Unmasked Ian Miller,2022-02-11 Masks have been a ubiquitous and oft-politicized aspect of the COVID-19 pandemic. Years of painstakingly organized pre-pandemic planning documents led public health experts to initially discourage the use of masks, or even insinuate that they could lead to increased rates of spread. Yet seemingly in a matter of days in spring 2020, leading infectious disease scientists and organizations reversed their previous positions and recommended masking as the key tool to slow the spread of COVID and dramatically reduce infections. *Unmasked* tells the story of how effective or ineffective masks and mask mandate policies were in impacting the trajectory of the pandemic throughout the world. Author Ian Miller covers the earliest days of the pandemic, from experts such as Dr. Anthony Fauci contradicting their previous statements and recommending masks as the most important policy intervention against the spread of COVID, to the months afterward as many locations around the globe mandated masks in nearly all public settings. With easy-to-understand charts and visual aids, along with detailed, clear explanations of the dramatic shift in policy and expectations, *Unmasked* makes the data-driven case that masks might not have achieved the goals that Fauci and other public health experts created.

The Face Mask In COVID Times Deborah Lupton, Clare Southerton, Marianne Clark, Ash Watson, 2021-04-19 The simple fabric face mask is a key agent in the fight against the global spread of COVID-19. However, beyond its role as a protective covering against coronavirus infection, the face mask is the bearer of powerful symbolic and political power and arouses intense emotions. Adopting an international perspective informed by social theory, *The Face Mask in COVID Times: A Sociomaterial Analysis* offers an intriguing and original investigation of the social, cultural and historical dimensions of face-masking as a practice in the age of COVID. Rather than Beck's 'risk society', we are now living in a 'COVID society', the long-term effects of which have yet to be experienced or imagined. Everything has changed. The COVID crisis has generated novel forms of sociality and new ways of living and moving through space and time. In this new world, the face mask has become a significant object, positioned as one of the key ways people can protect themselves and others from infection with the coronavirus. The face mask is rich with symbolic meaning as well as practical value. In the words of theorist Jane Bennett, the face mask has acquired a new 'thing-power' as it is coming together with human bodies in these times of uncertainty, illness and death. The role of the face mask in COVID times has been the subject of debate and dissension,

arousing strong feelings. The historical and cultural contexts in which face masks against COVID contagion are worn (or not worn) are important to consider. In some countries, such as Japan and other East Asian nations, face mask wearing has a long tradition. Full or partial facial coverings, such as veiling, is common practice in regions such as the Middle East. In many other countries, including most countries in the Global North, most people, beyond health care workers, have little or no experience of face masks. They have had to learn how to make sense of face masking as a protective practice and how to incorporate face masks into their everyday practices and routines. Face masking practices have become highly political. The USA has witnessed protests against face mask wearing that rest on 'sovereign individualism', a notion which is highly specific to the contemporary political climate in that country. Face masks have also been worn to make political statements: bearing anti-racist statements, for example, but also Trump campaign support. Meanwhile, celebrities and influencers have sought to advocate for face mask wearing as part of their branding, while art makers, museums, designers and novelty fashion manufacturers have identified the opportunity to profit from this sudden new market. Face masks have become a fashion item as well as a medical device: both a way of signifying the wearer's individuality and beliefs and their ethical stance in relation to the need to protect their own and others' health. *The Face Mask in COVID Times: A Sociomaterial Analysis* provides a short and accessible analysis of the sociomaterial dimensions of the face mask in the age of COVID-19. The book presents seven short chapters and an epilogue. We bring together sociomaterial theoretical perspectives with compelling examples from public health advice and campaigns, anti-mask activism as well as

popular culture (news reports, blog posts, videos, online shopping sites, art works) to illustrate our theoretical points, and use Images to support our analysis.

Mask ,2019-09-24 2020 IBPA Awards Winner! Mask presents a striking collection of rare masks steeped in ancient tradition, captured through the lens of one of the world's most celebrated documentary photographers. Celebrated photographer Chris Rainier has documented indigenous and endangered cultures worldwide. What began as a focus on the masks of New Guinea—where modernity threatened to erase ancient rituals and

cultures—became an expansive journey to find and photograph traditional masks that has taken Rainier across six continents over the past thirty years. The result is this mesmerizing photographic collection of masks—some of them ancient, some newer, many hidden at the edges of the known world and rarely revealed to outsiders.

Traditional masks are so often seen behind the glass of museum cabinets, divorced from their spiritual significance. But the masks in this collection are still being danced today, in countless cultures all over the world. Rainier conveys them pulsing with the rhythms of life, full of power and spiritual relevance. Through his stunning photography—at once mysterious and unguarded—Rainier takes us on a pilgrimage to experience masks and mask rituals: from those found at initiation rituals in Burkina Faso to Bön Buddhist masks long hidden in a Nepalese monastery in the high Himalayas, the raven and bear regalia of North American First Nation potlatches, and the terrifying, child-chasing Krampus masks of the Austrian Alps. Accompanying these striking images are a foreword by renowned essayist Pico Iyer, ethnographic notes from anthropologist Robert L. Welsch, and fascinating stories recounting Rainier's journeys to distant lands to preserve and celebrate these objects of beauty and power and the cultures that produce them.
