Great Britain: Parliament: Select Committee on the Crossrail Bill

The Politics of Location Andrew Kirby, 2015-12-14 This book, originally published in 1982, begins with an examination of space, and its role in the process of public provision and collective consumption. Variations in provision are linked to the Weberian notion of social status and political struggles over consumption and externality issues. Health care and education are considered in spatial contexts, and the whole basis of the electoral system is also discussed together with geographic underpinnings. In each case emphasis is placed on the jurisdictional organization of space by public bodies. The author examines the various examples of spatial cleavages, in which political events are redirected by issues such as nuclear power, airport location, road construction and urban renewal.

Telematics in Rural Areas: Parameters of Success of the British Teleworking and Telecottages Concept Wolfgang Rid, 2000-12-06 Inhaltsangabe: Einleitung: Die vorliegende Arbeit kann in das Rahmenthema Möglichkeiten der modernen Telematik für die Entwicklung ländlicher Räume eingeordnet werden, zu dem schon viel publiziert wurde. Die Themen Telearbeit und Telezentren wurden dabei unter mehreren Gesichtspunkten wissenschaftlich bearbeitet, die Bandbreite der Untersuchungen reicht von Arbeiten über die allgemeine Bedeutung von Telezentren für die Regionalentwicklung bis hin zu Analysen über die Arbeits- und Organisationsstrukturen von Telearbeit und Telezentren aus organisationspsychologischer Sicht. Während allerdings bei den meisten

wissenschaftlichen Arbeiten zu diesem Thema die theoretischen Einflüsse von Telearbeit und Telezentren auf den ländlichen Arbeitsmarkt im Mittelpunkt des Interesses stehen, ist es Ziel dieser Arbeit, die Diskussion über den Sinn oder Unsinn von Telearbeit und deren Beitrag zur wirtschaftlichen Entwicklung ländlicher Regionen auf eine solide empirische Basis zu stellen. Dazu werden case studies von Telezentren durchgeführt, die auf eine bereits mehrjährige praktische Erfahrung zurückblicken können. Als Ergebnis wird zuerst eine klare Typisierung von Formen von Telezentren entwickelt, denen dann typische geographische und interne Parameter des Erfolges zugewiesen werden konnten. Als Untersuchungsgebiet wurde Großbritannien gewählt, da dort europaweit einige der ersten Telezentren errichtet wurden und sich daher bereits ein großer Erfahrungsschatz zum Thema Telezentren und Telearbeit angesammelt hat. Das ist von umso höherer Bedeutung, als der Erfolg von Telezentren erst nach einem gewissen Zeitraum abzuschätzen ist, nachdem Kinderkrankheiten bekannt geworden sind und sich erfolgreiche bzw. weniger erfolgreiche Strategien eines Telezentrums herausbilden konnten. Da eine Typisierung von Telezentren und die geographischen und internen Erfolgsparameter eines Telezentrums bisher in der Literatur wenig behandelt worden sind, betritt diese Arbeit relatives Neuland und muss daher eher in die Tiefe gehen als in die Breite. Eine quantitative Untersuchung zu diesem Themenbereich wäre wegen der unzureichenden Vorkenntnisse über das Untersuchungsobjekt von geringem Wert. Daher stützt sich der empirische Teil dieser Arbeit auf Methoden der

qualitativen Sozialforschung. Um sich dem Untersuchungsziel zu nähern, wurden fünf Fallstudien durchgeführt, wofür fünf britische Telezentren nach einem zielgerichteten und begründeten Auswahlverfahren ausgewählt [...]

Social Synthesis Philip Haynes, 2017-08-07 How is it possible to understand society and the problems it faces? What sense can be made of the behaviour of markets and government interventions? How can citizens understand the course that their lives take and the opportunities available to them? There has been much debate surrounding what methodology and methods are appropriate for social science research. In a larger sense, there have been differences in quantitative and qualitative approaches and some attempts to combine them. In addition, there have also been questions of the influence of competing values on all social activities versus the need to find an objective understanding. Thus, this aptly named volume strives to develop new methods through the practice of 'social synthesis', describing a methodology that perceives societies and economies as manifestations of highly dynamic, interactive and emergent complex systems. Furthermore, helping us to understand that an analysis of parts alone does not always lead to an informed understanding, Haynes presents to the contemporary researcher an original tool called Dynamic Pattern Synthesis (DPS) – a rigorous method that informs us about how specific complex social and economic systems adapt over time. A timely and

significant monograph, *Social Synthesis* will appeal to advanced undergraduate and postgraduate students, research professionals and academic researchers informed by sociology, economics, politics, public policy, social policy and social psychology.

London (Re)generation David Littlefield, 2012-04-30 A lively, thought-provoking exploration of the contemporary regeneration of London Plans to regenerate East London and transform the capital are integral to the vision of the London 2012 Olympic and Paralympic Games. This title brings into focus notions of regeneration within the specific context of London: what does the term actually mean, how has it been applied and is it being applied? Historical overviews of large-scale interventions from the past are combined with case studies of new and planned schemes, and explorations of how change and rejuvenation can retain or enhance the city's unique sense of place and identity. Looking beyond the Games, the title will look at the direction in which regeneration is going in a post-recession economy. How can a long-established, highly protected and even cherished city, like London, continue to renew and expand? Unlike Chinese or Middle Eastern cities, London is constrained by a wide range of factors from heritage protection and geography to finance and democratic accountability; yet the city continues to grow, change and develop, either incrementally or through big, dramatic leaps, like the Olympic Park and King's Cross. In this way, London provides a fascinating case study of how a developed, Western city can negotiate and greet the

pressures for change. Contributors: Michael Batty, Peter Bishop, Matthew Carmona, Murray Fraser, Matthew Gandy, Robert Harbison, Peter Murray and Austin Williams Architects: Sir Terry Farrell, Richard McCormac Projects: King's Cross, the London 2012 Games and the Shard

Atlas of Epidemic Britain Matthew Smallman-Raynor, Andrew Cliff, 2012-05-10
Using over 300 new maps, charts, photographs and associated text, this full-colour Atlas views a century of change in Britain's epidemic landscape. It maps and interprets the retreat of some infectious diseases, the emergence of new infections and the re-emergence of certain historical plagues.

Locating Localism Wills, Jane, 2016-07-12 Locating localism explores the development of localism as a new mode of statecraft and its implications for the practice of citizenship. Drawing on original research, Jane Wills highlights the importance of having the civic infrastructure and capacity to facilitate the engagement of citizens in local decision making. She looks at the development of community organising, neighbourhood planning and community councils that identify and nurture the energies, talents and creativity of the population to solve their own problems and improve our world. Combining political theory with attention to political practice, the book takes the long view of this new policy development, positioning it in relation to the political geo-history of the British state. In so doing, it highlights the challenges of the state devolving itself and the importance of citizens

having the freedom, incentives and institutions needed to act.

Solar Houses in Europe W. Palz,T. C. Steemers,2013-10-22 *Solar Houses in Europe: How they have Worked?* is a seven-chapter text that presents monitored data from houses in various C.E.C. countries and climates, highlighting the performance of typical solar heating systems. The opening chapter introduces solar heating systems, solar collectors, heat storage, and the concept of circulation and control in solar heating systems. The succeeding chapters deal with the factors that influence the heating system's daily, monthly, and annual performance. A chapter focuses on the design requirements for solar collectors, primary circuit, heat storage, and system controls. These topics are followed by statistical summaries and a discussion of the importance of system monitoring. The concluding chapter discusses various solar heating project results. This book is of value to building engineers, architects, solar energy experts, and solar house owners.

Attraction Explained Viren Swami,2021-02-11 When it comes to relationships, there's no shortage of advice from self-help 'experts', pick-up artists, and glossy magazines. But modern-day myths of attraction often have no basis in fact or – worse – are rooted in little more than misogyny. Based on science rather than self-help clichés, psychologist Viren Swami debunks these myths and draws on cutting-edge research to provide a ground-breaking and evidence-based account of relationship formation. At the core of this book is a very simple idea: there are no 'laws of attraction', no fool-proof methods or

strategies for getting someone to date you. But this isn't to say that there's nothing to be gained from studying attraction. Based on science rather than self-help clichés, *Attraction Explained* looks at how factors such as geography, physical appearance, reciprocity, and similarity affect who we fall for and why. With updated statistics, this second edition also includes new content on online dating, queer relationships, racism in dating, shyness, and individual differences. It remains an engaging and accessible introduction to attraction relationship formation for professionals, students, and general readers.

The Everyday Practice of Public Art Cameron Cartiere, Martin Zebracki, 2015-11-19 The Everyday Practice of Public Art: Art, Space, and Social Inclusion is a multidisciplinary anthology of analyses exploring the expansion of contemporary public art issues beyond the built environment. It follows the highly successful publication The Practice of Public Art (eds. Cartiere and Willis), and expands the analysis of the field with a broad perspective which includes practicing artists, curators, activists, writers and educators from North America, Europe and Australia, who offer divergent perspectives on the many facets of the public art process. The collection examines the continual evolution of public art, moving beyond monuments and memorials to examine more fully the development of socially-engaged public art practice. Topics include constructing new models for developing and commissioning temporary and performance-based public artworks; understanding the challenges of a socially-engaged public art practice vs. social programming and policymaking; the social inclusiveness of public art; the radical developments in public art and social practice pedagogy; and

unravelling the relationships between public artists and the communities they serve. The Everyday Practice of Public Art offers a diverse perspective on the increasingly complex nature of artistic practice in the public realm in the twenty-first century.

Mapping and Analysing Crime Data Alex Hirschfield, Kate Bowers, 2001-04-26 One of the key methods of reducing and dealing with criminal activity is to accurately gauge and then analyse the geographical distribution of crime (from small scale to large scale areas). Once the police and government know what areas suffer most from criminal activity they can assess why this is the case and then deal with it in the most effective

Master the basics of data ingestion, cleaning, exploration, and prepare to build baseline models Work robustly with any type, modality, and size of data, be it tabular, text, image, video, or sound Improve the style and readability of your Notebooks, making them more impactful and compelling Book DescriptionDeveloping Kaggle Notebooks introduces you to data analysis, with a focus on using Kaggle Notebooks to simultaneously achieve mastery in this field and rise to the top of the Kaggle Notebooks tier. The book is structured as a sevenstep data analysis journey, exploring the features available in Kaggle Notebooks alongside various data analysis techniques. For each topic, we provide one or more notebooks, developing reusable analysis components through Kaggle's Utility Scripts feature, introduced progressively, initially as part of a notebook, and later extracted for use across future notebooks to enhance code reusability on Kaggle. It aims to make the notebooks' code more structured, easy to maintain, and readable. Although the focus of this book is on data analytics, some examples will guide you in preparing a complete machine learning pipeline using Kaggle Notebooks. Starting from initial data ingestion and data quality assessment, you'll move on to preliminary data analysis, advanced data exploration, feature qualification to build a model baseline, and feature engineering. You'll also delve into hyperparameter tuning to iteratively refine your model and prepare for submission in Kaggle competitions. Additionally, the book touches on developing notebooks that leverage the power of generative AI

using Kaggle Models. What you will learn Approach a dataset or competition to perform data analysis via a notebook Learn data ingestion and address issues arising with the ingested data Structure your code using reusable components Analyze in depth both small and large datasets of various types Distinguish yourself from the crowd with the content of your analysis Enhance your notebook style with a color scheme and other visual effects Captivate your audience with data and compelling storytelling techniques Who this book is for This book is suitable for a wide audience with a keen interest in data science and machine learning, looking to use Kaggle Notebooks to improve their skills and rise in the Kaggle Notebooks ranks. Historian's Guide to Early British Maps Helen Wallis, Anita McConnell, 1995-04-06 Great Britain and Ireland enjoy a rich cartographic heritage, yet historians have not made full use of early maps in their writings and research. This is partly due to a lack of information about exactly which maps are available. With the publication of this volume from the Royal Historical Society, we now have a comprehensive guide to the early maps of Great Britain. The book is divided into two parts: part one describes

the history and purpose of maps in a series of short essays on the early mapping of the British Isles; part two comprises a guide to the collections, national and regional. Now available from Cambridge University Press, this volume provides an essential reference tool for anyone requiring to access maps of the British Isles dating back to the medieval period and beyond.

Global London on screen Keith B. Wagner, Roland-François Lack, 2023-09-26
Global London on screen presents a mélange of films by directors from the Global South and North, portraying everyday life to the more fantastical, odious, or extraordinary in terms of circumstances as captured cinematically in this superdiverse city. This book portrays a segment of such superdiversity by historicising and theorising various cinematic reproductions of London by filmmakers coming to this megacity from abroad. As visitors, cosmopolitans, or even migrant filmmakers, their treatment of London's zonal locations as both foreign and familiar is fascinating; their narratives and visualisations of London's spatial and architectural uniqueness is given a sojourners' touch; while other foreign filmmakers showcase and sometimes problematise London's socio-cultural globality and locality as both British and a city open (and sometimes closed off) to the world.

The U. K. Peter Webber,1998 Resulting from research into the needs of teachers arising from the revised syllabuses for GCSE Geography, and focusing on topical issues throughout the UK, this photocopiable resource pack corresponds to one of a three-book series of supplementary topic books providing a range of detailed case studies, enquiries and decision-making exercises.

Belonging in Brixton Audrey Allwood,2020-11-19 This volume provides a unique perspective on elderly working-class West Indian migrants in the UK, particularly examining how they negotiate their sense of belonging. Utilizing

the life span gaze and including elements of oral history and narrative, this ethnography provides rich insight into the ordinary lives, migratory circumstances, social networks, and interactions with the state as residents in a sheltered housing scheme in Brixton, London. The author further compiles a variety of genealogy charts, providing a uniquely vivid scholarly analysis of the Caribbean migrant experience both in a “place” and through space and time. Ultimately, this work contemplates how communities face change whilst at once developing a local symbolic cultural site, navigating adaptation to new economic and social environments.
