The Non-Runner's Marathon Trainer David A. Whitsett,Forrest A. Dolgener,Tanjala Jo Kole,1998-02-01 Athlete. Runner. Marathoner. Are these words you wouldn't exactly use to describe yourself? Do you consider yourself too old or too out of shape to run a marathon? But somewhere deep inside have you always admired the people who could reach down and come up with the mental and physical strength to complete such a daunting and rewarding accomplishment? It doesn't have to be somebody else crossing the finish line. You can be a marathoner. The Non-Runner's Marathon Trainer is based on the highly successful marathon class offered by the University of Northern Iowa, which was featured in a Runner's World article titled Marathoning 101. The class has been offered five times over 10 years, and all but one student finished the marathon. That is approximately 200 students -- all first time marathoners and many with absolutely no running background. This book follows the same 16-week, four-day-a-week workout plan. What makes the success rate of this program so much higher than any other? The special emphasis on the psychological aspects of endurance activities. You don't have to love to run -- you don't even have to like it -- but you have to realize that you are capable of more than you have ever thought possible. One participant in the program explained it like this: I'm doing this for me -- not for others or the time clock. I just feel better when I run, plus it helps me to cope with things in general. The skills we've learned in this class don't apply just to marathoning -- they apply to life! Just like you never know what the next step in a marathon will bring, so too, you never know what will happen next in life. But if you don't keep going, you're never going to find out. By staying relaxed, centered, and positive you handle just about anything that comes your way. This is marathon running for real people, people with jobs and families and obligations outside of running. The Non-Runner's Marathon Trainer has proven successful for men and women of all ages. Now let it work for you.

Marathon Woman Kathrine Switzer,2017-04-04 In 1967, Kathrine Switzer was the first woman to officially run what was then the all male Boston Marathon, infuriating one of the event's directors who attempted to violently eject her. In what would become an iconic sports image, Switzer escaped and finished the race. This was a watershed moment for the sport, as well as a significant event in women's history. Including updates from the 2008 Summer Olympics, the paperback edition of Marathon Woman details the life of an incredible, pioneering athlete, and the lasting effect she's had on women's sports. Switzer's energy and drive permeate the pages of this warm, witty memoir as she describes everything from the childhood events that inspired her to succeed to her big win in the 1974 New York City Marathon, and beyond.

Marathon Man Bill Rodgers,Matthew Shepatin,2013-04-02 The legendary long-distance runner details his historic victory in the 1975 Boston Marathon that launched the modern running boom Within a span of two hours and nine minutes, Bill Rodgers went from obscurity to legend, from Bill Rodgers to Boston Billy. In doing so, he instantly became the people's champ and the poster boy for the soulful 1970s distance runner. Having won the Boston Marathon and New York Marathon four times each, he remains the only marathoner to have appeared on the cover of Sports Illustrated twice. Winning the Holy Grail of marathons in an unthinkable record time changed Bill's life forever. But his dramatic breakthrough in Boston also changed the lives of countless others, instilling in other American runners the belief that they could follow in his footsteps, and inspiring thousands of regular people to lace up their shoes and chase down their own dreams. In the year before Rodger's victory at the 1975 Boston Marathon, 20,000 people had completed a marathon in the United States. By 2009, participants reached nearly half a million. Thirty-seven years later Bill Rodgers still possesses the same warm, endearing, and whimsical spirit that turned him into one of America's most beloved athletes. In Marathon Man he details for the first time this historic race and the events that led him there.

1:59 Philip Maffetone, 2014-08-05 What will it take to run a marathon in less than two hours? The world's fastest times for the marathon have been dropping since the distance of 26.2 miles was made official nearly one hundred years ago. But after a noticeable decline that occurred for a half century, the times, while still edging lower, have stalled several minutes north of two hours for the past decade. For the first time, 1:59 examines what it will take for an elite distance runner to go sub-two hours. It will require more than raw talent, optimal body size, and great athletic genes. In order to become marathon's Roger Bannister and smash this elusive record, this runner must follow a healthy diet and an individualized training regimen that takes advantage of specific environmental factors ("live high, train low"). Because precious seconds count over each mile run, other critical considerations include improved running form and economy, sharpened mental focus, and wearing the right type of racing flats (or even going barefoot). The athlete who finally breaks distance running's most tantalizing barrier will become a worldwide celebrity overnight. Will the runner be a Kenyan, an Ethiopian, an American, or a marathoner from another country? And how soon will it happen? By providing a unique window into the highly competitive world of elite marathon running, this book also allows running enthusiasts to have a thorough understanding of the true potential of endurance athletes. And in turn, they can apply the same training and racing principles discussed in 1:59 to their own running, whether it's a 10K, half marathon, marathon, or ultramarathon.

Life Is a Marathon Matt Fitzgerald, 2019-03-26 An endurance athlete and coach reveals how the marathon transforms the lives of everyone who attempts it--and how it has helped his own family cope with serious adversity. Step after step for 26.2 miles, hundreds of thousands of people run marathons. But why--what compels people past pain, lost toenails, 5.30 am start times, The Wall? Sports writer Matt Fitzgerald set out to run eight marathons in eight weeks across the country to answer that question. At each race, he meets an array of runners, from first timers, to dad-daughter teams and spouses, to people who'd been running for decades, and asks them what keeps them running. But there is another deeply personal part to Matt's journey: his own relationship to the sport--and how it helped him overcome his own struggles and cope with his wife Nataki's severe bipolar disorder. A combination of Matt's own *How Bad Do You Want It?* and *What I Talk About When I Talk About Running*, *Life Is a Marathon* captures the magic of those 26.2 miles. At the end of the day--and at the end of the race--the pursuit of a marathon finish line is not unlike the pursuit of happiness. You will pick up the book for a powerful personal story about what running does for the people for whom it does the most. You will put it down with a greater understanding of what it means to be alive in this world.

The Honolulu Marathon Mark Hazard Osmun, 2006-05-01 The Honolulu Marathon. The third-largest marathon in the world. Over 30,000 runners in a single year. Over \$100,000 paid to leading racers. But it didn't start out that way. In The Honolulu Marathon, Mark Hazard Osmun, recounts the origins of this amazing event and the motivations of the people who made it happen. From recording the promotional showmanship of the zealous Dr. Jack Scaff, to kidnapping world-class runners, to running in the race itself, Osmun became the principal chronicler of the marathon--an event that became the bellwether for the nation's subsequent Running Boom. Originally published in 1979, and told in a fast-paced, engaging, and sometimes irreverent style, The Honolulu Marathon placed the event on the international stage and now gives us perspective on the colossus it has become. Now with new material, an author preface, and an annually updated Race Statistics section, The Honolulu Marathon is a must-read for everyone who has--or will--run the race.

The hilly course challenges runners with well-known landmarks such as Heartbreak Hill and the deceptively inviting downhill treks at both the start and finish of the 26.2-mile journey. Chicago Marathon Raymond Britt, 2009 On Saturday, September 23, 1905, fifteen determined runners bolted at the sound of the starter's gun to begin an amazing journey of distance and endurance: the first Chicago Marathon. Huge crowds witnessed a thrilling race that had it all: action, disaster, suspense, a fallen favorite, and a cliff-hanger ending. It was epic, defining a new chapter in Chicago's athletic history. More than a century later, each year Chicago welcomes nearly 40,000 inspiring runners—from the world's best to complete novices—who will start, discover, battle, and ultimately finish something they once thought impossible, even ridiculous: the Chicago Marathon, all 26 miles, 385 yards. This book takes the reader into the marathon experience, including the sights, sounds, emotions, challenges, and achievements.

Bricklayer Bill Patrick L. Kennedy, Lawrence W. Kennedy, 2018-06-29 Two weeks after the United States officially entered World War I, Irish American Bricklayer Bill Kennedy won the Boston Marathon wearing his stars-and-stripes bandana, rallying the crowd of patriotic spectators. Kennedy became an American hero and, with outrageous stories of his riding the rails and sleeping on pool tables, a racing legend whose name has since appeared in almost every book written on the Boston Marathon. When journalist Patrick Kennedy and historian Lawrence Kennedy unearthed their uncle's unpublished memoir, they discovered a colorful character who lived a tumultuous life, beyond his multiple marathons. The bricklayer survived typhoid fever, a five-story fall, auto and train accidents, World War action, Depression-era bankruptcy, decades of back-breaking work, and his own tendency to tittle. In many ways, Bill typified the colorful, newly emerging culture and working-class ethic of competitive long-distance running before it became a professionalized sport. Bricklayer Bill takes us back to another time, when bricklayers, plumbers, and printers could take the

stage as star athletes.

The People’s Race Inc. Michael S. K. N. Tsai,2016-11-30 The Honolulu Marathon debuted in 1973 as the shared vision of a maverick cardiologist bent on proving the benefit of long-distance running for cardiac patients and an impetuous mayor eager to prove Honolulu the equal of the top cities in the country. Over a span of forty-plus years, the race matured into one of the largest marathons in the world, a \$100 million economic engine for its home state, and a launch pad for some of the most dominant long-distance runners in modern history. From its modest start as a community event for local amateurs, the race now regularly attracts 30,000 entrants—more than half from Japan—and boasts elite fields led by Kenyan and Ethiopian professional runners, each hoping to earn a share of a \$150,000 prize purse. The People’s Race Inc. captures the personalities, politics, and power plays behind the burgeoning growth of the Honolulu Marathon and provides a unique lens for understanding the complex history of the sport itself. Drawn from revealing interviews with those closest to the event, as well as exhaustive research, journalist Michael Tsai presents an insider’s account of how organizers forged lucrative partnerships with foreign investors, helped initiate the age of African dominance of the marathon, and weathered some of the most bizarre challenges imaginable. The book also exposes the ways in which the marathon's expansive growth mirrored the explosive, at times bewildering, development of post-statehood Hawai’i.

My Marathon Frank Shorter,John Brant,2016-07-05 My Marathon: Reflections on a Gold Medal Life is a revealing memoir by Frank Shorter, the father of American distance running. After winning the 1969 NCAA title in the 10,000 meters during his senior year at Yale, Shorter went on to win a staggering 24 national titles on track, road, and cross-country courses, but it was in the marathon that Shorter achieved his greatest fame and recognition. At the 1972 Munich Games, Shorter won the Olympic marathon finishing more than 2 minutes ahead of the second-place finisher. Four years later, he finished a controversial second in the marathon at the Olympic Games in Montreal. The controversy, still unresolved to this day, revolved around the East German “winner” being a possible drug cheat. Shorter later founded the United States Anti-Doping Agency. Written with noted sportswriter John Brant, My Marathon details these inspiring events, as well as the physical and emotional abuse Shorter suffered as a child. This inspiring memoir is a testament to the resiliency of the human spirit and the transformative power of sports.
