Maps and Civilization Norman J. W. Thrower,2008-11-15 In this concise introduction to the history of cartography, Norman J. W. Thrower charts the intimate links between maps and history from antiquity to the present day. A wealth of illustrations, including the oldest known map and contemporary examples made using Geographical Information Systems (GIS), illuminate the many ways in which various human cultures have interpreted spatial relationships. The third edition of *Maps and Civilization* incorporates numerous revisions, features new material throughout the book, and includes a new alphabetized bibliography. Praise for previous editions of *Maps and Civilization*: "A marvelous compendium of map lore. Anyone truly interested in the development of cartography will want to have his or her own copy to annotate, underline, and index for handy referencing."—L. M. Seibert, *Geomatica*

Reading Peralta Maps Robert L. and Lynda R. Kesselring,2013-12-06 *Reading Peralta Maps: Volume 2: The Latin Heart* continues the journey that began in the previous volume of this series, which revealed the signs leading to the treasure of the Church of Santa Fe. Now authors Robert L. and Lynda R. Kesselring discuss how the maps, particularly the Latin Heart Map, enabled them to find the site of the Peralta battle, where the family had hidden their thirty-one caches of bullion as well as what may be the Lost Dutchman Mine. This volume shares the Kesselrings' scientific analysis and interpretation and shows the physical evidence that supports their claim. While providing insight into historical lore and legend, *Reading Peralta Maps: Volume 2: The Latin Heart* reveals the location of a cache in the Superstition Mountains and shows the underground images of bullion bars. Including GPS directions, this guide reveals the location of the sites for visitation.
