How to Practice Mayan Astrology Bruce Scofield,Barry C. Orr,2006-11-27 A contemporary and practical guide to Mayan astrological techniques • Discusses the logic and meaning of the 20 day-signs of the Mayan calendar • Explains the many cycles of Mayan astrology, such as the 9-day cycle of the Night Lords and the 13-day trecena • Contains extensive tables of Mayan astrological data, allowing readers to cast their own Mayan horoscopes How to Practice Mayan Astrology presents a contemporary guide to one of the most sophisticated astrological systems ever developed. Like other ancient peoples, the Maya looked to the cycles of the planets as markers of time and designators of order. The predictable cycles they observed became codified in the Mayan calendar and astrological system as a way of organizing the seeming chaos of human life. Mayan astrology is based on 20 named days that are cycled 13 times to create a 260-day calendar, the Tzolkin. The authors explain the symbolism, logic, and meaning of the 20 day-signs; how these signs reflect 260 possible personality types; and how they can be used for divination. They also explain the important role of the Four Directions and the planet Venus in one's personality matrix and life issues. Included are extensive, easy-to-use tables of Mayan astrological data, allowing readers to determine their day-signs, to see how these signs are also influenced by the cycle of the Night Lords and the 13-day trecena, and to cast their own horoscopes.

As a long-time lover of the Mayan world, 'Mayan Calendar Astrology' finally opened my eyes to the subtle workings of the 260-day calendar and led me to embrace it as a genuine path to self-understanding. The Astrology of 2012 and Beyond Cal Garrison,2009-07-01 In October 2007, a new phenomenon appeared in the sky, was named the Comet Holmes, and is being claimed and acclaimed by the Hopi Nation as the Blue Star of their prophecy. The Blue Star is the harbinger. Between now and somewhere in 2013-2014, when the Red Star appears, great shifts in human consciousness will continue. With the fulfillment of the Mayan Long Count calendar in 2012 and the appearance of the Red Star, many are predicting that human consciousness will rise to the next level. Although there may be catastrophic events associated with this period, and life as we know it will surely change, if we do the work, this will not be the Apocalypse. In The Astrology of 2012 and Beyond, Garrison explores the changing sky, starting with the movement of Pluto into Capricorn, a region it hasn't inhabited since 1733. It's revolutionary times coming for individuals, governments, and the planet. Garrison draws on traditional astrology and her understanding of the Hopi prophecies and their

relationship to the Mayan 2012 predictions, as well as the ending of the 13,000 year masculine kundalini cycle, to offer practical advice and information that will help us evolve through the next four years, including what to expect during the nearly inevitable polar shift.
