

Maay

Emily Clem , Peter Jenks , Hannah Sande

English-Maay Dictionary Mohamed Haji Mukhtar, 2007-08-20 Somali people speak quite a number of languages and dialects, Maay and Mahaa being the lingua franca of the majority. In 1972, the latter was put in a written format and became the national language of the country. This experiment alienated the other Somali languages and produced tremendous disenchantment, particularly on the part of the Maay speakers. In 2003, however, the Somali Peace and Reconciliation Conference at Mbegathi, Kenya, acknowledged that Maay will be another official language of the Somali Republic. This English-Maay Dictionary is the first experiment exploring the roots of Maay language and its relationship to the other Somali dialects as well the Kshitic family of languages in the Horn of Africa. The dictionary provides over 15,000 of the most frequently used words in Maay and their English translations, with numerous examples of their every day usage. The dictionary is a vital addition to reference collections supporting undergraduate and graduate programs on African and Middle Eastern Studies. It is also an essential tool for non-Somali case workers such as those in refugee camps, immigration and naturalization officials or lawyers dealing with Somali asylum seekers. It is equally a vital tool for interpreters and translators working on court cases, hospitals and legal papers as well as for public school teachers on ESL programs that teach Maay-speaking children in English-speaking countries.

Somali Grammar Christopher R. Green, 2021-08-23 The series aims to make a significant contribution to modern language studies by providing up-to-date, linguistically sophisticated, and comprehensive language materials, of use to a wide spectrum of users, on major world languages which have hitherto been largely neglected.

African linguistics on the prairie Jason Kandybowicz, Travis Major, Harold Torrence, Philip T. Duncan, 2018-06-15 African Linguistics on the Prairie features select revised peer-reviewed papers from the 45th Annual Conference on African Linguistics, held at the University of Kansas. The articles in this volume reflect the enormous diversity of African languages, as they focus on languages from all of the major African language phyla. The articles here also reflect the many different research perspectives that frame the work of linguists in the Association for Contemporary African Linguistics. The diversity of views presented in this volume are thus indicative of the vitality of current African linguistics research. The work presented in this volume represents both descriptive and theoretical methodologies and covers fields ranging from phonetics, phonology, morphology, typology, syntax, and semantics to sociolinguistics, discourse analysis, language acquisition, computational linguistics and beyond. This broad scope and the quality of the articles contained within holds out the promise of continued advancement in linguistic research on African languages.

Variation and Change in Morphology Franz Rainer, 2010 Printbegrænsninger: Der kan printes 10 sider ad gangen og max. 40 sider pr. session

Somalis Abroad, 2017-05-12 Drawing on a wealth of ethnographic detail, Stephanie Bjork offers the first study on the messy role of clan or tribe in the Somali diaspora, and the only study on the subject to include women's perspectives. Somalis Abroad illuminates the ways clan is contested alongside ideas of autonomy and gender equality, challenged by affinities towards others with similar migration experiences, transformed because of geographical separation from family members, and leveraged by individuals for cultural capital. Challenging prevailing views in the field, Bjork argues that clan-informed practices influence everything from asylum decisions to managing money. The practices also become a pattern that structures important relationships via constant--and unwitting--effort.

Seeking Salaam Sandra M. Chait, 2011-12-01 Prolonged violence in the Horn of Africa, the northeastern

corner of the continent, has led growing numbers of Ethiopians, Eritreans, and Somalis to flee to the United States. Despite the enmity created by centuries of conflict, they often find themselves living as neighbors in their adopted cities, with their children as class-mates in school. In many ways, they are successfully navigating life in their new home; however, they continue to struggle to bridge old ethnic divisions and find salaam, or peace, with one another. News from home fuels historical grievances and perpetuates tensions within their communities, delaying acculturation, undermining attempts at reconciliation, and sabotaging the opportunity to reach the American Dream. In conversations with forty East African immigrants living in Seattle, Washington, and Portland, Oregon, Sandra Chait captures the immigrants' struggle for identity in the face of competing stories and documents how some individuals have been able to transcend the ghosts from the past and extend a tentative hand to their former enemies.

Historical Dictionary of Somalia Mohamed Haji Mukhtar, 2003-02-25 The volume will cover all aspects of Somalia, providing useful information about the country in a comprehensive manner. The book also reflects on the contributions of the Somali sources on history and culture. Arabic sources and other non-English colonial sources of great importance to the subject are also highlighted. A vital addition to reference collections supporting undergraduate and graduate programs on Africa and the Middle East, international relations, and economics and a useful fact-filled compendium for government and public libraries, NGO's, and other special libraries as well.

Gender and Noun Classification Éric Mathieu, Myriam Dali, Gita Zareikar, 2018-11-01 This volume explores the many ways by which natural languages categorize nouns into genders or classes. A noun may belong to a given class because of its logical or symbolic similarities with other nouns, because it shares a similar morphological form with other nouns, or simply through an arbitrary convention. The aim of this book is to establish which functional or lexical categories are responsible for this type of classification, especially along the nominal syntactic spine. The book's contributors draw on data from a wide range of languages, including Amharic, French, Gitksan, Haro, Lithuanian, Japanese, Mi'kmaq, Persian, and Shona. Chapters examine where in the nominal structure gender is able to function as a classifying device, and how in the absence of gender, other functional elements in the nominal spine come to fill that gap. Other chapters focus on how gender participates in grammatical concord and agreement phenomena. The volume also discusses semantic agreement: hybrid agreement sometimes arises due to a distinction that grammars encode between natural gender on the one hand and grammatical gender on the other. The findings in the volume have significant implications for syntactic theory and theories of interpretation, and contribute to a greater understanding of the interplay between inflection and derivation. The volume will be of interest to theoretical linguists and typologists from advanced undergraduate level upwards.

Social Policy and Human Development in Zambia Ndagwa Noyoo, 2010-01-30 Social Policy And Human Development In Zambia discusses social policy and human development endeavours in Zambia, including the various societal forces that converged on the country in both the pre-colonial and colonial periods and which later influenced post-colonial social policy initiatives. The pre-colonial era epitomised indigenous forms of social protection that safeguarded the well-being of Africans. Colonial rule, which was foreign in orientation, was geared towards meeting the needs of a small European settler population through social policy programmes. Most of the discussions in the book unfold in the setting of a post-colonial society. The central thesis of the book is that social policy and human development in Zambia are inextricably bound up with the political and economic forces in the country and that they constantly reinforce each other. Politics is taken as an important variable that legitimises the role of politicians and policy-makers in determining the development path of the country. Thus, their efficacy, lack of depth or

ineptitude will be translated into the way public policies, including social policy, are formulated and implemented. Given the normative nature of social policy, it is argued that ideology plays a critical role in both its formulation and execution. This argument is brought home by showing how the socialist government in Zambia during the 1960s and 1970s relied upon ideology to marshal social policy towards the goal of national development. Based on the analyses of different political eras in the country the book also argues that the economy is the central pillar in the implementation of social policy and the provision of social services.

Papers from the Linguistics Workshop Orwin, Martin, 2018-11-09 The articles in this book are the result of the First Linguistics Workshop: Somali Language and Literature at the Hargeysa Cultural Centre in December 2015. The objective of the workshop was to facilitate the sharing of current work among scholars in the field of Somali language studies through presentation of their ongoing projects. This also allowed current work to be opened to a wider audience and for students, journalists and writers to hear about some of the issues which are of current interest in Somali language studies. There was a deliberate attempt to draw people engaged in both more strictly linguistic matters together with those whose interests are more as practitioners with language, such as local writers and journalists, and also to include those whose primary focus is literature. This led to a diverse range of both presentations and opinions on those presentations, which is represented also in this volume. The views on any matter are those of the individual authors and readers are left to determine for themselves to what extent they agree or disagree with points made. The more strictly linguistic papers include presentations on aspects of Somali phonology, morphology and syntax. Sociolinguistics is also represented as is recent work on lexicography and the use of information technology in Somali language studies. There are two papers which consider literature from different perspectives.

Coptic in 20 Lessons Bentley Layton, 2007 Coptic in 20 Lessons is written by the author of the most authoritative reference grammar of the Coptic language, and is based on decades of pedagogical experience. In easy steps and simple explanations, it teaches the patterns and syntax of Sahidic Coptic, along with the most useful vocabulary. Drills, compositions, and translation exercises enable the student to gain fluency. All words that occur more than fifty times in the Sahidic New Testament are introduced lesson by lesson in vocabulary lists, which are arranged by semantic field and accompanied by both Greek equivalents and English glosses. The book concludes with three chapters of the Gospel of Mark, in which all new vocabulary is glossed in footnotes. Coptic in 20 Lessons is the ideal resource for use in the classroom or for teaching oneself Coptic. Critical acclaim for this book: Coptic in 20 Lessons is the up-to-date teaching grammar that Coptic studies has long needed. ... There is no better way to learn Coptic. David Brakke, Indiana University Layton brings to this book a life-long experience of teaching, combined with the authority of his masterly Coptic Grammar, arguably the best grammar of Sahidic Coptic ever written, from which the present work is distilled... A state-of-the-art account. Ariel Shisha-Halevy, Hebrew University

U.S. Army Special Forces Language Visual Training Materials - SYRIAN ARABIC + DEFENSE LANGUAGE INSTITUTE (DLI) BONUS TRAINING MATERIALS , Over 300 pages ... Developed by I Corps Foreign Language Training Center Fort Lewis, WA For the Special Operations Forces Language Office United States Special Operations Command LANGUAGE TRAINING The ability to speak a foreign language is a core unconventional warfare skill and is being incorporated throughout all phases of the qualification course. The students will receive their language assignment after the selection phase where they will receive a language starter kit that allows them to begin language training while waiting to return to Fort Bragg for Phase II. The 3rd Bn, 1st SWTG (A) is responsible for all language training at the

USAJFKSWCS. The Special Operations Language Training (SOLT) is primarily a performance-oriented language course. Students are trained in one of ten core languages with enduring regional application and must show proficiency in speaking, listening and reading. A student receives language training throughout the Pipeline. In Phase IV, students attend an 8 or 14 week language blitz depending upon the language they are slotted in. The general purpose of the course is to provide each student with the ability to communicate in a foreign language. For successful completion of the course, the student must achieve at least a 1/1/1 or higher on the Defense Language Proficiency Test in two of the three graded areas; speaking, listening and reading. Table of Contents Introduction Introduction Lesson 1 People and Geography Lesson 2 Living and Working Lesson 3 Numbers, Dates, and Time Lesson 4 Daily Activities Lesson 5 Meeting the Family Lesson 6 Around Town Lesson 7 Shopping Lesson 8 Eating Out Lesson 9 Customs, and Courtesies in the Home Lesson 10 Around the House Lesson 11 Weather and Climate Lesson 12 Personal Appearance Lesson 13 Transportation Lesson 14 Travel Lesson 15 At School Lesson 16 Recreation and Leisure Lesson 17 Health and the Human Body Lesson 18 Political and International Topics in the News Lesson 19 The Military Lesson 20 Holidays and Traditions

Theory and description in African Linguistics Emily Clem , Peter Jenks , Hannah Sande ,2019 The papers in this volume were presented at the 47th Annual Conference on African Linguistics at UC Berkeley in 2016. The papers offer new descriptions of African languages and propose novel theoretical analyses of them. The contributions span topics in phonetics, phonology, syntax, semantics, and pragmatics and reflect the typological and genetic diversity of languages in Africa. Four papers in the volume examine Areal Features and Linguistic Reconstruction in Africa, and were presented at a special workshop on this topic held alongside the general session of ACAL.

Library of Congress Subject Headings Library of Congress,2010

Yorkshire Folk-talk Marmaduke Charles Frederick Morris,1892

Brigham Young John G. Turner,2012-09-25 Brigham Young was a rough-hewn New York craftsman whose impoverished life was electrified by the Mormon faith. Turner provides a fully realized portrait of this spiritual prophet, viewed by followers as a protector and by opponents as a heretic. His pioneering faith made a deep imprint on tens of thousands of lives in the American Mountain West.

William J. Gedney's Tai Dialect Studies William J. Gedney,1997 A study of the tai language family and dialects, including grammar notes, glossaries, texts, and translations

Michigan Papers on South and Southeast Asia ,1971

A Grammar of Jamul Tiipay Amy Miller,2011-05-12 The series builds an extensive collection of high quality descriptions of languages around the world. Each volume offers a comprehensive grammatical description of a single language together with fully analyzed sample texts and, if appropriate, a word list and other relevant information which is available on the language in question. There are no restrictions as to language family or area, and although special attention is paid to hitherto undescribed languages, new and valuable treatments of better known languages are also included. No theoretical model is imposed on the authors; the only criterion is a high standard of scientific quality.

Refugee Resettlement in the United States Emily M. Feuerherm,Vaidehi Ramanathan,2015-12-03 This edited volume brings together scholars from various disciplines to discuss how language is used by, for, and about refugees in the United States in order to deepen our understanding of what 'refugee' and 'resettlement' mean. The main themes of the chapters highlight: the intersections of language education and refugee resettlement from community-based adult programs to elementary school classrooms; the language (of) resettlement policies and politics in the United States at both the national level and at the local

level focusing on the agencies and organizations that support refugees; the discursive constructions of refugee-hood that are promulgated through the media, resettlement agencies, and even the refugees themselves. This volume is highly relevant to current political debates of immigration, human rights, and education, and will be of interest to researchers of applied linguistics, sociolinguistics, anthropology, and cultural studies.
