works and to help the reader to continue expanding the memory and other abilities, this book covers what have been described as the only major advances in memory techniques since the 17th century.

### **Learn Chinese Characters: Easy Mnemonics to Memorize Hanzi L.**

Castelluzzo, 2019-04-23 This book is intended to serve as a helpful and practical tool which will assist the reader in their efforts to memorize and understand the most common Chinese characters. It provides visual descriptions which encourage the reader to see images in the characters, and to associate those images with a translation that can be more easily memorized. As any student of the Chinese language knows, many characters contain phonetic radicals which are not associated with the definition of the character. The purpose of this book is to confront this problem head-on, by re-connecting the phonetic radicals to a visual concept, and providing a unique mnemonic phrase that will help the reader to remember the definition

of the character. It is strongly recommended that the reader becomes very familiar with the short-list of 50 key radicals before moving on to the characters. After the characters, there is a list of vocabulary that uses combinations of the characters to form everyday words. Please note that this book is only intended to serve as a memory aide, and it is not intended to teach the actual history or etymology of the Chinese language, nor is it intended to be a definitive guide to the official radical of each character. Also, radicals and characters often have multiple definitions, and so in order to simplify the memorization process as much as possible, a significant effort has been devoted to selecting the most all-encompassing translation as possible. In order to maximize the efficiency of learning, this book uses 50 of the most common radicals to cover 400 of the most common characters, which when combined with each other, will provide a total vocabulary of approximately 1000 words. This book is organized into three sections: Radicals, Characters, Vocabulary. For each section, there are practice questions that test the reader's ability to translate: Chinese to English, English to Chinese, Chinese to PinYin, PinYin to English, English To PinYin, and PinYin to Chinese. Solutions are provided for all of these questions, so that the student can independently review their own work and assess their progress.

**Enjoy Learning Chinese Characters** Kum Ho Park, Kyung Yomg Kong, 2013-02-01  
Because Chinese characters are commonly known as pictograms, most Chinese

learners wonder if they can possibly learn thousands of characters. Some give up altogether and choose to learn only Pinyin, the romanized form of Chinese characters and so their use of the language becomes very limited. However, considering that the people who devised the Chinese language and most of the people who write and speak it every day are not geniuses, we have found a shortcut, an easier way, that would help people appreciate and learn the Chinese characters. This book has been written to share that secret with you! Countries that still use Chinese characters in their vocabulary are China (including Taiwan, Hong Kong and Singapore), Korea and Japan. China, for obvious reasons, uses it most often. The simplified characters are used in China and Singapore, whereas Taiwan and Hong Kong use the original complicated characters. Japan uses a mix of both. Korea has her own alphabet Hangul, but up to 60% of the vocabulary has borrowed meaning from Chinese characters. Therefore, if you don't know them, it is very hard for you to understand their true meanings. For these reasons, many researches on Chinese characters have been carried out mostly in China, Korea and Japan. We have taken into account the opinions of scholars from these three countries and shortlisted 3,500 characters, which outnumbers the 2,633 characters in the HSK Level 1-6 characters list. This book contains 1,160 characters that explain about the most frequently-used 856 characters including 623 characters in the HSK Level 1-3 list. Chinese characters are based on inscriptions found on bones and tortoise carapaces used in the 14th and 12th

century B.C. centuries. In the 6th and 7th centuries, they were said to have been passed on to nations in the Korean peninsula at that time, and then passed on to Japan. All languages change with time and Chinese was no exception. The usage of Chinese characters in Korea and Japan retain the original form and meaning of when they were passed on, so it was very helpful to have the input of scholars from the three countries. This book is an attempt to compile the opinions of scholars from these three countries, and the authors' personal interpretations of the inscriptions on bronze, bones and tortoise carapaces to explain the origin of the characters. The authors' aim is to help our readers understand the characters, not to become scholars in their own right. But that does not mean this book is a pet project. It is intended to help readers further understand the meanings of all Chinese characters.

*Remembering the Kanji 2* James W. Heisig, 2012-04-30 Following the first volume of *Remembering the Kanji*, the present work provides students with helpful tools for learning the pronunciation of the kanji. Behind the notorious inconsistencies in the way the Japanese language has come to pronounce the characters it received from China lie several coherent patterns. Identifying these patterns and arranging them in logical order can reduce dramatically the amount of time spent in the brute memorization of sounds unrelated to written forms. Many of the “primitive elements,” or building blocks, used in the drawing of the characters also serve to indicate

the “Chinese reading” that particular kanji use, chiefly in compound terms. By learning one of the kanji that uses such a “signal primitive,” one can learn the entire group at the same time. In this way, Remembering the Kanji 2 lays out the varieties of phonetic pattern and offers helpful hints for learning readings, that might otherwise appear completely random, in an efficient and rational way. Individual frames cross-reference the kanji to alternate readings and to the frame in volume 1 in which the meaning and writing of the kanji was first introduced. A parallel system of pronouncing the kanji, their “Japanese readings,” uses native Japanese words assigned to particular Chinese characters. Although these are more easily learned because of the association of the meaning to a single word, the author creates a kind of phonetic alphabet of single syllable words, each connected to a simple Japanese word, and shows how they can be combined to help memorize particularly troublesome vocabulary. The 4th edition has been updated to include the 196 new kanji approved by the government in 2010 as “general-use” kanji.

Learn Mandarin Chinese for Beginners Lerin Fires, 2021-03-31 Learn the Chinese Mandarin language with this flawlessly represented book, Ideal for the entire family, highlights 100 words to utilize while voyaging, from food and transport, to animals and climate. *The Way of the Linguist* Steve Kaufmann, 2005-11 *The Way of The Linguist*, A language learning odyssey. It is now a cliché that the world is a smaller place. We think nothing of jumping on a plane to travel to another country or continent. The most exotic locations are now destinations for mass tourism. Small business people are dealing across frontiers and language barriers like never before. The Internet brings different languages and cultures to our finger-tips. English, the hybrid language of an island at the western extremity of Europe seems to have an unrivalled position as an international medium of communication. But historically periods of cultural and economic domination have never lasted forever. Do we not lose something by relying on the wide spread use of English rather than discovering other languages and cultures? As citizens of this shrunken world, would we not be better off if we were able to speak a few languages other than our own? The answer is obviously yes. Certainly Steve Kaufmann thinks so, and in his busy life as a diplomat and businessman he managed to learn to speak nine languages fluently and observe first hand some of the dominant cultures of Europe and Asia. Why do not more people do the same? In his book *The Way of The Linguist*, A language learning odyssey, Steve offers some answers. Steve feels anyone can learn a language if they want to. He points out some of the obstacles that hold people back. Drawing on his adventures in Europe and Asia, as a student and businessman, he describes the rewards that come from knowing languages. He relates his evolution as a language learner, abroad and back in his native

Canada and explains the kind of attitude that will enable others to achieve second language fluency. Many people have taken on the challenge of language learning but have been frustrated by their lack of success. This book offers detailed advice on the kind of study practices that will achieve language breakthroughs. Steve has developed a language learning system available online at: [www.thelinguist.com](http://www.thelinguist.com).

**Easy Way to Learn Chinese Through English in 30 days** Shelly Verma, SHELLY VERMA is a Guest-Lecturer at University of Delhi and also a Chinese language faculty at Bhartiya Vidya Bhawan. She did Post Graduation in Management (Marketing & HR) from All India Management Association. Simultaneously she did Advanced Diploma in Chinese language from Department of East Asian Studies, University of Delhi. She has also completed an Advanced Diploma in Chinese language from Bhartiya Vidya Bhawan. She also did B.Ed. from MDU, Rohtak. Her keen interest in Chinese language made her qualify HSK Level 5. After completing her studies in Chinese language, she was selected by CBSE as a Master trainer of Chinese language. Later, she taught Mandarin in various institutes and international schools. With an experience of almost 8 years, she went to Taiwan for an Advanced Teacher Training programme. Her purpose of writing this book is to meet the needs of a layman interested in learning Chinese language with basic grammar and sentence constructions in the shortest possible time. This book covers basic to intermediate Chinese grammar for sentence formation, greeting people, time, family, business

communication, commonly used vocabulary, conversations- in hotel, at the airport, at the railway station, in the market, during telephone calls, etc. Chinese characters, Romanization and English sentences are given in each lesson to make it easier for the students to communicate with confidence.

**Learning Chinese the Easy Way Simplified Characters Level 1 Book 2** Sam Song, 2011-09-01 We learn Chinese vocabulary more easily in the context of a story. Learning Chinese The Easy Way Level 1 (Simplified Characters) contains 3 stories: Two Men and The Bear (Readers should read this story first) The Wind and The Sun The Fox and The Goat This book is about the story, The Wind and The Sun (Simplified Characters). Each Chinese character, after going through several thousand years of evolution, is like an abstract piece of art. To remember a Chinese Character, it's essential to understand the artists' reasoning behind it. When a Chinese character is meaningfully explained and understood, it is retained much longer. The books in the series present and explain pieces of each character through illustrations, reasons behind it, stories, or the easiest way to remember the writing/sound, to help readers understand and remember the Chinese characters easily. Learning Chinese The Easy Way (Simplified Characters) Level 1 and Level 2 books are a huge help for beginners or experienced learners to learn and remember Chinese characters. After studying through this book, you will be able to remember and read the famous fable, The Wind and The Sun, in Chinese to your children, students, friends, and colleagues! They all will be amazed!

Chinese Characters Made Easy Michael L. Kluemper, Kityee Yam

Nadeau, 2015-12-15 This highly-visual book introduces an effective new method for learning Chinese characters using visual stimuli and pictographs. Learning the basic characters used to write even simple Chinese sentences can be a long and arduous process. Chinese Characters Made Easy makes the learning process fun and easy by presenting the 1,000 most common characters using a new mnemonic approach that associates each character with a memorable visual and verbal clue—making memorization easy. The character for person, for example, is superimposed over a sketch of a man representing a person standing on two legs—drawing the reader's attention to the distinctive shape of the character and associating the sketch with the character's meaning. The Chinese characters are presented in groups or clusters all sharing common elements and meanings, for context and ease of identification. These groups of characters all share common root symbols known as radicals, or relate to a particular theme or topic such as colors, numbers, animals, or body parts. Pronunciations, meanings and vocabulary compounds are provided for each character in the group. A free audio CD provides native-speaker pronunciations for all the characters and their associated vocabulary. A short introduction explains the history and structure of the Chinese writing system. This Chinese character book's visual approach is a powerful learning tool. It can be used by serious students and is entertaining and useful to general readers who are curious about how the Chinese writing system works

and how it developed.

**Chineasy Everyday** ShaoLan, 2016-03-28 Chineasy, the brainchild of entrepreneur ShaoLan Hsueh, has been a publishing phenomenon. Its special building-block learning method brought to life by highly recognizable and appealing graphic illustrations has attracted a substantial online following and has been published in fifteen languages. But it marks only the beginning of a larger ambition to educate the world about the richness and character of China's people, its customs and its heritage. The first volume of Chineasy introduced the method and visual language. This follow-up volume, which requires no experience of the first, expands the scope to include all facets of Chinese life and culture in twelve central sections. Each begins with an overview of key characters before a presentation of the subject using those characters as a basis, providing insight into how Chinese thinking has shaped its language and civilization in a way that anyone can understand and appreciate. As children are increasingly taking up Mandarin, and as business exchange with China develops, this is a single-volume encyclopedia on China that will stimulate young minds, enchant the culturally minded and inspire everyone who seeks new experiences and a wider understanding of the world we live in.

**Learning Chinese the Easy Way** Sam Y. Song, 2012-04-18 The book introduces Chinese characters through both illustrations and the reasons behind them. It's a must have for learners of Chinese everywhere!

**First 100 Chinese Characters: Simplified Character Edition** Laurence Matthews, Alison Matthews, 2013-12-24 This book is a quick and easy way to learn basic Chinese Characters. All beginning Chinese language learners struggle to memorize and learn to write Chinese characters. The First 100 Chinese Characters adopts a structural approach which helps students to quickly master the basic characters that are fundamental to this language. Intended for beginning Chinese students, this character book presents characters that have been carefully selected for rapid and effective learning. The English meanings, pronunciations in hanyu pinyin and alternate forms (if any) for each Chinese character are presented along with a stroke order guide and spaces for writing practice. Printed with gray guidelines, the stroke order guides are designed to be traced over to teach students the standard sequence of strokes used to write the character. Related compounds and phrases are given to assist in vocabulary building. Three indexes at the back allow the characters to be looked up by their English meanings, hanyu pinyin pronunciations, or radicals. Extra practice sheets are also provided. This Chinese character book contains: Step-by-step stroke order diagrams show you how to write each character. Special boxes with grid lines help you practice writing them correctly. Compounds and sample sentences provide easy vocabulary building. Hanyu pinyin romanizations identify and help you pronounce every word.
